# Kearney & Company, P.C. Selects UiPath's Robotic Process Automation (RPA) Platform to Provide Federal Agencies with Enhanced Financial Processes

ALEXANDRIA, Va. & NEW YORK--(BUSINESS WIRE)-- [UiPath](#), the leading enterprise Robotic Process Automation (RPA) platform, today announced it has been selected by [Kearney & Company, P.C.](#) (Kearney) to enhance the firm's capabilities and provide more efficient financial processes to its Federal clients.

As the largest CPA firm exclusively serving the Federal Government, Kearney understands the unique complexities of the public-sector marketplace. The company's mission is to deliver reliable, compliant and reusable RPA solutions that provide increased productivity to its clients. Kearney's goal is to harness the power of UiPath's digital workforce to save the Government both time and money by:

- Reducing operating costs by automating complex and repetitive financial tasks;
- Reducing repetitive processes so employees can instead focus on verification and analysis; and
- Providing greater visibility and compliance around complete financial populations.

"Kearney strives to be the best, and we are constantly working to improve our solutions and services for our Federal clients," said Brian Kearney, Kearney's Chief Operating Officer. "Through cooperation with UiPath, we hope to use robotics to that end, ultimately reducing costs and eliminating repetitive processes to make us faster and better for the Government's benefit."

Kearney offers its Federal clients the benefit of in-depth corporate experience in performing financial statement audits and performance audits, as well as providing consulting services on internal controls, assessments, preparatory and other financial management and accounting services. Kearney also provides a full range of integrated, multi-disciplinary IT services for Federal financial management applications.

"Federal agencies continue to rapidly adopt UiPath's digital assistants to reduce their backlog, increase capacity and provide fast and more efficient service to our citizens," added Jonathan Padgett, VP, U.S. public sector, UiPath. "By working with Kearney, we expect agencies to improve their compliance metric in less time and with far less disruption to the employees normally pulled from routine duties to support certification and audit activities."

**About UiPath**

Built for both business and IT, UiPath is the leading platform for enterprise Robotic Process Automation (RPA). More than 700 enterprise customers and government agencies use UiPath's Enterprise RPA platform to rapidly deploy software robots that perfectly emulate and execute repetitive processes, boosting business productivity, ensuring compliance and enhancing customer experience across back-office and front-office operations.

With a thriving RPA developer community of more than 120,000 worldwide, UiPath is on a mission to democratize RPA and support a digital business revolution. Based in New York City, UiPath's presence with multiple offices across the globe extends throughout North America, Europe and Asia. The company is backed by \$183M in series A & B funding from Accel, CapitalG, Kleiner, Perkins, Caufield & Byers, Credo Ventures, Earlybird's Digital East Fund and Seedcamp. UiPath's Series B valuation exceeded \$1 billion.

**About Kearney & Company, P.C.**

Established in 1985 and headquartered in Alexandria, Virginia, Kearney is the largest Certified Public Accounting (CPA) firm in the country dedicated exclusively to Federal financial management and is the 34<sup>th</sup> largest CPA firm out of the roughly 50,000 firms currently operating in the United States.
