## NetSol Technologies Announces Launch of LeasePak-SaaS

New product offering is the first cloud-based, end-to-end portfolio management and .  
NetSol to offer full system for a monthly service fee, making LeasePak a financiall

CALABASAS, Calif., March 17, 2011 – (GLOBE NEWSWIRE) -- NetSol Technologies, Inc. ("NetSol" or the "Company") (Nasdaq:NTWK) (Nasdaq Dubai:NTWK), a U.S. corporation providing global business services and enterprise application solutions to private and public sector organizations worldwide, today announced the North American launch of LeasePak-SaaS, a subscription-based lease and loan accounting and portfolio management system delivered using the software-as-a-service ("SaaS") deployment model.

NetSol's LeasePak Enterprise finance management system has been used by global finance teams in banks, manufacturing captives, and independents for over 25 years. Until now, the system has been available only as licensed software. However, with the launch of LeasePak-SaaS, the broad functionality of the LeasePak system now falls within the budgets of small and midsize finance companies, relieving them of the need to invest in dedicated IT infrastructure and staff.

Designed to streamline asset-based finance operations from contract origination through end-of-term, LeasePak-SaaS is the first product to use cloud computing deployment technology to provide a full end-to-end equipment and vehicle loan or leasing portfolio management and accounting system. NetSol will offer the full system for a monthly service fee.

Commenting on the business benefits of the new offering, NetSol's Chairman and CEO, Najeeb Ghauri, stated, "LeasePak-SaaS will enable equipment and vehicle finance organizations to eliminate the overhead of software licensing, installed systems, dedicated IT resources and desktop maintenance services. Now, finance managers can provide their teams with the many benefits of cloud computing with no compromise in the scalability, functionality, or end-to-end integration of their core portfolio management solution."

Mr. Ghauri continued, "The SaaS deployment option means that we can provide customers with as much technology as they need, scale their systems as they grow, and enable originators, accounting staff, and managers to use any computer, anywhere, at any time to securely access their information and track asset finance performance."

About NetSol Technologies, Inc.

NetSol Technologies, Inc. (Nasdaq:NTWK) (Nasdaq Dubai:NTWK) is a worldwide provider of global IT and enterprise application solutions. Since its inception in 1995, NetSol has used its BestShoring™ practices and highly experienced resources in analysis, development, quality assurance, and implementation to deliver high-quality, cost-effective solutions.
