Cemtrex to Showcase SmartDesk at the 8th Annual LD Micro Invitational on June 4-6

Farmingdale, NY, April 16, 2018 (GLOBE NEWSWIRE) -- Cemtrex Inc. (Nasdaq: CETX, CETXP, CETXW), a world leading technology and manufacturing company, today announced that it will be showcasing its upcoming flagship smart device, the SmartDesk, at the 8th annual LD Micro Invitational. The event will take place from Monday, June 4, 2018 to Wednesday, June 6, 2018.

Saagar Govil, Chairman and CEO of Cemtrex, will be giving a presentation and meeting with investors. Investors attending the conference will have the opportunity to demo the SmartDesk.

Mr. Govil commented, "In just a few weeks we will be sharing this exciting technology with the investment community which we have been working diligently on for the last year. We are seeing a lot of innovation these days around the home, from smart doorbells to smart refrigerators, however there has been a lack of innovation for the last 30 years around the personal workspace. Cemtrex has tackled that problem head on."

"The SmartDesk is the reinvention of the personal workspace and is the seamless blend of design and performance culminating in the most advanced workstation ever built. The product has evolved from its original concept design to include displays vertically positioned combined with an intelligent tabletop. It is more capable than any existing personal computing device available on the market today with its immersive 72 inches of touch displays, built-in keyboard and trackpad, integrated VOIP technology, hidden document scanner, and many other features. This is a must have device for any workplace whether home or corporate. We are looking forward to unveiling the SmartDesk next month and begin accepting orders," Govil continued.

For more information regarding the SmartDesk as updates are announced please visit www.cemtrexat.com.

The conference will be held at the Luxe Sunset Bel Air Hotel and will feature 180 companies in the small / micro-cap space.
