Interpace Diagnostics to Present at NobleCon13

PARSIPPANY, N.J., Jan. 25, 2017 /PRNewswire/ -- Interpace Diagnostics Group, Inc., (NASDAQ: IDXG), a company that provides clinically useful molecular diagnostic tests and pathology services for evaluating risks of cancer, announced today that Jack E. Stover, President & CEO, will present at the NobleCon13 - Noble Capital Markets' Thirteenth Annual Investor Conference at the Boca Raton Resort & Club in Boca Raton, Florida, on Tuesday, January 31, 2017, at 12:00 p.m. Eastern Standard Time, in Room 3.

A high-definition, video webcast of Interpace Diagnostics' presentation and a copy of the presentation materials will be available on the Company's web site <http://noble.mediasite.com/mediasite/Play/ed82f26502fc48f38884ad85c7420e931d> or as part of a complete catalog of presentations available at Noble Financial websites: www.noblecapitalmarkets.com, or www.nobleconference.com.

You will require a Microsoft SilverLight viewer (a free download from the presentation link) to participate. The webcast and presentation will be archived on the company's website and on the Noble websites for 90 days following the event.

About Interpace Diagnostics Group, Inc.

Interpace Diagnostics is a company that provides clinically useful molecular diagnostic tests and pathology services for evaluating risk of cancer by leveraging the latest technology in personalized medicine for better patient diagnosis and management. The Company currently has three commercialized molecular tests; PancreGen® for the diagnosis and prognosis of pancreatic cancer from pancreatic cysts; ThyGenX®, for the diagnosis of thyroid cancer from thyroid nodules utilizing a next generation sequencing assay and ThyraMIR®, for the diagnosis of thyroid cancer from thyroid nodules utilizing a proprietary gene expression assay. Interpace Diagnostics' mission is to provide personalized medicine through molecular diagnostics and innovation to advance patient care based on rigorous science.

About Thyroid Nodules, ThyGenX® and ThyraMIR® testing

According to the American Thyroid Association, approximately 15% to 30% of the 525,000 thyroid fine needle aspirations (FNAs) performed on an annual basis in the U.S. are indeterminate for malignancy based on standard cytological evaluation, and thus are candidates for ThyGenX and ThyraMIR.

ThyGenX and ThyraMIR reflex testing yields high predictive value in determining the presence and absence of cancer in thyroid nodules. The combination of both tests can improve risk stratification and surgical decision-making when standard cytopathology does not provide a clear diagnosis for the presence of cancer.

ThyGenX utilizes state-of-the-art next-generation sequencing (NGS) to identify more than 100 genetic alterations associated with papillary and follicular thyroid carcinomas, the two most common forms of thyroid cancer. ThyraMIR is the first microRNA gene expression classifier. MicroRNAs are small, non-coding RNAs that bind to messenger RNA and regulate expression of genes involved in human cancers, including every subtype of thyroid cancer. ThyraMIR measures the expression of 10 microRNAs. ThyGenX and ThyraMIR are covered by Medicare and various commercial insurers.

About Pancreatic Cysts and PancraGen®

PancaGen is a pancreatic cyst molecular test that, by using a small sample of pancreatic cyst fluid, can aid in pancreatic cancer risk assessment. PancraGen is 90% accurate, according to clinical studies, enabling effective risk stratification of patients. Pancreatic cancer is often difficult to diagnose in early stages and typically spreads rapidly with signs and symptoms appearing when the cancer is significantly advanced. Because of this, and that complete surgical removal of the pancreas is not possible, pancreatic cancer is considered a leading cause of cancer deaths.

About Noble Capital Markets, Inc.

Noble Capital Markets, established in 1984, is an equity-research driven, full-service, investment & merchant banking boutique focused on the healthcare, media & entertainment, technology and natural resources sectors. The company has offices in Boca Raton, New York and Boston. In addition to NobleCon - the annual multi-sector investor conference and the Media, Finance & Investor Conference, produced in partnership with the National Association of Broadcasters (NAB) and held each spring in Las Vegas, throughout the year Noble hosts numerous "non-deal" corporate road shows across the United States and Canada. Members: FINRA, SIPC, MSRB. www.noblecapitalmarkets.com

Forward Looking Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934 and the Private Securities Litigation Reform Act of 1995, relating to our future financial and operating performance. The Company has attempted to identify forward looking statements by terminology including "believes," "estimates," "anticipates," "expects," "plans," "projects," "intends," "potential," "may," "could," "might," "will," "should," "approximately" or other words that convey uncertainty of future events or outcomes to identify these forward-looking statements. These statements are based on current expectations, assumptions and uncertainties involving judgments about, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond company's control. These statements also involve known and unknown risks, uncertainties and other factors that may cause company's actual results to be materially different from those expressed or implied by any forward-looking statement. Known and unknown risks, uncertainties and other factors include, but are not limited to, our ability to adequately finance the business, our ability to restructure our debt and other obligations, , the market's acceptance of our molecular diagnostic tests, our ability to secure additional business and generate higher profit margins through sales of our molecular diagnostic tests, in-licensing or other means, projections of future revenues, growth, gross profit and anticipated internal rate of return on investments,

and our ability to maintain our NASDAQ listing.. Additionally, all forward-looking statements are subject to the risk factors detailed from time to time in the Company's periodic filings with the Securities and Exchange Commission (SEC), including without limitation, the Annual Report on Form 10-K filed with the SEC on March 30, 2016 as amended on April 29, 2016 and June 14, 2016, and the Quarterly Report on Form 10-Q filed with the SEC on November 17, 2016. Because of these and other risks, uncertainties and assumptions, undue reliance should not be placed on these forward-looking statements. In addition, these statements speak only as of the date of this press release and, except as may be required by law, the Company undertakes no obligation to revise or update publicly any forward-looking statements for any reason.
