

# Capstone Turbine Reports Second Quarter Fiscal 2018 Financial Results

Year-over-Year Quarterly Revenue Increases 32%

Quarterly Gross Margin Expands from 5% to 15% of Revenue Year-over-Year

Adjusted EBITDA Loss Improves 55% to \$2.3 Million from \$5.1 Million Last Year

Conference Call and Webcast to Be Held Today at 1:45 PM PT, 4:45 PM ET

CHATSWORTH, Calif., Nov. 02, 2017 (GLOBE NEWSWIRE) -- Capstone Turbine Corporation (www.capstoneturbine.com) (NASDAQ:CPST), the world's leading clean technology manufacturer of microturbine energy systems, reported financial results for its second guarter of fiscal 2018 ended September 30, 2017.

The company reported total revenue of \$19.8 million for the second quarter of fiscal 2018 and a net loss of \$3.7 million, or \$0.09 per share. This compares with total revenue of \$15.0 million and a net loss of \$5.9 million, or \$0.19 per share, reported for the second quarter of fiscal 2017. Weighted average shares outstanding for the quarter ended September 30, 2017 were 42.9 million compared with 30.5 million in the year-ago quarter.

Operating expenses for the quarter decreased 8% to \$5.9 million from \$6.4 million in the year-ago quarter. Operating expenses were the lowest reported since the fourth quarter of fiscal 1999. The Adjusted EBITDA loss improved 55% to \$2.3 million for the second quarter of fiscal 2018 from \$5.1 million in the year-ago quarter.

"Our second quarter and six-month year-to-date results are in-line with our internal expectations and represent a significant improvement over last year. In fact, our second quarter operating expenses were the lowest in 18 years," said Darren Jamison, President and Chief Executive Officer of Capstone.

"Significant progress has been made on our multi-point strategic profitability plan. We recently announced that we are expecting to see an expansion of our accessories, parts and service business over the next two quarters with increased revenue and improved margins, lowering our operating expense target to \$5 million a quarter once our Chatsworth facility is subleased and expecting to see \$2.5 million in bad debt recovery in the next two quarters," said Mr. Jamison. "This represents significant successful execution against our strategic plan, and when combined with the recently confirmed shipment of the 5.2 MWs for a large pipeline project, the Capstone team believes we have an opportunity to accelerate our goal of reaching Adjusted EBITDA breakeven in the upcoming December and/or March quarters," said Mr. Jamison. "This is not our final business destination as we are just getting rolling, but it would mark a very significant milestone for all Capstone employees and stakeholders,"

added Mr. Jamison.

#### Business developments and milestones recently achieved

- Capstone received a letter from The NASDAQ Stock Market stating that the company had regained compliance with The NASDAQ Stock Market's minimum bid price listing requirement, Listing Rule 5550(a) (2). The letter was the result of Capstone's share price being at or above \$1.00 per share for ten consecutive business days from October 12 to 25, 2017.
- Capstone signed a 2-megawatt (MW) Factory Protection Plan (FPP) multi-year contract with its Hawaiian Distributor Critchfield Pacific for a global resort hotel chain on the island of Maui. Total FPP long-term contract coverage for Capstone units operating in Hawaii is now 74% as a result of the latest FPP contract.
- Aerospace Industrial Development Corporation (AIDC), Capstone's exclusive distributor for Taiwan, secured its first C1000 Signature Series order for a biogas project in Taiwan. The biogas-fueled microturbine will be installed at a large piggery.
- Capstone executed a new agreement that appoints a new exclusive oil and gas distributor in Russia. Under the terms of the agreement, the company will grant Turbine International and its affiliate, MTE Service, the sole distribution rights for Capstone's products and services in the Russian oil and gas sector in exchange for \$6.3 million in cash. Under the agreement, Turbine International will pay Capstone \$2.5 million in three payments by February 1, 2018 and the payments will be recorded as bad debt recovery. The remaining payments totaling \$3.8 million are scheduled to be paid over a three-year period beginning in August 2018.
- The Energy Innovation Center (EIC) in Pittsburgh, Pennsylvania selected Capstone clean and green microturbines to retrofit its building. The EIC worked with E-Finity Distributed Generation, Capstone's exclusive distributor for the Mid-Atlantic and Southeastern United States, for the installation of two natural gas-fueled C65 integrated cooling, heat and power (ICHP) microturbines with Capstone's integrated heat recovery modules (HRMs).
- Capstone successfully winded down its \$5.2 million field retrofit program to upgrade non-Signature Series C1000 and C200 microturbines. The retrofit program was completed on schedule and within budget. This program has provided a significant improvement in demonstrated performance and reliability of the non-Signature Series C1000 and C200 microturbines, which now approaches the world-class performance and reliability of the Signature Series C1000, C200 and the C65 and C30 microturbines.
- Capstone announced a new plan to further lower total operating expense by an
  additional \$500 thousand per quarter. As a result, the new management quarterly total
  operating expense target is set at \$5 million. This includes the successful completion
  of its consolidation plan for its two manufacturing facilities into a single manufacturing
  facility allowing for an immediate increase in operational efficiency and reduced facility
  expense when the exited facility is subleased.

 Capstone's energy financing joint venture, Capstone Energy Finance, executed a fiveyear agreement with a large greenhouse operation in Colorado. Multiple propane-fired C65 microturbines will be installed in stand-alone mode at a remote location to provide electricity for the Colorado greenhouse.

#### Financial Highlights of Fiscal 2018 Second Quarter:

- Total revenue increased 32% to \$19.8 million over the prior year's second quarter. Product revenue increased 49% to \$12.2 million and accessories, parts and FPP revenue increased 12% to \$7.6 million over last year's second quarter.
- Gross margin increased to \$3.0 million, or 15% of revenue from \$0.7 million, or 5% of revenue, in the year-ago second quarter.
- Operating expenses decreased 8% for the quarter to \$5.9 million compared with \$6.4 million in the year-ago second quarter.
- Net loss improved 37% to \$3.7 million compared with a net loss of \$5.9 million in last year's second quarter.
- Loss per share of \$0.09 compared to last year's second quarter loss of \$0.19. Weighted average shares outstanding at the end of the second quarter of fiscal 2018 were 42.9 million compared with 30.5 million in the year-ago quarter.
- Adjusted EBITDA loss was \$2.3 million, an improvement of 55%, compared to \$5.1 million a year ago second quarter. Adjusted EBITDA loss per share of \$0.05 compared to last year's second quarter Adjusted EBITDA loss of \$0.17.
- Cash, cash equivalents and restricted cash were \$15.2 million as of September 30, 2017, compared to cash, cash equivalents and restricted cash of \$19.7 million as of March 31, 2017 and \$16.1 million as of September 30, 2016.
- Subsequent to the end of the quarter, the company entered into a warrant exercise
  agreement for net proceeds of approximately \$1.7 million from the exercise of existing
  warrants which was not dilutive to existing stockholders of the company calculated on a
  fully diluted basis.
- Cash usage, excluding net proceeds from equity transactions, during the first sixmonths of fiscal 2018 was \$5.2 million lower, representing a 38% reduction compared to the same period last year.
- Inventories as of September 30, 2017 were \$17.3 million compared with \$15.5 million as of March 31, 2017 and \$19.2 million at the end of the year-ago second quarter.
- As of September 30, 2017, borrowings on the revolving credit facility were \$9.6 million, compared to \$11.5 million as of March 31, 2017 and \$6.2 million as of September 30, 2016.

• The company booked product net orders of approximately \$5.8 million during the second quarter, for a 0.5:1 book-to-bill ratio, compared with \$16.9 million of product net orders received and booked during the prior quarter, which was a 1.3:1 book-to-bill ratio and with \$8.9 million of product net orders received and booked during the year-ago second quarter, which was a 1.1:1 book-to-bill ratio.

"Although our book-to-bill ratio temporarily slowed compared to the previous two quarters as our product mix shifted to smaller 65-kilowatt units during the quarter, recent hurricane activity is driving additional near-term opportunities in Texas, Florida and Puerto Rico," added Mr. Jamison. "We had previously quoted projects in these regions, however, as a result of the recent hurricanes the project operators are looking to potentially accelerate their project timelines," added Mr. Jamison.

"We continue to manage the balance sheet and working capital while focusing on our war on costs and making progress towards our near-term goal of obtaining Adjusted EBITDA breakeven," said Ms. Brooks. "Last week we added an additional \$1.7 million in cash to our balance sheet with the exercise of warrants, which contributed to our objectives of maintaining a strong balance sheet and working to clean up our cap table," added Ms. Brooks.

Adjusted EBITDA is defined as net income before interest, provision for income taxes, depreciation and amortization expense, stock-based compensation expense, the change in warrant valuation and restructuring charges. Adjusted EBITDA is not a measure of our liquidity or financial performance under GAAP and should not be considered as an alternative to net income or any other performance measure derived in accordance with GAAP, or as an alternative to cash flows from operating activities as a measure of our liquidity.

#### **Conference Call and Webcast**

The company will host a live webcast today, November 2, 2017, at 1:45 PM Pacific Time (4:45 PM Eastern Time) to provide the results of the second quarter fiscal 2018 ended September 30, 2017. The company will discuss its financial results and will provide an update on its business activities. At the end of the conference call, Capstone will host a question-and-answer session to provide an opportunity for financial analysts to ask questions. Investors and interested individuals are invited to listen to the webcast by logging on to the company's investor relations webpage at <a href="https://www.capstoneturbine.com">www.capstoneturbine.com</a>. A replay of the webcast will be available on the website for 30 days.

#### **About Capstone Turbine Corporation**

Capstone Turbine Corporation (www.capstoneturbine.com) (NASDAQ:CPST) is the world's leading producer of low-emission microturbine systems and was the first to market commercially viable microturbine energy products. Capstone has shipped over 9,000 Capstone Microturbine systems to customers worldwide. These award-winning systems have logged millions of documented runtime operating hours. Capstone is a member of the U.S. Environmental Protection Agency's Combined Heat and Power Partnership, which is committed to improving the efficiency of the nation's energy infrastructure and reducing emissions of pollutants and greenhouse gases. A UL-Certified ISO 9001:2015 and ISO 14001:2015 certified company, Capstone is headquartered in the Los Angeles area with sales and/or service centers in the United States, Latin America, Europe, Middle East and Asia.

To supplement the Company's unaudited financial data presented on a generally accepted accounting principles (GAAP) basis, management has used Adjusted EBITDA, a non-GAAP measure. This non-GAAP measure is among the indicators management uses as a basis for evaluating the Company's financial performance as well as for forecasting future periods.

Management establishes performance targets, annual budgets and makes operating decisions based in part upon these metrics. Accordingly, disclosure of this non-GAAP measure provides investors with the same information that management uses to understand the Company's economic performance year-over-year. The presentation of this additional information is not meant to be considered in isolation or as a substitute for net income or other measures prepared in accordance with GAAP.

Adjusted EBITDA is defined as net income before interest, provision for income taxes, depreciation and amortization expense, stock-based compensation expense, the change in warrant valuation and restructuring charges. Restructuring charges includes one-time costs related to our cost reduction initiatives. Adjusted EBITDA is not a measure of our liquidity or financial performance under GAAP and should not be considered as an alternative to net income or any other performance measure derived in accordance with GAAP, or as an alternative to cash flows from operating activities as a measure of our liquidity.

While management believes that the non-GAAP financial measures provide useful supplemental information to investors, there are limitations associated with the use of these measures. The measures are not prepared in accordance with GAAP and may not be directly comparable to similarly titled measures of other companies due to potential differences in the exact method of calculation. Management compensates for these limitations by relying primarily on our GAAP results and by using Adjusted EBITDA only supplementally and by reviewing the reconciliations of the non-GAAP financial measures to their most comparable GAAP financial measures.

Non-GAAP financial measures are not in accordance with, or an alternative for, generally accepted accounting principles in the United States. The Company's non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP financial measures, and should be read only in conjunction with the Company's consolidated financial statements prepared in accordance with GAAP.
