## Cheniere Energy Reports Second Quarter 2012 Results

HOUSTON, Aug. 3, 2012 /PRNewswire/ -- Cheniere Energy, Inc. ("Cheniere") (NYSE MKT: LNG) reported a net loss of \$73.0 million, or \$0.43 per share (basic and diluted), for the three months ended June 30, 2012, compared to a net loss of \$47.2 million, or \$0.67 per share (basic and diluted), for the comparable 2011 period. For the six months ended June 30, 2012, Cheniere reported a net loss of \$129.5 million, or \$0.86 per share (basic and diluted) compared to a net loss of \$87.0 million, or \$1.26 per share (basic and diluted), during the corresponding period of 2011. Results include significant items of \$35.7 million, or \$0.21 per share, for the three months ended June 30, 2012 and \$58.0 million, or \$0.38 per share, for the six months ended June 30, 2012 related to LNG terminal and pipeline development expenses primarily for the Sabine Pass Liquefaction Project ("Liquefaction Project") currently under development and for losses due to the early extinguishment of debt incurred in both periods.

Results are reported on a consolidated basis and include our ownership interest in Cheniere Energy Partners, L.P. ("Cheniere Partners"), which was 89.3% as of June 30, 2012.

### **Overview of Recent Significant 2012 Events**

- In May 2012, we sold 31.0 million shares of our common stock for net proceeds of \$468.1 million to Havelock Fund Investments Pte. Ltd. (indirectly owned by Temasek Holdings (Private) Limited) and Greenwich Asset Holding Ltd. (owned by RRJ Capital Master Fund I, L.P.). The proceeds were used along with cash on hand to purchase \$500 million of Cheniere Partners' Class B units ("Class B Units") of which \$167 million were purchased in June 2012 and \$333 million were purchased in July 2012.
- In June 2012, we repaid in full \$284.5 million of the outstanding principal and accrued interest under the 2008 Term Loans.
- In July 2012, we sold 28.0 million shares of Cheniere common stock in an underwritten public offering for net cash proceeds of \$380.3 million.
- In August 2012, we repaid in full the entire outstanding principal balance plus accrued interest payable totaling \$206.9 million under the Convertible Senior Unsecured Notes.
- Cheniere Partners made significant progress on the Liquefaction Project, including the following:
  - In April 2012, Sabine Pass Liquefaction, LLC ("SPL") received authorization under Section 3 of the Natural Gas Act (the "Order") from the FERC to site, construct and operate facilities for the liquefaction and export of domestically produced natural gas at the Sabine Pass LNG terminal located in Cameron Parish, Louisiana. The Order authorizes the development of up to four modular LNG trains;

- In May 2012, Cheniere Partners received commitments for \$2.0 billion of equity financing for the Liquefaction Project. Cheniere Partners and Blackstone CQP Holdco LP ("Blackstone") entered into a unit purchase agreement whereby Cheniere Partners agreed to sell to Blackstone in a private placement 100 million Class B Units for \$1.5 billion. We also entered into a unit purchase agreement with Cheniere Partners whereby we agreed to purchase 33.3 million Class B Units for \$500 million;
- In June 2012, we purchased \$167 million of Class B Units and Cheniere Partners issued a limited notice to proceed to Bechtel Oil, Gas and Chemicals, Inc. ("Bechtel") for the Liquefaction Project;
- In July 2012, Cheniere Partners announced that its Board of Directors made a positive final investment decision on the development and construction of the first two liquefaction trains;
- In July 2012, Cheniere Partners closed on a \$3.6 billion credit facility that will be used to fund the first two trains of the Liquefaction Project. The credit facility has a 7 year maturity and interest rate of LIBOR plus 350 basis points during construction and then steps up to LIBOR plus 375 basis points during operations; and
- In July 2012, we purchased the remaining \$333 million of our \$500 million equity commitment in Class B Units from Cheniere Partners.

## **Results**

Cheniere reported a loss from operations of \$6.1 million and \$5.4 million for the three and six months ended June 30, 2012, respectively, compared to income from operations of \$16.5 million and \$40.0 million for the comparable periods in 2011. The decrease in income from operations of \$22.6 million and \$45.4 million for the three and six months ended June 30, 2012, respectively, was primarily a result of increased LNG terminal and pipeline development expenses, increased LNG terminal and pipeline operating expenses and decreased marketing and trading revenues. LNG terminal and pipeline development expenses primarily include costs incurred to develop the Liquefaction Project. LNG terminal and pipeline operating expenses increased primarily due to costs incurred for maintenance dredging during the second quarter of 2012. Marketing and trading revenues were impacted in the three and six months ended June 30, 2012 by a loss recorded on a firm purchase commitment for LNG inventory needed to restore the heating value of vaporized LNG to meet natural gas pipeline specifications and less LNG export activity. For the three and six months ended June 30, 2012, Cheniere recorded non-cash compensation expenses of \$1.9 million and \$4.2 million, respectively, compared to \$6.3 million and \$14.4 million for the comparable periods in 2011.

Loss on early extinguishment of debt of \$14.6 million and \$15.1 million for the three and six months ended June 30, 2012, respectively was primarily due to the repayment of the entire outstanding principal balance of the 2008 Loans due in 2018. Interest expense, net decreased \$8.7 million and \$14.5 million for the three and six months ended June 30, 2012, respectively, compared to the same periods in 2011 primarily due to debt principal repayments made during the second quarter of 2012.

## **Liquefaction Project Update**

Cheniere Partners continues to make progress on the Liquefaction Project, which is being

developed for up to four liquefaction trains, each with a nominal production capability of approximately 4.5 mtpa.

In July 2012, Cheniere Partners closed on a project credit facility of \$3.6 billion. Including the recently announced \$2.0 billion of equity commitments, Cheniere Partners has now secured financing of approximately \$5.6 billion for the construction of the first two trains of the Liquefaction Project. Cheniere Partners' Board of Directors has made a positive final investment decision on the development and construction of the first two liquefaction trains. Cheniere Partners has received the remaining \$333 million of the \$500 million of funding through the purchase of 22.2 million Class B Units by us. Cheniere Partners will issue a full notice to proceed to Bechtel upon the receipt of initial funding from Blackstone.

LNG exports from the Sabine Pass LNG terminal are anticipated to commence as early as 2015, with the second liquefaction train commencing operations approximately six to nine months thereafter.

Commencement of construction for liquefaction trains three and four is subject, but not limited to, entering into an engineering, procurement and construction agreement, reaching a positive final investment decision and obtaining financing. Cheniere Partners has engaged Bechtel to complete front-end engineering and design work for the third and fourth liquefaction trains and has begun negotiating a lump sum turnkey contract. Construction for liquefaction trains three and four is targeted to begin in 2013.

Cheniere is a Houston-based energy company primarily engaged in LNG related businesses, and owns and operates the Sabine Pass LNG terminal and Creole Trail Pipeline in Louisiana. Cheniere is pursuing related business opportunities both upstream and downstream of the Sabine Pass LNG terminal. Through its subsidiary, Cheniere Partners, Cheniere has initiated a project to add liquefaction services that would transform the Sabine Pass LNG terminal into a bi-directional facility capable of liquefying natural gas and exporting

LNG in addition to importing and regasifying foreign-sourced LNG. As currently contemplated, the liquefaction project would be designed and permitted for up to four LNG trains, each with a nominal production capacity of approximately 4.5 million metric tons per annum.
