ResMed Inc. Announces Results for the Third Quarter of Fiscal Year 2023

Year-over-year revenue grows 29%, operating profit up 28%, non-GAAP operating profit up 27%

Note: A webcast of ResMed's conference call will be available at 4:30 p.m. ET today at <http://investor.resmed.com>

SAN DIEGO, April 27, 2023 (GLOBE NEWSWIRE) -- ResMed Inc. (NYSE: RMD, ASX: RMD) today announced results for its quarter ended March 31, 2023.

Third Quarter 2023 Highlights

All comparisons are to the prior year period

- Revenue increased by 29% to \$1,116.9 million; up 31% on a constant currency basis
- Gross margin contracted 150 bps to 55.3%; non-GAAP gross margin contracted 200 bps to 56.1%
- Income from operations increased 28%; non-GAAP operating profit up 27%
- Operating cash flow of \$282.6 million
- Diluted earnings per share of \$1.58; non-GAAP diluted earnings per share of \$1.68

"During the third quarter, we significantly ramped up production and delivery of our cloud-connected flow generator devices to meet ongoing high demand from customers, resulting in strong device sales growth across our global markets," said Mick Farrell, ResMed's CEO. "We now have full global availability of our connected AirSense 10 platform, while we continue to ramp production and availability across more geographies of our AirSense 11 platform. The bottom line is this: We can now support global customer demand for CPAP and APAP devices to serve the entire sleep device market. This is great news for physicians, providers, and especially for patients. We also saw very strong growth in our mask and patient interfaces businesses globally, demonstrating a sustainable focus on patient adherence and resupply. Our outside-hospital software-as-a-service business achieved high-single-digit growth organically and reached well into double-digit growth with a full quarter of contribution from our MEDIFOX DAN acquisition that we closed last November. We remain laser-focused on delivering lifesaving therapy solutions and accelerating the adoption of digital health in sleep apnea, COPD, insomnia, and out-of-hospital care. During the last 12 months, we improved over 156 million lives, and we are well on our way to our goal of helping 250 million people sleep better, breathe better, and live higher-quality lives with outside-hospital care in 2025."

- (A) In order to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency fluctuations, we provide certain financial information on a “constant currency” basis, which is in addition to the actual financial information presented. In order to calculate our constant currency information, we translate the current period financial information using the foreign currency exchange rates that were in effect during the previous comparable period. However, constant currency measures should not be considered in isolation or as an alternative to U.S. dollar measures that reflect current period exchange rates, or to other financial measures calculated and presented in accordance with U.S. GAAP.
- (B) See the reconciliation of non-GAAP financial measures in the table at the end of the press release.

Discussion of Third Quarter Results

All comparisons are to the prior year period unless otherwise noted

- Revenue grew by 31 percent on a constant currency basis, driven by increased demand for our sleep and respiratory care devices as well as reduced competitive supply.
 - Revenue in the U.S., Canada, and Latin America, excluding Software-as-a-Service, grew by 32 percent, primarily due to the factors discussed above.
 - Revenue in Europe, Asia, and other markets, excluding Software-as-a-Service, grew by 28 percent on a constant currency basis.
 - Software-as-a-Service revenue increased by 35 percent, reflecting incremental revenue from our acquisition of MEDIFOX DAN and continued organic growth in our SaaS portfolio.
- Gross margin decreased by 150 basis points and non-GAAP gross margin decreased by 200 basis points, mainly due to unfavorable product mix and higher component costs, partially offset by an increase in average selling prices.
- Selling, general, and administrative expenses increased by 28 percent on a constant currency basis. SG&A expenses improved to 20.5 percent of revenue in the quarter, compared with 21.1 percent in the same period of the prior year. These changes in SG&A expenses were mainly due to increases in employee-related expenses and increases in travel expenses.
- Income from operations increased by 28 percent and non-GAAP income from operations increased by 27 percent.
- Net income for the quarter was \$232.5 million and diluted earnings per share was \$1.58. Non-GAAP net income increased by 28% to \$247.8 million, and non-GAAP diluted earnings per share increased by 27% to \$1.68, predominantly attributable to strong sales, partially offset by gross margin contraction.
- Operating cash flow for the quarter was \$282.6 million, compared to net income in the current quarter of \$232.5 million and non-GAAP net income of \$247.8 million. During the quarter we paid \$64.6 million in dividends.

Other Business and Operational Highlights

- Announced the retirement of David Pendarvis, Chief Administrative Officer & Global General Counsel, effective June 30, 2023. An internal search for ResMed’s new Global

General Counsel is underway and expected to be completed before Pendarvis retires. In parallel, announced the promotion of Amy Wakeham to Chief Communications & Investor Relations Officer, effective April 1, 2023. Wakeham joined ResMed in June 2018 and previously led IR at several other public companies.

- Published 2023 Global Sleep Survey as part of National Sleep Awareness Week (March 12-18) and World Sleep Day (March 17). The survey, conducted in January, asked over 20,000 respondents in 12 countries *what's keeping them up at night*; survey results aim to build awareness of the critical role good sleep plays in physical and mental health. Of note, 81% of respondents experience one or more symptoms indicating poor sleep quality, despite 64% saying they're satisfied with the quantity of their sleep.

Dividend program

The ResMed board of directors today declared a quarterly cash dividend of \$0.44 per share. The dividend will have a record date of May 11, 2023, payable on June 15, 2023. The dividend will be paid in U.S. currency to holders of ResMed's common stock trading on the New York Stock Exchange. Holders of CHESS Depositary Interests ("CDIs") trading on the Australian Securities Exchange will receive an equivalent amount in Australian currency, based on the exchange rate on the record date, and reflecting the 10:1 ratio between CDIs and NYSE shares. The ex-dividend date will be May 10, 2023, for common stockholders and for CDI holders. ResMed has received a waiver from the ASX's settlement operating rules, which will allow ResMed to defer processing conversions between its common stock and CDI registers from May 10, 2023, through May 11, 2023, inclusive.

--	----	------	----	------	----	------	----	------

(A) ResMed adjusts for the impact of the amortization of acquired intangibles, acquisition related expenses and the reserve for disputed tax positions from their evaluation of ongoing operations, and believes that investors benefit from adjusting these items to facilitate a more meaningful evaluation of current operating performance.

ResMed believes that non-GAAP diluted earnings per share is an additional measure of performance that investors can use to compare operating results between reporting periods. ResMed uses non-GAAP information internally in planning, forecasting, and evaluating the results of operations in the current period and in comparing it to past periods. ResMed believes this information provides investors better insight when evaluating ResMed's performance from core operations and provides consistent financial reporting. The use of non-GAAP measures is intended to supplement, and not to replace, the presentation of net income and other GAAP measures. Like all non-GAAP measures, non-GAAP earnings are subject to inherent limitations because they do not include all the expenses that must be included under GAAP.

(B) In order to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency fluctuations, we provide certain financial information on a “constant currency basis,” which is in addition to the actual financial information presented. In order to calculate our constant currency information, we translate the current period financial information using the foreign currency exchange rates that were in effect during the previous comparable period. However, constant currency measures should not be considered in isolation or as an alternative to U.S. dollar measures that reflect current period exchange rates, or to other financial measures calculated and presented in accordance with U.S. GAAP.
