Galaxy Gaming Featured at Raving's Table Game Conference

Event Held December 2 - 4 at The Mirage in Las Vegas

LAS VEGAS, Nov. 27, 2012 (GLOBE NEWSWIRE) -- Galaxy Gaming, Inc. (OTCBB:GLXZ), the world's second largest developer, manufacturer and distributor of casino table games and enhanced casino systems, announced today it is a prime sponsor of the annual Raving's Cutting Edge Table Games Conference. This year's event is expected to have a record-setting attendance and will attract casino executives representing over 70 casinos from the United States, Canada and the United Kingdom. These attendees will participate in evaluating upcoming table games, table game products and enhancements.

In addition to sponsoring the conference and being its lead exhibitor, two of Galaxy's executives will be featured speakers at the conference. Galaxy's CEO, Robert Saucier will discuss, *What is the Future of Table Games?* and Ron Marks, Galaxy Gaming's VP of Sales will co-host *Beyond Service: Turning Your Dealers into Table Games Salespeople*. A special attraction will be the presentation entitled, *From Inception to Trial to Commercial Success: The Story of the "Home Run" New Table Game*. This presentation will be performed by Derek Webb, one of the world's foremost authorities on casino games and one of the principals of Prime Table Games. Last year, Prime Table Games' portfolio of games and intellectual property was sold to Galaxy Gaming for \$23 million.

Galaxy will be examining approximately 20 new table games presented by various game inventors from throughout North America. If any of them appear to be commercially viable, Galaxy executives will be on-hand to explore and negotiate possible acquisitions. One of the highlights of the annual conference is the presenting of the prestigious "Casino Journal's Best New Table Game Award." "Last year we received the first place award and set a new record by having won the award for the third consecutive year," commented Mr. Marks. "This year we are entering our newest acquisition, *High Card Flush*, into the competition and are hopeful we can claim the top prize once again."

"Although we truly appreciate the recognition and accolades we have received in prior years for new game innovations, what really stands out for us is the amount of new business we book at this event," stated Robert Saucier, Galaxy's CEO. "Similar to Global Gaming Expo, which we exhibited at last month, we foresee this year's Raving conference to be a further catalyst for sustained growth."
