"Medium to long term demand for zero emission, technology driven vehicles will continue to grow rapidly as the average age of vehicle has reached an all-time high between 12 to 14 years depending on the segment. These numbers prove that the stage is set for zero emission, technology driven vehicles especially in the TAM's and the geographies we are focused on where there is current demand and high-volume buyers. ## Second Quarter 2023 Business Outlook

Based upon our current projections, Canoo expects:

- Operating Expenses (excluding stock-based compensation and depreciation) of: \$40 million to $\$ 60$ million
- Capital Expenditures of: $\$ 10$ million to $\$ 20$ million

See "Non-GAAP Financial Measures" section herein for an explanation of Adjusted EBITDA. The Company is unable to provide a reconciliation for forward-looking guidance of Adjusted EBITDA to net loss, the most closely comparable GAAP measure, because certain material reconciling items, such as depreciation and amortization and interest expense cannot be estimated due to factors outside of the Company's control and could have a material impact on the reported results. A reconciliation is not available without unreasonable effort.

Non-GAAP Financial Measures

## EBITDA, Adjusted EBITDA, Adjusted Net Loss and Adjusted Earnings Per Share ("EPS")

"EBITDA" is defined as net loss before interest expense, income tax expense or benefit, and depreciation and amortization. "Adjusted EBITDA" is defined as EBITDA adjusted for stockbased compensation, restructuring charges, asset impairments, non-routine legal fees, and other costs associated with exit and disposal activities, acquisition and related costs, changes to the fair value of contingent earnout shares liability, changes to the fair value of warrants liability, loss on extinguishment of debt, and any other one-time non-recurring transaction amounts impacting the statement of operations during the year. Adjusted Net Loss is defined as net loss adjusted for stock-based compensation, restructuring charges, asset impairments, non-routine legal fees, and other costs associated with exit and disposal activities, acquisition and related costs, changes to the fair value of contingent earnout shares liability, changes to the fair value of warrants liability, loss on extinguishment of debt, and any other one-time non-recurring transaction amounts impacting the statement of operations during the year. Adjusted EPS is defined as Adjusted Net Loss on a per share basis using the weighted average shares outstanding.

EBITDA, Adjusted EBITDA, Adjusted Net Loss, and Adjusted EPS are intended as a supplemental measure of our performance that is neither required by, nor presented in accordance with, GAAP. We believe EBITDA, Adjusted EBITDA, Adjusted Net Loss, and Adjusted EPS when combined with net loss and net loss per share are beneficial to an investor's complete understanding of our operating performance. We believe that the use of EBITDA, Adjusted EBITDA, Adjusted Net Loss, and Adjusted EPS provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing our financial measures with those of comparable companies, which may present similar nonGAAP financial measures to investors. However, you should be aware that when evaluating EBITDA, Adjusted EBITDA, Adjusted Net Loss, and Adjusted EPS we may incur future expenses similar to those excluded when calculating these measures. In addition, our presentation of these measures should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items. Our computation of EBITDA, Adjusted EBITDA, Adjusted Net Loss, and Adjusted EPS may not be comparable to other similarly titled measures computed by other companies, because all companies may not calculate EBITDA, Adjusted EBITDA, Adjusted Net Loss, and Adjusted EPS in the same fashion.

Because of these limitations, EBITDA, Adjusted EBITDA Adjusted Net Loss, and Adjusted EPS should not be considered in isolation or as a substitute for performance measures calculated in accordance with GAAP. We manage our business utilizing EBITDA, Adjusted EBITDA, Adjusted Net Loss, and Adjusted EPS as supplemental performance measures.
