About Concrete Pumping Holdings (CPH)

CPH is the leading provider of concrete pumping services and concrete waste management services in the fragmented U.S. and U.K. markets, operating under the only established, national brands in both markets (Brundage-Bone and Camfaud, respectively). Concrete pumping is a specialized method of concrete placement that requires highly-skilled operators to position a truck-mounted fully-articulating boom for precise delivery of ready-mix concrete from mixer trucks to placing crews on a job site. CPH's large fleet of specialized pumping equipment and trained operators position it to deliver concrete placement solutions that facilitate substantial labor cost savings to customers, shorten concrete placement times, enhance worksite safety and improve construction quality. CPH is also the leading provider of concrete waste management services in the U.S. market, operating under the only established, national brand, Eco-Pan. Highly complementary to its core concrete pumping service, Eco-Pan provides a full-service, cost-effective, regulatory-compliant solution to manage environmental issues caused by concrete washout. As of April 30, 2018, CPH provides concrete pumping services in the U.S. from a footprint of 80 locations across 22 states, concrete pumping services in the U.K. from 28 locations, and route-based concrete waste management services from 13 locations in the U.S. For more information, please visit www.concretepumpingholdings.com or CPH's brand websites at www.brundagebone.com, www.camfaud.co.uk, or www.eco-pan.com.
