Acquisition

Nordic Cinema Group: As previously announced on January 23, 2017, AMC entered into a definitive agreement to acquire the film exhibition business of the largest theatre exhibitor in seven countries in the affluent northern region of Europe, Stockholm-based Nordic Cinema Group Holding AB ("Nordic"), for total consideration of approximately SEK 8,250 million (\$929 million USD)¹. As of December 31, 2016, Nordic has 68 theatres and 463 screens in nearly 50 large and medium-sized cities in Scandinavia and the Nordic and Baltic nations, and a substantial minority investment in another 50 associated theatres with 204 screens, to which Nordic provides a variety of shared services. Nordic is expected to realize additional value potential by completing a promising pipeline of 10 theatre development projects in 2017 and 2018. All Nordic activities are conducted locally in seven markets under several brands, including SF Bio in Sweden, SF Kino in Norway, Finnkino in Finland, and Forum Cinemas in Estonia, Latvia, and Lithuania. Additional associated theatres also operate in Denmark.

Nordic had approximately SEK 2,938 million (\$349 million USD)² of revenue in 2015, including box office revenues of SEK 1,928 million (\$229 million USD)². Total revenues for the twelve month period ended September 30, 2016 were SEK 3,159 million (\$375 million USD)³ and Nordic operating income margins for that twelve month period exceeded those of AMC.

The foregoing financial data with respect to Nordic is unaudited and has been prepared in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS") and is not in accordance with US GAAP. The accounting rules under IFRS and US GAAP are different which may lead to differences in accounting upon acquisition.

The transaction is expected to close on or before June 30, 2016 and is conditional upon antitrust clearance by the European Commission.

(1) We present Adjusted EBITDA as a supplemental measure of our performance. We define Adjusted EBITDA as net earnings plus (i) income tax provision, (ii) interest expense and (iii) depreciation and amortization, as further adjusted to eliminate the impact of certain items that we do not consider indicative of our ongoing operating performance and to include any cash distributions of earnings from our equity method investees. These further adjustments are itemized above. You are encouraged to evaluate these adjustments and the reasons we consider them appropriate for supplemental analysis. In evaluating Adjusted EBITDA, you should be aware that in the future we may incur expenses that are the same as or similar to some of the adjustments in this presentation. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Adjusted EBITDA is a non-GAAP financial measure and should not be construed as an alternative to net earnings as an indicator of operating performance or as an alternative to cash flow provided by operating activities as a measure of liquidity (as determined in accordance with U.S. GAAP). Adjusted EBITDA may not be comparable to similarly titled measures reported by other companies. We have included Adjusted EBITDA because we believe it provides management and investors with additional information to measure our performance and estimate our value.

Adjusted EBITDA has important limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under U.S. GAAP. For example,

Adjusted EBITDA:

- does not reflect our capital expenditures, future requirements for capital expenditures or contractual commitments;
- does not reflect changes in, or cash requirements for, our working capital needs;
- does not reflect the significant interest expenses, or the cash requirements necessary to service interest or principal payments, on our debt;
- excludes income tax payments that represent a reduction in cash available to us;
- does not reflect any cash requirements for the assets being depreciated and amortized that may have to be replaced in the future; and
- does not reflect the impact of divestitures that may be required in connection with recently completed acquisitions.

(2) Amounts represent preopening expense related to temporarily closed screens under renovation, theatre and other closure expense for the permanent closure of screens including the related accretion of interest, non-cash deferred digital equipment rent, and disposition of assets and other non-operating gains or losses included in operating expenses. We have excluded these items as they are non-cash in nature, include components of interest cost for the time value of money or are non-operating in nature.

(3) Merger, acquisition and transition costs is excluded as it is non-operating in nature.

(4) Non-cash or non-recurring included in General and Administrative: Other
