Capstone Turbine Announces Preliminary Third Quarter Fiscal 2007 Operating Results

CHATSWORTH, Calif.--

Capstone Turbine Corporation (www.microturbine.com) (Nasdaq:CPST) today reported that it expects its fiscal third quarter 2007 revenue to exceed analysts' consensus. The company said it expects revenue for the quarter of approximately \$5.7 million, exceeding analysts' consensus estimate of \$3.6 million. This estimate reflects an increase of approximately 97% over the revenue recorded for the previous quarter ended September 30, 2006 of \$2.9 million.

The company also expects its cash and cash equivalents balance to decrease by approximately \$13.9 million to \$25.5 million as of December 31, 2006, from the \$39.4 million balance at September 30, 2006. The decrease in cash and cash equivalents reflects the timing of cash receipts on the increased revenue for the quarter and payments of the company's short-term liabilities. However, upon successful closing of the equity offering also announced today, the company expects a cash and cash equivalents balance of approximately \$68.0 million.

In addition, the company expects its backlog to improve to \$8.1 million, or an increase of 19%, from the \$6.8 million as of September 30, 2006.

"We are pleased to report that our third quarter revenue of approximately \$5.7 million will substantially exceed analysts' expectations and almost double the \$2.9 million in revenue reported for the second quarter," said Darren Jamison, President and CEO of Capstone Turbine Corporation. "The third-quarter revenue reflects significant increases in product sales in the North American, European and Russian markets," added Jamison.

The information set forth above is estimated and is subject to change. The company is currently finalizing its financial statements for the third quarter ended December 31, 2006. Complete results for that quarter will be announced at the close of the market on Friday, February 9, 2007. The company also will hold a live conference call and webcast to discuss its financial results. Any investor or interested individual can listen to the webcast, which is scheduled to begin at 1:45 p.m. PST (4:45 p.m. EST) on February 9, 2007, by logging on the company's investor relations webpage at www.microturbine.com. A replay of the webcast will be available on the site for 90 days.
