Water Pilot Completes Two Installs with Major Retailer

Two Location Pilot Install for New Leak Detection Product

PHOENIX, AZ / ACCESSWIRE / August 1, 2019 / Taronis Technologies, Inc., (“Taronis” or “the Company”) (**NASDAQ:TRNX**), a leading clean technology company in the renewable resources and environmental conservation industry, today announced that its majority-owned subsidiary, Water Pilot, LLC (“Water Pilot”) has successfully completed two pilot installs with a top national retailer for its new product, the A.I. Navigator. The installed locations are located in Shakopee and Blaine, Minnesota. The A.I. Navigator is a new product offering from the Water Pilot that enables the continuous remote monitoring of the plumbing infrastructure of a building for leak detection purposes.

“This is another meaningful accomplishment for our Water Pilot sales team,” commented Scott Mahoney, CEO of Taronis. “We are fortunate to now have two compelling technology based water conservation product offerings under the Water Pilot portfolio. With our Water Pilot valve technology, we are able to typically able to reduce water consumption by up to 20% in a wide range of buildings. By adding the A.I. Navigator and its leak detection capabilities to our portfolio, we can deepen and expand our client relationships going forward.”

“With almost 2,000 retail locations across the US, this new client relationship could generate upwards of \$75,000 in monthly recurring monitoring revenues. This has the potential to be a key client for many years to come. We appreciate the pilot opportunity we successfully completed, and we are confident these results may encourage an expanded client relationship with this national retailer,” concluded Mr. Mahoney.

About Taronis Technologies, Inc.

Taronis Technologies, Inc. (TRNX) owns a patented plasma arc technology that enables two primary end use applications for fuel generation and water decontamination.

The Company’s fuel technology enables a wide use of hydrocarbon feedstocks to be readily converted to fossil fuel substitutes. The Company is developing a wide range of end market uses for these fuels, including replacement products for propane, compressed natural gas and liquid natural gas. The Company currently markets a proprietary metal cutting fuel that is highly competitive with acetylene. The Company distributes its proprietary metal cutting fuel through Independent Distributors in the US and through its wholly owned distributors doing business as “MagneGas Welding Supply”. The Company operates 22 locations across California, Texas, Louisiana, and Florida.

The Company’s technology can also be implemented for the decontamination of waste water, including sterilizing water, eradicating all pathogens. The technology is being tested to determine if it can completely eliminate pharmaceutical contaminants such as antibiotics, hormones and other soluble drugs suspended in contaminated water. Lastly, the technology process is capable of reducing or eliminating other contaminants, such as harmful metals, as well as nitrogen, phosphorus, and potassium levels that trigger toxic algae blooms. The technology has prospective commercial applications in the agricultural, pharmaceutical, and municipal waste markets. For more information on Taronis, please visit the Company’s website at <http://www.TaronisTech.com>.

Taronis also owns a controlling interest in Water Pilot, LLC. The WATER PILOT® System immediately reduces water consumption and provides you with live remote consumption monitoring for long term leak protection and water asset management. An integral, client based alarm and notification system that reports to any mobile device. Water Pilot may be appropriate for a wide range of businesses or properties with a water meter.
