Capstone Turbine Announces First Quarter Fiscal Year 2015 Operating Results

Record Product Backlog of \$175.2 Million at June 30, 2014

CHATSWORTH, Calif., Aug. 7, 2014 (GLOBE NEWSWIRE) --[Capstone Turbine Corporation](#) (Nasdaq:CPST), the world's leading clean technology manufacturer of microturbine energy systems, today announced its financial results for the first quarter of fiscal year 2015 ended June 30, 2014.

First Quarter 2015 Highlights

- Revenue of \$23.3 million, product revenue of \$17.6 million
- Gross margin of \$3.4 million, or 15% of revenue
- Product backlog of \$175.2 million at June 30, 2014
- Cash balance of \$46.7 million at June 30, 2014

President and Chief Executive Officer Darren Jamison commented, "Lower than expected revenue and excess finished goods for the first quarter were due to delayed shipment requests for the delivery and installation of equipment on project sites. The timing fluctuations were not the result of any pattern of project cancellations or postponements by customers, but instead reflect the inconsistent nature of our business on a quarter-to-quarter basis. Gross margin showed a modest increase year-over-year despite the softer revenue level, which demonstrates the operating and direct material cost improvements that we have made to our manufacturing processes. Our pipeline remains stronger than ever as a result of the long-term secular trends driving the markets for distributed power generation. With another record high for backlog set at the end of the first quarter, we expect to be able to make up the first quarter shortfall in revenue throughout the remainder of Fiscal 2015 as we drive our business toward profitability."

First Quarter 2015 Financial Summary

Revenue for the first quarter of Fiscal 2015 was \$23.3 million, compared to \$36.4 million for the fourth quarter of Fiscal 2014, and \$24.4 million for the first quarter of Fiscal 2014.
