Cheniere Energy Reports First Quarter 2012 Results

HOUSTON, May 4, 2012 /PRNewswire/ -- Cheniere Energy, Inc. ("Cheniere") (NYSE Amex: LNG) reported a net loss of \$56.4 million, or \$0.43 per share (basic and diluted), for the quarter ended March 31, 2012, compared with a net loss of \$39.8 million, or \$0.60 per share (basic and diluted), for the comparable 2011 period. Results include LNG terminal and pipeline development expenses of \$21.8 million, or \$0.17 per share for the quarter ended March 31, 2012 and \$8.4 million, or \$0.13 per share, for the comparable 2011 period, which primarily related to the Sabine Pass Liquefaction Project ("Liquefaction Project") currently under development.

Results are reported on a consolidated basis and include our 88.7 percent ownership interest in Cheniere Energy Partners, L.P. ("Cheniere Partners").

Overview of Significant 2012 Events

- In January 2012, we repaid in full the entire outstanding principal balance of the 2007 Term Loan due May 31, 2012. We used a portion of the net proceeds from the public offering of common stock in December 2011 to repay the 2007 Term Loan.
- In January 2012, Sabine Pass Liquefaction, LLC ("Sabine Pass Liquefaction"), a wholly owned subsidiary of Cheniere Partners, entered into an amended and restated LNG Sale and Purchase Agreement ("SPA") with BG Gulf Coast LNG, LLC ("BG"), a subsidiary of BG Group plc, under which BG has agreed to purchase an additional 2.0 million tonnes per annum ("mtpa") of LNG, bringing BG's total annual contract quantity to 5.5 mtpa of LNG. BG will purchase 3.5 mtpa of LNG with the commencement of train one operations and will purchase a portion of the additional 2.0 mtpa of LNG as each of trains two, three and four commences operations.
- In January 2012, Sabine Pass Liquefaction entered into an SPA with Korea Gas Corporation ("KOGAS"), under which KOGAS agreed to purchase 182.5 million MMBtu of LNG per year (approximately 3.5 mtpa).
- In February 2012, Cheniere Partners entered into discussions with Blackstone Energy Partners L.P., Blackstone Capital Partners VI L.P., and certain affiliates (collectively, "Blackstone"), whereby Blackstone would fund an equity portion of the financing to develop, construct and place into service the Liquefaction Project.
- In March 2012, we sold 24.2 million shares of Cheniere common stock in an underwritten public offering for net cash proceeds of approximately \$351.9 million. We intend to use the net proceeds from the offering for general corporate purposes, including repayment of indebtedness.
- In April 2012, Sabine Pass Liquefaction and Sabine Pass LNG, L.P. ("Sabine Pass LNG"), a wholly owned subsidiary of Cheniere Partners, received authorization under

Section 3 of the Natural Gas Act (the "Order") from the Federal Energy Regulatory Commission ("FERC") to site, construct and operate facilities for the liquefaction and export of domestically produced natural gas at the Sabine Pass LNG terminal located in Cameron Parish, Louisiana. The Order authorizes the development of up to four modular LNG trains.

- In April 2012, Cheniere Partners engaged eight financial institutions to act as Joint Lead Arrangers to assist in the structuring and arranging of up to \$4 billion of debt facilities. The proceeds will be used to pay for costs of development and construction of the Liquefaction Project, to fund the acquisition of the Creole Trail Pipeline and for general business purposes.
- In April 2012, Scorpion Capital Partners, L.P. exchanged all \$8.4 million of its portion of the 2008 Loans for 1.7 million shares of Cheniere common stock and \$1.4 million in accrued interest.

Q1 2012 Results

Cheniere reported income from operations of \$0.7 million for the quarter ended March 31, 2012, compared to income from operations of \$23.6 million for the comparable period in 2011. The decrease in net operating income of \$22.9 million was primarily a result of increased LNG terminal and pipeline development expenses of \$13.4 million and decreased LNG and natural gas marketing and trading revenues of \$5.8 million. LNG terminal and pipeline development expenses increased due to costs incurred to develop the Liquefaction Project. LNG and natural gas marketing and trading revenues decreased due to less LNG export cargo sales and lower-of-cost-or-market adjustments on our LNG inventory.

Interest expense, net of amounts capitalized, decreased \$5.8 million, from the three months ended March 31, 2011 to the three months ended March 31, 2012 due to the reduction of our indebtedness during the first quarter of 2012.

Liquefaction Project Update

Cheniere Partners continues to make progress on the Liquefaction Project, which is being developed for up to four liquefaction trains, each with a nominal production capability of approximately 4.5 mtpa. We anticipate LNG exports from the Sabine Pass LNG terminal could commence as early as 2015, with each liquefaction train commencing operations approximately six to nine months after the previous train.

Cheniere Partners is advancing towards commencing construction on the first two liquefaction trains. The Liquefaction Project recently received approval from the FERC. One of the last steps needed to proceed with construction is to obtain financing. Cheniere Partners expects to fund the first two liquefaction trains with a combination of debt and equity and is actively pursuing financing for the first two liquefaction trains. Construction of the first two liquefaction trains is expected to commence in the first half of 2012.

Commencement of construction for LNG trains three and four is subject, but not limited to, entering into an engineering procurement and construction agreement, obtaining financing and reaching a positive final investment decision. Cheniere Partners has engaged Bechtel Oil, Gas and Chemicals, Inc. to complete front-end engineering and design work and to negotiate a lump sum turnkey contract. Construction for liquefaction trains three and four is targeted to begin in early 2013.
