Adjusted operating earnings available to common shareholders<sup>(1)</sup> were \$51.3 million, diluted operating earnings per common share<sup>(1)</sup> were \$0.69, and pre-tax pre-provision adjusted operating earnings available to common shareholders<sup>(1)</sup> were \$66.2 million for the second quarter ended June 30, 2022.

#### **Share Repurchase Program**

On December 10, 2021, the Company's Board of Directors authorized a share repurchase program (the "Repurchase Program") to purchase up to \$100 million of the Company's common stock through December 9, 2022 in open market transactions or privately negotiated transactions, including pursuant to a trading plan in accordance with Rule 10b5-1 and / or Rule 10b-18 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). As part of the Repurchase Program, approximately 1.3 million shares (or \$48.2 million) were repurchased during the six months ended June 30, 2022, and of these shares approximately 649,000 shares (or \$23.2 million) were repurchased during the second quarter of 2022. At June 30, 2022, approximately \$51.8 million of share repurchases remain available under the Repurchase Program.

#### **NET INTEREST INCOME**

For the second quarter of 2022, net interest income was \$138.8 million, an increase of \$7.9 million from \$130.9 million for the first quarter of 2022. Net interest income (FTE)<sup>(1)</sup> was \$142.3 million in the second quarter of 2022, an increase of approximately \$8.1 million from the first quarter of 2022. The increases in net interest income and net interest income (FTE)<sup>(1)</sup> were primarily driven by higher interest income due to average loan growth from the

prior quarter, increases in loan yields on the Company's variable rate loans due to higher market interest rates and the additional day count in the second quarter, partially offset by increases in deposit and borrowing costs. The second quarter net interest margin increased 18 basis points to 3.15% from the previous quarter, and the net interest margin (FTE)<sup>(1)</sup> increased 20 basis points during the same period to 3.24%. The cost of funds increased by 4 basis points to 22 basis points, compared to the first quarter of 2022, driven by higher deposit and borrowing costs as noted above.

The Company's net interest margin (FTE)<sup>(1)</sup> includes the impact of acquisition accounting fair value adjustments. Net accretion related to acquisition accounting was \$2.7 million for the quarter ended June 30, 2022, representing an increase of \$621,000 from the prior quarter. The first and second quarters of 2022 and the remaining estimated net accretion impact are reflected in the following table (dollars in thousands):

Of the total past due loans still accruing interest, \$4.6 million or 0.03% of total loans held for investment were loans past due 90 days or more at June 30, 2022, compared to \$8.2 million or 0.06% of total loans held for investment at March 31, 2022, and \$8.7 million or 0.06% of total loans held for investment at June 30, 2021.

#### **Net Charge-offs**

Net charge-offs were \$939,000 or 0.03% of total average loans on an annualized basis for the quarter ended June 30, 2022, compared to insignificant net charge-offs of less than 0.01% for the first quarter of 2022 and the second quarter of 2021. On a year to date basis through June 30, 2022, net charge-offs were \$935,000 or 0.01% of total average loans (annualized).

#### **Provision for Credit Losses**

For the quarter ended June 30, 2022, the Company recorded a provision for credit losses of \$3.6 million, compared to a provision for credit losses of \$2.8 million in the previous quarter, and a negative provision for credit losses of \$27.4 million recorded during the same quarter in 2021. The provision for credit losses for the second quarter of 2022 reflected a provision of \$2.6 million for loan and securities losses and \$1.0 million for unfunded commitments.

#### Allowance for Credit Losses

At June 30, 2022, the ACL was \$113.2 million and included an allowance for loan and lease losses ("ALLL") of \$104.2 million and a reserve for unfunded commitments ("RUC") of \$9.0 million. The ACL at June 30, 2022 increased \$2.6 million from March 31, 2022, primarily due to increased uncertainty in the macroeconomic outlook and the impact of loan growth in the second guarter of 2022.

The ACL as a percentage of total loans increased slightly to 0.83% at June 30, 2022, compared to 0.82% at March 31, 2022. The ALLL as a percentage of total loans was 0.76% at June 30, 2022, consistent with March 31, 2022.

#### NONINTEREST INCOME

Noninterest income increased \$8.1 million to \$38.3 million for the quarter ended June 30, 2022 from \$30.2 million in the prior quarter, primarily due to a \$9.1 million pre-tax gain resulting from the sale of Dixon, Hubard, Feinour & Brown, Inc. ("DHFB"), a \$458,000

increase in interchange fees due to an increase in transaction and dollar volumes, and a \$444,000 increase in service charges on deposit accounts. These noninterest category increases were partially offset by a decrease in loan interest rate swap fee income of \$1.3 million due to a decrease in average swap fees, a decrease in unrealized gains on equity method investments of \$1.1 million, and lower mortgage banking income of \$917,000, resulting from declining gain on sale margins.

#### NONINTEREST EXPENSE

Noninterest expense decreased \$6.5 million to \$98.8 million for the quarter ended June 30, 2022 from \$105.3 million in the prior quarter, primarily driven by a decrease in restructuring expenses, as the prior quarter reflected \$5.5 million related to the Company's restructure activity that included the consolidation of 16 branches that was completed in March 2022. In addition, salaries and benefits expense declined by \$3.0 million during the second quarter, due to decreases in payroll related taxes and 401(k) contribution expenses, which are typically seasonally higher in the first quarter. Partially offsetting these expense reductions was an increase of \$590,000 in professional services expenses, an increase of \$350,000 in Teammate related expenses (included as a component of other expenses) associated with the re-opening of our corporate offices, an increase in marketing and advertising expenses of \$339,000, and an increase in FDIC assessment premiums of \$281,000.

#### **INCOME TAXES**

The effective tax rate for the three months ended June 30, 2022 was 16.7%, compared to 17.5% for the three months ended March 31, 2022, reflecting the impact of discrete items related to the sale of DHFB.

#### **BALANCE SHEET**

At June 30, 2022, total assets were \$19.7 billion, a decrease of \$120.6 million or approximately 2.4% (annualized) from March 31, 2022, and a decrease of \$327.6 million or approximately 1.6% from June 30, 2021. Total assets declined from the prior quarter due to a decline in the investment securities portfolio of \$207.1 million primarily due to the impact of market interest rate increases on the market value of the AFS securities portfolio, partially offset by the net impact of the decrease in cash and cash equivalents of \$154.9 million, which was deployed to fund \$196.1 million in loan growth during the quarter.

At June 30, 2022, loans held for investment (net of deferred fees and costs) totaled \$13.7 billion, including \$21.7 million in Paycheck Protection Program ("PPP") loans, an increase of \$196.1 million or 5.8% (annualized) from \$13.5 billion, including \$67.4 million in PPP loans, at March 31, 2022. Average loans held for investment (net of deferred fees and costs) totaled \$13.5 billion at June 30, 2022, an increase of \$224.7 million or 6.8% (annualized) from the prior quarter. Excluding the effects of the PPP<sup>(1)</sup>, adjusted loans held for investment (net of deferred fees and costs) at June 30, 2022 increased \$241.8 million or 7.2% (annualized) from March 31, 2022 and adjusted average loans increased \$284.4 million or 8.6% (annualized) from the prior quarter. At June 30, 2022 loans held for investment (net of deferred fees and costs) decreased \$42.5 million or 0.3% from June 30, 2021, and quarterly average loans decreased \$446.4 million or 3.2% from the same period in the prior year. Excluding the effects of the PPP<sup>(1)</sup>, adjusted loans held for investment (net of deferred fees and costs) at June 30, 2022 increased \$795.1 million or

6.2% from the same period in the prior year, and adjusted quarterly average loans during the second quarter of 2022 increased \$697.8 million or 5.5% from the same period in the prior year.

At June 30, 2022, total deposits were \$16.1 billion, a decrease of \$355.6 million or approximately 8.7% (annualized) from March 31, 2022. Average deposits at June 30, 2022 also decreased from the prior quarter by \$323.3 million or 7.9% (annualized). The decline in deposits was primarily driven by a public funds client that used available deposit funds to repay higher cost, longer-term debt obligations during the second quarter. Total deposits at June 30, 2022 decreased \$530.6 million or 3.2% from June 30, 2021, and quarterly average deposits at June 30, 2022 decreased \$309.5 million or 1.9% from the same period in the prior year. The decrease in total deposits from the prior year was primarily due to a decline in money market account balances of \$494.7 million and maturing time deposits.

The following table shows the Company's capital ratios at the quarters ended:

	June 30, 2022	March 31, 2021	June 30, 2021
Common equity Tier 1 capital ratio (2)	9.96 %	9.86 %	10.56 %
Tier 1 capital ratio (2)	11.00%	10.91 %	11.68 %
Total capital ratio <sup>(2)</sup>	13.85 %	13.79%	14.05%
Leverage ratio (Tier 1 capital to average assets) (2)	9.26 %	9.07 %	9.20 %
Common equity to total assets	11.32 %	11.79%	12.91%
Tangible common equity to tangible assets (1)	6.78 %	7.21 %	8.40 %

For the quarter ended June 30, 2022, the Company's common equity to total assets capital ratio and the tangible common equity to tangible assets capital ratio decreased from the prior quarter and prior year primarily due to the unrealized losses on the AFS securities portfolio recorded in other comprehensive income due to market interest rate increases in the second quarter of 2022.

During the second quarter of 2022, the Company declared and paid a quarterly dividend on the outstanding shares of Series A Preferred Stock of \$171.88 per share (equivalent to \$0.43 per outstanding depositary share), consistent with the first quarter of 2022 and the second quarter of 2021. During the second quarter of 2022, the Company also declared and paid cash dividends of \$0.28 per common share, consistent with the first quarter of 2022 and the second quarter of 2021.

- (1) These are non-GAAP financial measures. Net interest income (FTE) and total adjusted revenue (FTE), which are used in computing net interest margin (FTE), efficiency ratio (FTE) and adjusted operating efficiency ratio (FTE), provide valuable additional insight into the net interest margin and the efficiency ratio by adjusting for differences in tax treatment of interest income sources. The entire FTE adjustment is attributable to interest income on earning assets, which is used in computing yield on earning assets. Interest expense and the related cost of interest-bearing liabilities and cost of funds ratios are not affected by the FTE components.
- (2) These are non-GAAP financial measures. Tangible assets and tangible common equity are used in the calculation of certain profitability, capital, and per share ratios. The Company believes tangible assets, tangible common equity and the related ratios are meaningful measures of capital adequacy because they provide a meaningful base for period-to-period and company-to-company comparisons, which the Company believes will assist investors in assessing the capital of the Company and its ability to absorb potential losses.
- (3) These are non-GAAP financial measures. The Company believes that ROTCE is a meaningful supplement to GAAP financial measures and useful to investors because it measures the performance of a business consistently across time without regard to whether components of the business were acquired or developed internally.
- (4) These are non-GAAP financial measures. Adjusted operating measures exclude the gains or losses related to balance sheet repositioning (principally composed of gains and losses on debt extinguishment), gains or losses on sale of securities, gain on the sale of DHFB, as well as branch closing and facility consolidation costs (principally composed of real estate, leases and other assets write downs, as well as severance associated with branch closing and corporate expense reduction initiatives). The Company believes these non-GAAP adjusted measures provide investors with important information about the continuing economic results of the organization's operations. Prior periods reflect adjustments for previously announced branch closing and corporate expense reduction initiatives.
- (5) All ratios at June 30, 2022 are estimates and subject to change pending the Company's filing of its FR Y9-C. All other periods are presented as filed.
- (6) These balances reflect the impact of the CARES Act and the joint guidance issued by the five federal bank regulatory agencies and the Conference of State Bank Supervisors on March 22, 2020, as subsequently revised on April 7, 2020, which provides relief for TDR designations and also provides guidance on past due reporting for modified loans.
- (7) The adjusted operating efficiency ratio (FTE) excludes the amortization of intangible assets, gains or losses on sale of securities, gain on the sale of DHFB, gains or losses related to balance sheet repositioning (principally composed of gains and losses on debt extinguishment), as well as branch closing and facility consolidation costs. This measure is similar to the measure utilized by the Company when analyzing corporate performance and is also similar to the measure utilized for incentive compensation. The Company believes this adjusted measure provides investors with important information about the combined economic results of the organization's operations. Prior periods reflect adjustments for previously announced branch closing and corporate expense reduction initiatives.
- (8) This is a non-GAAP financial measure. Pre-tax pre-provision adjusted earnings excludes the provision for credit losses, which can fluctuate significantly from period-to-period under the CECL methodology, income tax expense, gains or losses related to balance sheet repositioning (principally composed of gains and losses on debt extinguishment), gains or losses on sale of securities, gain on the sale of DHFB, as well as branch closing and facility consolidation costs. The Company believes this adjusted measure

- provides investors with important information about the combined economic results of the organization's operations. Prior periods reflect adjustments for previously announced branch closing and corporate expense reduction initiatives.
- (9) These are non-GAAP financial measures. PPP adjustment impact excludes the unforgiven portion of PPP loans. The Company believes loans held for investment (net of deferred fees and costs), excluding PPP is useful to investors as it provides more clarity on the Company's organic growth. The Company also believes that the related non-GAAP financial measures of past due loans still accruing interest as a percentage of total loans held for investment (net of deferred fees and costs), excluding PPP, are useful to investors as loans originated under the PPP carry a Small Business Administration ("SBA") guarantee. The Company believes that the ALLL as a percentage of loans held for investment (net of deferred fees and costs), excluding PPP, is useful to investors because of the size of the Company's PPP originations and the impact of the embedded credit enhancement provided by the SBA guarantee.
