Porch.com to Deliver Home Services Solution for Business Professionals to Connect with Customers on Facebook

People can now request a quote and communicate with Porch Professionals through Facebook Pages

SEATTLE, Oct. 19, 2016 (GLOBE NEWSWIRE) -- Porch.com (<http://porch.com>), a home services platform that connects homeowners to quality home improvement professionals, is now enabling home services professionals to send price quotes to people right from their Facebook Page. The integration enables Porch professionals to leverage their Page as another tool to interact with homeowners looking to get their projects done.

"We're thrilled to be exposing our high quality professional base to people on Facebook looking to get their projects done. This integration with Facebook allows homeowners who spend a considerable amount of time on the world's largest social network to contact Porch pros and help them paint a room, landscape their yard or remodel their bathroom. This is yet another strategic effort for Porch to be the best place to start your project, no matter where you are across the web," said Chief Executive Officer and Chairman, Matt Ehrlichman.

With a directory of more than three million professionals, 140 million projects, and a tailored product suite for local professionals and enterprise clients, Porch has focused on building a technology driven marketplace with quality connections. Over a year ago, the Seattle-based company introduced its Guarantee program, a free program for homeowners that guarantees a quality experience with Porch professionals. Guaranteed professionals have passed a 30-point check system that includes pre-screening, a comprehensive background check and accepting the Porch Pledge, a commitment to making it right for every customer.

About Porch.com
