Oceania Cruises Welcomes "Vista" To Its Acclaimed Fleet

New Ship to Set Sail in 2023 Represents a "View to the Future"

MIAMI, March 16, 2021 /PRNewswire/ -- [Oceania Cruises](#), the world's leading culinary- and destination-focused cruise line, introduced [Vista](#) to the world today, naming the first of two new 1,200-guest Allura Class ships that are being constructed by renowned Italian shipbuilder Fincantieri S.p.A. The luxury vessel, the seventh for the line, will set sail in 2023, followed by a sister ship in 2025.

Named to reflect the dawn of a new age in travel, *Vista* will exemplify all the hallmarks of the Oceania Cruises experience that guests have come to expect. A marvel in the making, *Vista* will deliver The Finest Cuisine at Sea, exceptionally personalized service with two staff members for every three guests, a warm and welcoming ambiance as a result of the ship's captivating residential furnishings, and introduce several unique firsts for the brand in the realms of dining and guest experience.

"Oceania Cruises is an innovative and ever-evolving brand. We are always looking over the horizon, and *Vista* represents our view to the future," stated Bob Binder, President & CEO of Oceania Cruises.

Consumers and travel advisors can expect to be wowed by the dramatic and glamorous public spaces such as The Grand Dining Room, which soars almost two decks in height and pays homage to the "beautiful age" of early 20th-century Parisian society through its contemporary interpretation of Belle Époque.

Vista's nine additional best-in-class culinary experiences, luxurious signature public spaces, and spacious, residentially inspired suites and staterooms will be revealed starting in May 2021, with her [inaugural voyages](#) opening for sale in September 2021.

Vista represents not just a view to the future for the Oceania Cruises brand, but also the unique vision of the company's thousands of officers and crew who played a pivotal role in the design of the ship and helped shepherd it from concept to design to reality.

"Our officers and crew are always bringing great new ideas to the forefront and then implementing them. More than any other part of the Oceania Cruises organization, we owe our success to our onboard teams. They are the ones who made *Vista* possible, and it is a credit to them, these true visionaries of the seven seas, that we name the ship for them, in their honor," added Binder.

Currently under construction by Fincantieri S.p.A. in Italy, *Vista* will sail her first commercial voyage in early 2023. Measuring approximately 67,000 gross registered tons, the ship will accommodate 1,200 guests and be staffed by 800 officers and crew, offering industry-leading space and staff-to-guest ratios. An unnamed sister ship will debut in 2025.
