TORONTO, Aug. 08, 2024 (GLOBE NEWSWIRE) -- Mount Logan Capital Inc. (Cboe Canada: MLC) ("Mount Logan" or the "Company") announced today its financial results for the quarter ended June 30, 2024. All amounts are stated in United States dollars, unless otherwise indicated.

## Second Quarter 2024 Highlights

- **Total revenue for the asset management segment of the Company** of \$3.4 million, an increase of \$0.4 million, or 13%, as compared to the second quarter of 2023. The increase is primarily due to growth in fees attributable to the increase in SOFIX, CLO and sub-advisory fees, as well as the increase in Ovation management and incentive fees. Second quarter asset management revenues exclude \$1.5 million of management fees associated with Mount Logan's management of the assets of Ability Insurance Company ("Ability"), a wholly-owned subsidiary of the Company, during the second quarter of 2024, which increased by \$0.6 million, or 58% as compared to second quarter 2023 of \$1.0 million.

- **Total net investment income for the insurance segment** was \$23.5 million for the three months ended June 30, 2024, an increase of \$2.1million, or 10%, as compared to the second quarter of 2023, driven by an increase in total insurance investment assets and improvements in yield across the investment portfolio attributable to deployment of capital in a higher rate environment. Excluding the funds withheld under reinsurance contracts and Modco, Ability's net investment income was \$14.9 million, an increase of \$2.2 million, or 17%, as compared to the second quarter of 2023.
- **8.2%<sup>1</sup> yield on the insurance investment portfolio** as of June 30, 2024, due to ongoing portfolio and capital optimization across the insurance solutions portfolio alongside the benefit of higher base rates. Excluding the funds withheld under reinsurance contracts and Modco, the yield was 8.5%.
- **Ability's total assets managed by Mount Logan** increased to \$636.2 million as of June 30, 2024, up \$198.9 million from second quarter 2023 of \$437.3 million. As of June 30, 2024, the insurance segment included \$1.1 billion in total investment assets, up \$142.0 million or 15% from second quarter 2023 investment assets of \$1.0 billion.
- **Book value of the insurance segment** as of June 30, 2024 was \$88.8 million, an increase of \$48.6 million as compared to \$40.2 million for second quarter 2023, driven by higher insurance net income.
- **SRE for the insurance segment** increased to \$11.6 million for the trailing twelve months ended June 30, 2024, up \$17.0 million from trailing twelve months ended June 30, 2023 of (\$5.4) million primarily driven by an increase in net investment income and lower operating expenses, which was partially offset by increased cost of funds. SRE is a non-IFRS financial measure used to assess the insurance segment's generation of profits excluding the impact of certain market volatility and other one-time, non-core components of insurance segment income (loss). The Company believes this measure is useful to securityholders as it provides additional insight into the underlying economics of the insurance segment.
- **FRE for the asset management segment** was \$1.6 million for the three months ended June 30, 2024, an increase of 6.1% compared to second quarter 2023. FRE was \$6.6 million for the trailing twelve months ended June 30, 2024, an increase of \$0.7 million, or 12.2%, compared to the trailing twelve months ended June 30, 2023 of \$5.9 million primarily driven by the previously mentioned revenue improvements, as well as roll-off of one-time expenses.

## Subsequent Events

- **Declared a shareholder distribution in the amount of C\$0.02 per common share** for the quarter ended June 30, 2024, payable on August 30, 2024 to shareholders of record at the close of business on August 22, 2024. This cash dividend marks the twentieth consecutive quarter of the Company issuing a C\$0.02 distribution to its shareholders. This dividend is designated by the Company as an eligible dividend for the purpose of the *Income Tax Act* (Canada) and any similar provincial or territorial legislation. An enhanced dividend tax credit applies to eligible dividends paid to Canadian residents.

## Management Commentary

- **Ted Goldthorpe, Chief Executive Officer and Chairman of Mount Logan** stated, "We are excited to announce our second quarter 2024 results, which demonstrate the earnings power of both our asset management and insurance segments. Fee Related Earnings, or FRE, of the asset management segment was up significantly year-over-year and highlights the growing profitability of our asset management business.

Additionally, our Spread Related Earnings, or SRE, highlights the continued profitability of our insurance segment. The integration of our businesses and focus on profitability are driving better operating performance.”

<sup>1</sup>The yield is calculated based on the net investment income excluding reinsured portfolio income less management fees paid to Mount Logan divided by the average of investments in financial assets for the current and prior period, and then is annualized.

## Selected Financial Highlights

- **Total Capital of the Company** was \$149.7 million as at June 30, 2024, an increase of \$20.2 million as compared to December 31, 2023. Total capital consists of debt obligations and total shareholders' equity.
- **Consolidated net income (loss) before taxes** was \$3.9 million for the three months ended June 30, 2024, an increase of \$4.8 million from \$(0.9) million for second quarter 2023. The increase was primarily attributable to revenue growth in both the segments, asset management and insurance segment. Asset management revenue increased due to increase in management fees, and improvement in insurance segment revenue resulted from better insurance service results and higher investment income. These improvements were partially offset by an increase in costs related to MYGA liabilities due to interest accretion on new MYGA business assumed which was further offset by reduced administrative expenses.
- **Basic Earnings per share (“EPS”)** was \$0.14 for the three months ended June 30, 2024, an increase of \$0.17 from \$(0.03) for the second quarter 2023.
- **Adjusted basic EPS** was \$0.15 for the second quarter 2024, an increase of \$0.10 from \$0.05 for the second quarter 2023.

### Quarter Ended Fee Related Earnings (“FRE”)

FRE is a non-IFRS financial measure used to assess the asset management segment’s generation of profits from revenues that are measured and received on a recurring basis and are not dependent on future realization events. The Company calculates FRE, and reconciles FRE to net income from its asset management activities, as follows:

### Earnings (“SRE”)

Effective March 31, 2024, the Company has introduced a new non-IFRS measure, SRE. The Company uses SRE to assess the performance of the insurance segment, excluding the impact of certain market volatility and other one-time, non-core components of insurance segment income (loss). Excluded items under SRE are investment gains (losses), effects of discount rates and other financial variables on the value of insurance obligations (which is a component of “net insurance finance income/(expense)”), other income and certain general, administrative & other expenses. The Company believes this measure is useful to securityholders as it provides additional insight into the underlying economics of the insurance segment, as further discussed below.

For the insurance segment, SRE equals the sum of (i) the net investment income on the insurance segment’s net invested assets (excluding investment income earned on funds held under reinsurance contracts) less (ii) cost of funds (as described below) and (iii) certain operating expenses.

Cost of funds includes the impact of interest accretion on insurance and investment contract liabilities and amortization of losses recognized for new insurance contracts that are deemed onerous at initial recognition. It also includes experience adjustments which represents the difference between actual and expected cashflows and includes the impact of certain changes to non-financial assumptions.

The Company reconciles SRE to net income (loss) before tax from its insurance segment activities, as follows:

	Three Months Ended							
	Q2-2024	Q1-2024	Q4-2023	Q3-2023	Q2-2023	Q1-2023	Q4-2022	Q3-2022

(1) Includes add-back of management fees paid by Ability to ML Management.

(2) Represents net income for insurance segment, as presented in the Interim Consolidated Statement of Comprehensive Income (Loss).

(3) Excludes net (gains) losses from investment activities on assets retained by the Company under funds withheld arrangement with Front Street Re and Vista.

(4) Represents non-operating income.

(5) Includes the impact of changes in interest rates and other financials assumptions and excludes interest accretion on insurance contract liabilities and reinsurance contract assets.

(6) Represents the unamortized portion of future interest accretion and ceded commissions paid at the time of issue of new MYGA insurance contracts. Future interest accretion and ceded commissions are amortized over the average duration of MYGA contracts reinsured which aligns with the recognition of insurance service revenue. Loss on onerous contracts are part of Insurance service expense.

(7) Represents certain costs incurred by the insurance segment for purposes of IFRS reporting but not the day to day operations of the insurance company.

The following table presents SRE, the performance measure of the insurance segment:

(\$ in Thousands)

(1) Excludes net investment income from investment activities on assets retained by the Company under funds withheld arrangement with Front Street Re and Vista Life and Casualty Reinsurance Company ("Vista").

SRE was \$11.6 million for the trailing twelve months ended June 30, 2024 compared with (\$5.4) million for the trailing twelve months ended June 30, 2023, an increase of \$17.0 million. SRE increased year over year due to increased investment income, and lower other operating expenses, which was partially offset by increased cost of funds. Investment income increased primarily due to an increase in total insurance investment assets as a result of new MYGA business and improvements in yield across the investment portfolio attributable to deployment of capital in a higher rate environment. Cost of funds increased primarily because of increase in interest accretion on MYGA contract liabilities due to addition of new MYGA business, partially offset by the one-time benefit of \$4.8 million in the first quarter of 2024 as a result of an in-force update to Long Term Care business. Other operating expenses decreased as a result of efforts to reduce overall operating cost.

SRE as a percentage of average net invested assets was 1.9% for the trailing twelve months ended June 30, 2024 compared with (1.2)% for the trailing twelve months ended June 30, 2023.

## Liquidity and Capital Resources

As of June 30, 2024, the asset management segment had \$71.8 million (par value) of borrowings outstanding, of which \$33.8 million had a fixed rate and \$38 million had a floating rate. As of June 30, 2024, the insurance segment had \$14.3 million (par value) of borrowings outstanding. Liquid assets, including high-quality assets that are marketable, can be pledged as security for borrowings, and can be converted to cash in a time frame that meets liquidity and funding requirements. As of June 30, 2024 and December 31, 2023, the total liquid assets of the Company were as follows:

(\$ in Thousands)

As at	June 30, 2024	December 31, 2023
Cash and cash equivalents	\$ 87,701	\$ 90,220
Restricted cash posted as collateral	13,324	—
Investments	644,503	643,578
Management fee receivable	2,945	2,599
Receivable for investments sold	352	6,511
Accrued interest and dividend receivable	20,291	19,340
Total liquid assets	<b>\$ 769,116</b>	<b>\$ 762,248</b>

The Company defines working capital as the sum of cash, restricted cash, investments that mature within one year of the reporting date, management fees receivable, receivables for investments sold, accrued interest and dividend receivables, and premium receivables, less the sum of debt obligations, payables for investments purchased, amounts due to affiliates, reinsurance liabilities, and other liabilities that are payable within one year of the reporting date.

As at June 30, 2024, the Company had working capital of \$211.1 million, reflecting current assets of \$227.3 million, offset by current liabilities of \$16.1 million, as compared with working capital of \$183.4 million as at December 31, 2023, reflecting current assets of \$230.8 million, offset by current liabilities of \$47.4 million. The increase in working capital was driven by settlement of payables related to MYGA against the new MYGA policies assumed. It is further due to increased cash in the asset management segment from increased management and incentive fee receipts and net proceeds from the issuance of debenture units, as well as a decrease in due to affiliates in the asset management segment driven by timing of repayment of operating expenses paid by BC Partners on behalf of the Company to third-party providers of goods or services and administrative fees.

## Interest Rate Risk

The Company has obligations to policyholders and other debt obligations that expose it to interest rate risk. The Company also owns debt assets and interest rate swaps that are exposed to interest rate risk. The fair value of these obligations and assets may change if base rate changes in interest rates occur.

The following table summarizes the potential impact on net assets of hypothetical base rate changes in interest rates assuming a parallel shift in the yield curve, with all other variables remaining constant.

<b>As at</b>	<b>June 30, 2024</b>	<b>December 31, 2023</b>
50 basis point increase <sup>(1)</sup>	\$ 11,269	\$ 20,186
50 basis point decrease <sup>(1)</sup>	(18,265)	(21,860)

(1) Losses are presented in brackets and gains are presented as positive numbers.

Actual results may differ significantly from this sensitivity analysis. As such, the sensitivities should only be viewed as directional estimates of the underlying sensitivities for the respective factors based on the assumptions outlined above.

### **About Mount Logan Capital Inc.**

Mount Logan Capital Inc. is an alternative asset management and insurance solutions company that is focused on public and private debt securities in the North American market and the reinsurance of annuity products, primarily through its wholly-owned subsidiaries Mount Logan Management LLC ("ML Management") and Ability Insurance Company ("Ability"), respectively. The Company also actively sources, evaluates, underwrites, manages, monitors and primarily invests in loans, debt securities, and other credit-oriented instruments that present attractive risk-adjusted returns and present low risk of principal impairment through the credit cycle.

Ability is a Nebraska domiciled insurer and reinsurer of long-term care policies acquired by Mount Logan in the fourth quarter of fiscal year 2021. Ability is unique in the insurance industry in that its long-term care portfolio's morbidity risk has been largely re-insured to third parties, and Ability is no longer insuring or re-insuring new long-term care risk.

### **Non-IFRS Financial Measures**

This press release makes reference to certain non-IFRS financial measures. These measures are not recognized measures under IFRS, do not have a standardized meaning prescribed by IFRS and may not be comparable to similar measures presented by other

companies. Rather, these measures are provided as additional information to complement IFRS financial measures by providing further understanding of the Company's results of operations from management's perspective. The Company's definitions of non-IFRS measures used in this press release may not be the same as the definitions for such measures used by other companies in their reporting. Non-IFRS measures have limitations as analytical tools and should not be considered in isolation nor as a substitute for analysis of the Company's financial information reported under IFRS. The Company believes that securities analysts, investors and other interested parties frequently use non-IFRS financial measures in the evaluation of issuers. The Company's management also uses non-IFRS financial measures in order to facilitate operating performance comparisons from period to period.

### **Opportunistic Credit Interval Fund Important Disclosures**

An investor should consider the investment objectives, risks, charges, and expenses of SOFIX carefully before investing. To obtain a copy of the prospectus containing this and other information, please call (833) 404-4103 or download the file from [www.opportunisticcreditintervalfund.com](http://www.opportunisticcreditintervalfund.com). Read the prospectus carefully before you invest.

Investing involves risk. Investment return and the principal value of an investment will fluctuate, and an Investor's shares, when redeemed, may be worth more or less than their original cost. SOFIX is subject to the general risks associated with investing in debt and loan instruments, including market, credit, liquidity, and interest rate risk. The Fund is subject to management and other expenses, which will be paid by SOFIX. Because of the risks associated with SOFIX's ability to use leverage, an investment in SOFIX should be considered speculative and involving a high degree of risk, including the risk of a substantial loss of investment.

There currently is no secondary market for SOFIX 's shares and SOFIX expects that no secondary market will develop. Shares of SOFIX will not be listed on any securities exchange, which makes them inherently illiquid. An investment in SOFIX 's shares is not suitable for investors who cannot tolerate risk of loss or who require liquidity, other than the liquidity provided through the SOFIX 's repurchase policy. Limited liquidity is provided to shareholders only through SOFIX's quarterly repurchase offers, regardless of how SOFIX performs. SOFIX 's distributions policy may, under certain circumstances, have certain adverse consequences to SOFIX and its shareholders because it may result in a return of capital, resulting in less of a shareholder's assets being invested in SOFIX, and, over time, increase SOFIX 's expense ratio. Any invested capital that is returned to the shareholder will be reduced by the SOFIX's fees and expenses, as well as the applicable sales load. Investments in lesser-known, small and medium capitalization companies may be more vulnerable than larger, more established organizations. The sales of securities to fund repurchases could reduce the market price of those securities, which in turn would reduce the SOFIX's NAV.

### **Cautionary Statement Regarding Forward-Looking Statements**

This press release contains forward-looking statements and information within the meaning of applicable securities legislation. Forward-looking statements can be identified by the expressions "seeks", "expects", "believes", "estimates", "will", "target" and similar expressions. The forward-looking statements are not historical facts but reflect the current expectations of the Company regarding future results or events and are based on information currently available to it. Certain material factors and assumptions were applied in

providing these forward-looking statements. The forward-looking statements discussed in this release include, but are not limited to, statements relating to the Company's continued transition to an asset management and insurance platform business and the entering into of further strategic transactions to diversify the Company's business and further grow recurring management fee and other income and increasing Ability's assets; the Company's plans to focus Ability's business on the reinsurance of annuity products; the potential benefits of combining Mount Logan's and Ovation's platform including an increase in fee-related earnings as a result of the acquisition; the decrease in expenses in the asset management segment; the historical growth in the asset management segment and insurance segment being an indicator for future growth; the growth and scalability of the Company's business the Company's business strategy, model, approach and future activities; portfolio composition and size, asset management activities and related income, capital raising activities, future credit opportunities of the Company, portfolio realizations, the protection of stakeholder value; the expansion of the Company's loan portfolio; the ongoing impact of the implementation of new accounting standards, including IFRS 17; and the expansion of Mount Logan's capabilities. All forward-looking statements in this press release are qualified by these cautionary statements. The Company believes that the expectations reflected in forward-looking statements are based upon reasonable assumptions; however, the Company can give no assurance that the actual results or developments will be realized by certain specified dates or at all. These forward-looking statements are subject to a number of risks and uncertainties that could cause actual results or events to differ materially from current expectations, including that the Company has a limited operating history with respect to an asset management oriented business model; Ability may not generate recurring asset management fees, increase its assets or strategically benefit the Company as expected; the expected synergies by combining the business of Mount Logan with the business of Ability may not be realized as expected; the risk that Ability may require a significant investment of capital and other resources in order to expand and grow the business; the Company does not have a record of operating an insurance solutions business and is subject to all the risks and uncertainties associated with a broadening of the Company's business; the risk that the expected synergies of the acquisition of Ovation may not be realized as expected and the matters discussed under "Risks Factors" in the most recently filed annual information form and management discussion and analysis for the Company. Readers, therefore, should not place undue reliance on any such forward-looking statements. Further, a forward-looking statement speaks only as of the date on which such statement is made. The Company undertakes no obligation to publicly update any such statement or to reflect new information or the occurrence of future events or circumstances except as required by securities laws. These forward-looking statements are made as of the date of this press release.

This press release is not, and under no circumstances is it to be construed as, a prospectus or an advertisement and the communication of this release is not, and under no circumstances is it to be construed as, an offer to sell or an offer to purchase any securities in the Company or in any fund or other investment vehicle. This press release is not intended for U.S. persons. The Company's shares are not and will not be registered under the U.S. Securities Act of 1933, as amended, and the Company is not and will not be registered under the U.S. Investment Company Act of 1940 (the "1940 Act").
