## **Noble Conference Presentation**

Richard MacPherson commented: "The Noble Capital Markets Conference comes at an opportune time as we continue executing our 'business-first' approach to licensing and strategic growth. With a rapidly growing base of utilities now under license agreements from our continued patent protection efforts, with over a dozen license and/or supply agreements reached since 2019, we're seeing tangible results that provide meaningful cash to advance commercialization of our water treatment technologies. We look forward to updating investors on our progress, including anticipated near-term revenue contributions from our water business and the continued build-out of a strong foundation leveraging both our patented SEA air technology and emerging water solutions."

Registration is required for conference participation. For more information or to schedule a meeting with management, please contact MZ Group at [BCHT@mzgroup.us](mailto:BCHT@mzgroup.us).
