# MicroVision Signs Patent License Agreement with Taiwanese ODM

REDMOND, Wash.--(BUSINESS WIRE)-- [MicroVision, Inc.](#) (NASDAQ: MVIS), a leader in innovative ultra-miniature projection display and sensing technology, today announced that it has signed a license agreement for its PicoP® scanning technology with a Taiwanese ODM.

MicroVision and the ODM have signed a patent license agreement under which the ODM has a license to make and sell Laser Beam Scanning (LBS) engines. The engines the ODM is making incorporate components it is purchasing from third parties. Under the agreement, MicroVision would receive a royalty payment from the ODM for each LBS engine the ODM sells. This agreement is related to MicroVision's recently announced [co-marketing relationship](#) with STMicroelectronics.

"We are pleased to enter into a patent license with this ODM for our LBS technology," said Bharath Rajagopalan, Vice President of Business Development and Marketing at MicroVision. "We believe this agreement demonstrates the value of MicroVision's LBS intellectual property and provides for new opportunities and potential products for LBS technology in the market."

## About MicroVision

MicroVision is the creator of PicoP® scanning technology, an ultra-miniature laser projection and sensing solution based on the laser beam scanning methodology pioneered by the company. MicroVision's platform approach for this advanced display and sensing solution means that it can be adapted to a wide array of applications and form factors. It is an advanced solution for a rapidly evolving, always-on world. Extensive research has led MicroVision to become an independently recognized leader in the development of intellectual property. MicroVision's IP portfolio has been recognized by the Patent Board as a top 50 IP portfolio among global industrial companies and has been included in the Ocean Tomo 300 Patent Index. The company is based in Redmond, Wash.

## Forward-Looking Statements

Certain statements contained in this release, including those relating to royalty payments, future products and product applications are forward-looking statements that involve a number of risks and uncertainties. Factors that could cause actual results to differ materially from those projected in the company's forward-looking statements include the following: our ability to raise additional capital when needed; products incorporating our PicoP® scanning

technology may not achieve market acceptance, commercial partners may not perform under agreements as anticipated, we may be unsuccessful in identifying parties interested in paying any amounts or amounts we deem desirable for the purchase or license of IP assets, our or our customers failure to perform under open purchase orders; our financial and technical resources relative to those of our competitors; our ability to keep up with rapid technological change; government regulation of our technologies; our ability to enforce our intellectual property rights and protect our proprietary technologies; the ability to obtain additional contract awards; the timing of commercial product launches and delays in product development; the ability to achieve key technical milestones in key products; dependence on third parties to develop, manufacture, sell and market our products; potential product liability claims; and other risk factors identified from time to time in the company's SEC reports, including the company's Annual Report on Form 10-K filed with the SEC. Except as expressly required by federal securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changes in circumstances or any other reason.
