IP Resources International Sponsors Microsoft Alumni Foundation Annual Celebration

Company Is One of Only Three Organizations External to Microsoft to Do So

LOS ANGELES, CA -- (MARKETWIRE) -- 09/27/12 -- IP Resources International, a wholly owned subsidiary of Hanover Portfolio Acquisitions, Inc., (OTCQB: HVPA), an intellectual property licensing and commercialization company, announced today that for the second consecutive year, it is proud to be a sponsor of the [Microsoft Alumni Foundation annual Celebration held on October 1, 2012](#) on the Microsoft Campus in Redmond, Washington.

IP Resources has fostered a relationship with the Microsoft Alumni Foundation since 2011, when the Company was also a [Showcase Sponsor of the Foundation's 2011 Celebration](#).

This year, IP Resources is honored again to be one of a few organizations to be a Showcase Sponsor of the 2012 Microsoft Alumni Foundation Celebration. This year, the Foundation gathers for an evening that celebrates the philanthropy of Microsoft alumni and 30 years of the Microsoft Giving Campaign. The Celebration is attended each year by current as well as former key executives from Microsoft. Also in attendance are executives from the Foundation as well as local community leaders.

"We are proud to be a sponsor of Microsoft Alumni Foundation events. The Foundation supports philanthropy and a coming together of the Microsoft Alumni Family to leverage their resources to make a difference for others. IP Resources intends to foster interest in our licensed intellectual properties which we believe to be part of the solution in improving the lives of others through technology," stated IP Resources Chairman and CEO, Alan Collier.

Rowland Hanson, IP Resources' Managing Director and former VP of Corporate Communications at Microsoft, added, "The Microsoft Alumni community is keenly interested in improvements to the living conditions of people around the world as well as the environment. As a sponsor of Celebration, IP Resources will have the opportunity to highlight new technologies to some of the top influencers in technology."
