*Changing lives
with every breath*

Investor Presentation

Q3 2017

April 27, 2017

➤ Safe Harbor Statement

Statements contained in this presentation that are not historical facts are “forward-looking” statements as contemplated by the Private Securities Litigation Reform Act of 1995. These forward-looking statements — including statements regarding ResMed's projections of future revenue or earnings, expenses, new product development, new product launches and new markets for its products and the integration of acquisitions — are subject to risks and uncertainties, which could cause actual results to materially differ from those projected or implied in the forward-looking statements. Additional risks and uncertainties are discussed in ResMed's periodic reports on file with the U.S. Securities & Exchange Commission. ResMed does not undertake to update its forward-looking statements.

> ResMed – *Driving Value for Shareholders*

Long-term growth

opportunities across all three horizons of ResMed's strategy

Reduce healthcare costs; improve outcomes

Improve quality of life for patients
Prevent chronic disease progression
Reduce costs of managing chronic disease

Proven innovator

in products and Connected Care for sleep apnea, COPD, neuromuscular disease and other chronic diseases

Underpenetrated markets

For sleep-disordered breathing and respiratory care

Disciplined financial management

Operational excellence,
strong capital deployment history,
committed to investing in innovation and
returning excess cash to shareholders

> ResMed's growth strategy

➤ Global leader in sleep apnea management

AirFit™ P10
Nasal Pillows System

AirFit™ N20
Nasal mask

AirFit™ F20
Full face mask

AirSense™ 10

AirMini™

Patient Acuity

End-to-end solutions for sleep apnea & respiratory care

Over 3 million cloud-connected med devices liberating data daily through AirView

AirView™ has over
5 million+ patients

3 million+ patients
monitored at **home** with
connected care

200,000+ diagnostic tests
processed **in the cloud**

Brightree has **45 million+**
patient accounts as part of its
post-acute care network

24 API calls per **second**
from integrators

1,000+ patients a day
sign up for **myAir™**

➤ Liberating sleep data and providing predictive analytics

- Over 1 billion nights of sleep data
- Receiving over 3 million nights of data daily
- Clinically proven devices and solutions
- Leading solutions consulting services
 - improve healthcare outcomes
 - unlock value for patients, physicians, providers and payers

> Sleep apnea is a huge and underpenetrated market

Sleep Heart Health Study: 26% of adults have sleep apnea

> COPD is a large and growing market

- Chronic obstructive pulmonary disease (COPD) is the third leading cause of death worldwide¹
- More than 200 million people worldwide are estimated to have COPD²
 - Largely undiagnosed COPD sufferers in high-growth markets such as China, India, Brazil and E. Europe may be well over 100 million³
- Cost to healthcare systems from COPD is enormous:
 - Europe: ~€48 billion per year⁴
 - US: ~\$50 billion per year⁵
- More than 3 million people worldwide die each year due to COPD⁵

2. Munaf, et al. Sleep Breath 2016
3. Data based on monthly patient setups and compliance rates of DME customers from February 2014 – March 2015. Historical results for this provider over the stated time
4. Crocker, et al., Abstract CHEST 2016

➤ Switching CPAP to ASV increased adherence

- Largest-ever analysis: ~200k patients with treatment-emergent central sleep apnea
- Switching from CPAP to ASV **improves relative adherence by 22 percent**
- Patients who switched from CPAP to ASV had significantly fewer apneas and hypopneas (breathing stoppages or reductions) during sleep

> Non-Invasive Ventilation: *Reduces hospital admissions*

Combining non-invasive ventilation with home oxygen therapy:

- **Reduced likelihood of hospital re-admission or death by 51%**
- Increased time to re-admission to hospital or death by ~90 days

References: Murphy et al. *European Respiratory Society 2016 Late-Breaking Abstract*

> NIV: *Potential to improve outcomes in COPD*

- Mortality risk reduced by over 60%* using long-term non-invasive ventilation (NIV) treatment in severe, hypercapnic chronic obstructive pulmonary disease (COPD)
- One-year mortality in the two matched COPD cohorts:
 - 12% mortality (NIV intervention group)
 - 33% mortality (control group)
- Significant potential for NIV growth:
 - NIV underpenetrated as treatment for COPD
 - Key growth areas: US, Europe, China, Brazil

References: Köhnlein et al. *Lancet Respir Med* 2014

* Mortality reduction is 60% on a relative basis from 33% mortality to 12% mortality, which is 21% reduction on an absolute basis

➤ Longer term growth through a portfolio of options

• Sleep & Consumer wellness

- Engagement in Sleep Health
- Expansion of ResMed brand

• Connected Care Expansion

- Connected devices, predictive analytics, population health models
- Care coordination services
- Post acute care SaaS Solutions

• Adjacent Market Development

- A-Fib, HFpEF, Asthma, Monitoring

➤ Disciplined financial track record

> Q3 2017 results

Key Financial Metrics	Q3 2017
Revenue	\$514.2M +13% (+14% CC)
Non-GAAP gross margin*	58.3%
Non-GAAP operating profit*	\$126.7M +13%
Non-GAAP net income*	\$100.7M +3%
Non-GAAP EPS*	\$0.71 +3%
Cash flow from operations	\$67.6M
Free cash flow	\$53.0M

* Excludes for the impact of the Astral battery field safety notification expenses, release of SERVE-HF accrual, restructuring expenses, acquisition related expenses, litigation settlement expenses and amortization of acquired intangible assets from their evaluation of ongoing operations.

> Diversified revenue sources by region & product

Note: Represents Q3 2017 revenue breakdown

> Operating Excellence: *a continuous process at ResMed*

Capital Deployment

Investment for Growth

- New Products
- Geographic expansion
- Acquisitions

Free Cash Flow returned to Shareholders

- Last twelve months combined dividend and stock repurchase = 51% of free cash flow

Increasing Dividend

- YTD FY 2017 dividend payout ratio of 58% of net income
- Dividend per share increased by 10% over prior year

Combined dividend and buy-back over rolling 5 years
= **81% of free cash flow**

*In the last 12 months, we changed
more than **11 million lives.***

*Our aspiration is to change
20 million lives by 2020*
