Nokē Migrates to AWS to Enhance Cloud-Based, Digital Customer Experience

Janus International's Nokē is Now Powered by Amazon Web Services

TEMPLE, Ga.--(BUSINESS WIRE)-- Janus International Group, Inc (NYSE: JBI) ("Janus"), a leading provider of cutting-edge access control technologies and building product solutions for the self-storage, commercial, and industrial sectors, today announced the complete backend migration of Nokē to Amazon Web Services, Inc. (AWS). This successful migration allows Nokē to continue to lead digital innovation by leveraging AWS's leading industrial internet of things (IoT), artificial intelligence, and security capabilities. Running on AWS, Nokē has increased its availability and global reach, enabled real-time over-the-air device management, and improved the owner-operator and end-user experience through latency reduction and improved data synchronization.

Sanjay Khinvasara, EVP & Chief Engineering Officer of Nokē, said of the project, "We moved our entire customer base to AWS to take advantage of the stability and functionality of the world's leading cloud provider. As part of this transition, we optimized the application code and implemented additional network monitoring and diagnostics. This migration, along with our commitment to future improvements, provides our customers with improved cloud connectivity, performance, operations, and quality assurance benefits."

Since completing this complex migration to AWS, the world's most comprehensive and broadly adopted cloud computing platform, Nokē has seen processing times drop to half for almost all functions and across-the-board improvement. This significant achievement is largely due to the redesign of the database structure, code improvements, and inherent architecture improvements provided by AWS.

Nokē is a complete smart access control solution that allows customers to easily access the facility entry points and individual self-storage unit doors from their smart device. The award-winning Nokē offering includes smart keypads and smart locks, as well as the Nokē cloud-based software and mobile app. Nokē is designed to improve the security of individual self-storage units while also benefiting facility owners by automating operational processes such as lock checks and overlocking. Janus has distinguished itself as the technology leader in self-storage by combining its premium storage offerings with new and innovative technologies that redefine the total self-storage experience.

About Janus International Group

Janus International Group, Inc. (janusintl.com) is a leading global manufacturer and supplier of turn-key self-storage, commercial and industrial building solutions, including roll-up and swing doors, hallway systems, re-locatable storage units and facility and door automation technologies. The Janus team operates out of several U.S. locations and seven locations

internationally.

Forward Looking Statements

Certain statements in this communication may be considered “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical fact included in this communication are forward-looking statements, including, but not limited to statements regarding Janus’s positioning in the industry, the anticipated impact of the referenced migration, Janus’s ability to strengthen its pipeline and deliver on its objectives, and Janus’s belief regarding the demand outlook for Janus’s products and the strength of the industrials markets. When used in this communication, words such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “intend,” “continue,” or the negative of such terms or other similar expressions, as they relate to the management team, identify forward-looking statements. Such forward-looking statements are based on the current beliefs of Janus’s management, based on currently available information, as to the outcome and timing of future events, and involve factors, risks, and uncertainties that may cause actual results in future periods to differ materially from such statements.

In addition to factors previously disclosed in Janus’s reports filed with the SEC and those identified elsewhere in this communication, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance: (i) risks of the self-storage industry; (ii) the highly competitive nature of the self-storage industry and Janus’s ability to compete therein; and (iii) the risk that the demand outlook for Janus’s products may not be as strong as anticipated.

There can be no assurance that the events, results, or trends identified in these forward-looking statements will occur or be achieved. Forward-looking statements speak only as of the date they are made, and Janus is not under any obligation and expressly disclaims any obligation, to update, alter or otherwise revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as required by law. This communication is not intended to be all-inclusive or to contain all the information that a person may desire in considering an investment in Janus and is not intended to form the basis of an investment decision in Janus. All subsequent written and oral forward-looking statements concerning Janus or other matters and attributable to Janus or any person acting on its behalf are expressly qualified in their entirety by the cautionary statements above and under the heading “Risk Factors” in Janus’s most recently filed Annual Report on Form 10-K and Quarterly Report on Form 10-Q, as updated from time to time in amendments and its subsequent filings with the SEC.
