Capstone Turbine Announces Second Quarter Fiscal Year 2015 Operating Results

Gross Margin Increased 240 Basis Points Year-Over-Year Despite Softer Revenue

CHATSWORTH, Calif., Nov. 6, 2014 (GLOBE NEWSWIRE) --[Capstone Turbine Corporation](#) (Nasdaq:CPST), the world's leading clean technology manufacturer of microturbine energy systems, today announced its financial results for the second quarter of fiscal year 2015 ended September 30, 2014.

Second Quarter 2015 Highlights

- Revenue of \$32.2 million, product revenue of \$26.7 million
- Gross margin of \$5.2 million, or 16% of revenue
- Product backlog of \$172.3 million at September 30, 2014
- Cash balance of \$40.8 million at September 30, 2014

President and Chief Executive Officer Darren Jamison commented, "The second quarter of Fiscal 2015 was a vast improvement over the first quarter in terms of the timing of shipments and overall sales volume and revenue. Gross margin increased 240 basis points year-over-year despite softer revenue, a direct result of the substantial operational improvements we are continuing to make to reduce our manufacturing costs. Backlog remains high, which is a key leading indicator of future revenue. Based on our order flow and pipeline, we believe that we will return to year-over-year revenue growth and advance toward profitability in the second half of Fiscal 2015, typically our strongest quarters of the year."
