GREENSBORO, N.C.--(BUSINESS WIRE)-- VF Corporation (NYSE: VFC) today reported financial results for its third quarter ended December 29, 2018. All per share amounts are presented on a diluted basis. This release refers to “reported” and “constant dollar” amounts,

terms that are described under the heading “Constant Currency - Excluding the Impact of Foreign Currency.” Unless otherwise noted, “reported” and “constant dollar” amounts are the same. This release also refers to “continuing” and “discontinued” operations amounts, which are concepts described under the heading “Discontinued Operations - *Nautica*<sup>®</sup> Brand Business and Licensing Business.” Unless otherwise noted, results presented are based on continuing operations. This release also refers to “adjusted” amounts, terms that are described under the heading “Adjusted Amounts - Excluding Williamson-Dickie, *Icebreaker*<sup>®</sup>, *Altra*<sup>®</sup>, *Reef*<sup>®</sup>, and Jeans Spin-Off Transaction and Deal Related Expenses, Costs Related to Office Relocations and the Provisional Impact of U.S. Tax Legislation.” Unless otherwise noted, “reported” and “adjusted” amounts are the same.

“VF's third quarter results were fueled by strong growth in our largest brands and balanced growth across the core dimensions of our portfolio,” said Steve Rendle, Chairman, President and Chief Executive Officer. “Based on the strength of our third quarter performance and the growth trajectory we see for the remainder of fiscal 2019, we are again increasing our full year outlook, including an additional \$45 million of growth-focused investments aimed at accelerating growth and value creation into fiscal year 2020. We remain sharply focused on executing our integrated growth strategy and transforming VF into a purpose-led, performance-driven enterprise committed to delivering superior returns to shareholders.”

### ***Constant Currency - Excluding the Impact of Foreign Currency***

This release refers to “reported” amounts in accordance with U.S. generally accepted accounting principles (“GAAP”), which include translation impacts from foreign currency exchange rates. This release also refers to “constant dollar” amounts, which exclude the impact of translating foreign currencies into U.S. dollars. Reconciliations of GAAP measures to constant currency amounts are presented in the supplemental financial information included with this release, which identifies and quantifies all excluded items, and provides management’s view of why this information is useful to investors.

### ***Discontinued Operations - *Nautica*<sup>®</sup> Brand Business and Licensing Business***

On April 30, 2018, the company completed the sale of its *Nautica*<sup>®</sup> brand business. On April 28, 2017, the company completed the sale of its Licensed Sports Group (“LSG”) business, including the *Majestic*<sup>®</sup> brand. In conjunction with the LSG divestiture, VF executed its plan to entirely exit the licensing business and completed the sale of the assets of the *JanSport*<sup>®</sup> brand collegiate business in the fourth quarter of 2017. Accordingly, the company has included the operating results of these businesses in discontinued operations through their respective dates of sale.

### ***Adjusted Amounts - Excluding Williamson-Dickie, *Icebreaker*<sup>®</sup>, *Altra*<sup>®</sup>, *Reef*<sup>®</sup>, and Jeans Spin-Off Transaction and Deal Related Expenses, Costs Related to Office Relocations and the Provisional Impact of U.S. Tax Legislation***

This release refers to adjusted amounts that exclude transaction and deal related expenses associated with the acquisitions and integration of Williamson-Dickie, *Icebreaker*<sup>®</sup> and *Altra*<sup>®</sup>, and expenses and losses on sale related to the divestitures of the *Reef*<sup>®</sup> brand and the Van Moer business, which was acquired in connection with the Williamson-Dickie

acquisition. The release also refers to transaction expenses associated with the planned spin-off of the Jeans business. Total transaction and deal related expenses, including the losses on sale, were approximately \$63 million in the third quarter of fiscal 2019 and \$135 million in the first nine months of fiscal 2019.

This release also refers to adjusted amounts that exclude costs primarily associated with the previously announced relocations of VF's global headquarters and certain brands to Denver, Colorado. Total costs were approximately \$6 million in the third quarter of fiscal 2019 and \$17 million in the first nine months of fiscal 2019.

Adjusted amounts in this release also exclude the provisional amounts recorded due to recent U.S. tax legislation. On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act. Measurement period adjustments related to the provisional net charge resulted in a net expense of approximately \$10 million in the third quarter of fiscal 2019 and \$23 million in the first nine months of fiscal 2019.

Combined, the above net charges negatively impacted earnings per share by \$0.16 during the third quarter of fiscal 2019 and \$0.36 during the first nine months of fiscal 2019. All adjusted amounts referenced herein exclude the effects of these amounts.

Reconciliations of measures calculated in accordance with GAAP to adjusted amounts are presented in the supplemental financial information included with this release, which identifies and quantifies all excluded items, and provides management's view of why this information is useful to investors.

There are also risks associated with the relocation of our global headquarters and a number of brands to the metro Denver area, including the risk of significant disruption to our operations, the temporary diversion of management resources and loss of key employees who have substantial experience and expertise in our business, the risk that we may encounter difficulties retaining employees who elect to transfer and attracting new talent in the Denver area to replace our employees who are unwilling to relocate, the risk that the relocation may involve significant additional costs to us and that the expected benefits of the move may not be fully realized. Other risks include foreign currency fluctuations; the level of consumer demand for apparel, footwear and accessories; disruption to VF's distribution system; VF's reliance on a small number of large customers; the financial strength of VF's

customers; fluctuations in the price, availability and quality of raw materials and contracted products; disruption and volatility in the global capital and credit markets; VF's response to changing fashion trends, evolving consumer preferences and changing patterns of consumer behavior, intense competition from online retailers, manufacturing and product innovation; increasing pressure on margins; VF's ability to implement its business strategy; VF's ability to grow its international and direct-to-consumer businesses; VF's and its vendors' ability to maintain the strength and security of information technology systems; the risk that VF's facilities and systems and those of our third-party service providers may be vulnerable to and unable to anticipate or detect data security breaches and data or financial loss; VF's ability to properly collect, use, manage and secure consumer and employee data; stability of VF's manufacturing facilities and foreign suppliers; continued use by VF's suppliers of ethical business practices; VF's ability to accurately forecast demand for products; continuity of members of VF's management; VF's ability to protect trademarks and other intellectual property rights; possible goodwill and other asset impairment; maintenance by VF's licensees and distributors of the value of VF's brands; VF's ability to execute and integrate acquisitions; changes in tax laws and liabilities; legal, regulatory, political and economic risks; the risk of economic uncertainty associated with the pending exit of the United Kingdom from the European Union ("Brexit") or any other similar referendums that may be held; and adverse or unexpected weather conditions. <b>Constant Currency Financial Information</b>			

VF is a global company that reports financial information in U.S. dollars in accordance with GAAP. Foreign currency exchange rate fluctuations affect the amounts reported by VF from translating its foreign revenues and expenses into U.S. dollars. These rate fluctuations can have a significant effect on reported operating results. As a supplement to our reported operating results, we present constant currency financial information, which is a non-GAAP financial measure that excludes the impact of translating foreign currencies into U.S. dollars. We use constant currency information to provide a framework to assess how our business performed excluding the effects of changes in the rates used to calculate foreign currency translation. Management believes this information is useful to investors to facilitate comparison of operating results and better identify trends in our businesses.

To calculate foreign currency translation on a constant currency basis, operating results for the current year period for entities reporting in currencies other than the U.S. dollar are translated into U.S. dollars at the average exchange rates in effect during the comparable period of the prior year (rather than the actual exchange rates in effect during the current year period).

These constant currency performance measures should be viewed in addition to, and not in lieu of or superior to, our operating performance measures calculated in accordance with GAAP. The constant currency information presented may not be comparable to similarly titled measures reported by other companies.
