Management to Host Conference Call Today at 5:00 p.m. Eastern Time

Brooklyn, NY, Feb. 14, 2023 (GLOBE NEWSWIRE) -- - <u>Cemtrex Inc.</u> (NASDAQ: CETX, CETXP), an advanced security technology and industrial services company, has reported its financial and operational results for the first quarter ended December 31, 2022.

Key First Quarter FY 2023 and Subsequent Highlights

- Revenue for Q1'23 increased 27% to \$12.0 million, compared to revenue of \$9.4 million for Q1'22.
- Gross margin up 790 basis points to 42% in Q1'23 from 34% in the prior year quarter
- Operating loss for Q1'23 declined 41% to \$2.0 million from \$3.3 million in Q1'22.
- Completed divestiture of non-core assets to focus on accelerating its Vicon and AIS brands, a transformative business restructuring that will result in approximately \$6.2M in operating expense reduction to be realized going forward from Nov 2022.
- Announced a capitalization restructure, effecting a 1-for-35 reverse stock split.
- The Company's common stock regained full compliance with the minimum bid price requirement for continued listing on The Nasdaq Capital Market.
- Received a \$1.5 million order through Vicon Industries, in January, from a current large border protection customer in Texas to expand its security technology system with new security solutions.
- Appointed Shane Compton as Chief Operating Officer of Vicon, a 20-year industry veteran who will lead operational growth, oversee sales and engineering, and spearhead efficiency initiatives.
- Cash and equivalents as of December 31, 2022 was \$5.8 million.

Management Commentary

Cemtrex Chairman and CEO, Saagar Govil, commented on the results: "The first quarter of fiscal year 2023 was highlighted by continued topline growth as we grew sales by 27% year over year. Additionally, the different steps we have taken operationally have led to a gross margin improvement of 790 basis points to 42%. We expect to see continued increases in

our gross margin over the next couple quarters as we drive improvements in Vicon's business. Overall operating income improved with the operating loss for the quarter declining by 41%. We are pleased with the progress we are making to drive better operational results since our shift in focus to our Vicon and Advanced Industrial Services (AIS) businesses. The substantial cost savings from the divestment of non-core assets and reduced expenses at the Cemtrex corporate level are now beginning to reflect more fully in our quarterly performance and will continue into the future.

"Year over year improving revenues in our Security segment were led by Vicon with a 61% increase, driven by strong demand from customers for its award-winning Roughneck cameras and Valerus video management software solutions. Recently Vicon received a \$1.5 million order from a current large border protection customer in Texas to expand its security technology system with new security solutions. With Vicon's software solution currently deployed at the site, the new order expands the customer's state-of-the-art video surveillance security capabilities with the addition of award-winning Roughneck multi-sensor cameras and servers. We continue to believe revenues for Vicon Industries, based on our current demand, should increase by approximately 16% to \$28.0 million for fiscal year 2023 given the launch of its AI based analytics solution, improvements to Valerus and additional sales. Additionally, Gross Profit Margin for Vicon is expected to increase to approximately 48% for fiscal year 2023.

"Revenue for our Industrial services segment, AIS, decreased slightly during the quarter mainly due to products and services revenue recognition timing. We continue to see increasing demand and monetizing opportunities for AIS with the need for predictive maintenance services, reshoring of manufacturing back to the US, and an growing complexity in industrial equipment. We believe AIS will continue to expand revenues by 3% to \$21.8 million for fiscal year 2023 driven by continued strength in the Industrial Services market, and Gross Profit Margin for AIS is expected to improve to approximately 34% for the FY 2023 for Advanced Industrial Services.

With all the combined actions taken to drive business improvement, we believe the Operating Loss over the next four quarters to be under approximately \$2.5 million. The effects of these changes were only partially demonstrated in our December quarter performance due to the timing of the restructurings, and we expect our March and June quarters performance to reflect the improvements more fully. We also believe that we can reduce inventory by more than \$1.5 million over the course of FY 2023 as we have seen supply chain constraints improve. This will allow us to offset the cash loss from the expected operating loss over the next couple quarters by the cash obtained from the reduction in inventory, reducing the burden on our overall cash position.

"Looking ahead, we continue to see escalating demand for our businesses and believe this shift in focus to capture significant near-term opportunities will help us to reach positive operating income by 2024 and maximize shareholder value over the next several years," concluded Govil.

First Quarter FY 2023 Financial Results

Revenue for the three months ended December 31, 2022, and 2021 was \$12.0 million and \$9.4 million, respectively, an increase of 27%. This increase is mainly due to increased demand for the Company's products and services. The Security segment revenues for the

three months ended December 31, 2022, increased by 61% to \$7.0 million. The Security segment increase was due to an increased demand for security technology products under the Vicon brand. The Industrial Services segment revenues for the quarter decreased by 2% to \$5.0 million, mainly due to timing of the recognition of revenue for the segment's products and services.

Gross Profit for the first quarter of 2023 was \$5.0 million, or 42% of revenues as compared to gross profit of \$3.2 million, or 34% of revenues for the year ago period, mainly attributed to increased prices and lower subcontractor costs.

Total operating expenses for three months ended December 31, 2022, were \$7.0 million, compared to \$6.5 million in the prior year's quarter. The increase was due to an increase in research and development expenses for the period.

Operating loss for the first quarter of 2023 was \$2.0 million, a 41% decline as compared to an operating loss of \$3.3 million for first quarter of 2022. The decrease was primarily due to an increase in gross profit for the period.

Net loss for the quarter ended December 31, 2022 was \$6.1 million, as compared to a net loss of \$4.5 million in 2021. Net loss increased in the first quarter as compared to the same period last year primarily due to the loss on discontinued operations.

Cash and cash equivalents totaled \$5.8 million at December 31, 2022, as compared to \$9.9 million at September 30, 2021.

Inventories increased by \$0.1 million or 1% to \$8.6 million at December 31, 2022, from \$8.5 million at September 30, 2022.
