Second Quarter 2013 Results

Coda Octopus Group, Inc. (OTC: CDOC.PK) yesterday announced its unaudited financial results for Q2 fiscal year 2013.

For the six months ending April 30, 2013, the Group achieved revenues of \$10.1m, up from \$9.6m for the previous year, and Net Income of \$1.8m up from \$1.4m in the previous year. The Group also generated a positive cash flow from its operating activities of \$1.9m in the six month period. These results are in keeping with excellent progress the Group is making under its restructuring. The full Quarterly Report is available at <http://www.otcmarkets.com/stock/CDOC/filings>.

Annamarie Gayle, Group CEO said “These are another set of good results from the Group, with all key indicators moving in the right direction. Under our restructuring program, which we started in 2009, we have reduced our Selling, General and Administrative Expenditures (SG&A) significantly from 85% of Revenues in 2009 to around 27% in the six month period. Notwithstanding these good results, the contraction of Government spending in the USA and Europe could negatively impact our performance in the third and fourth Quarters and as such we continue to carefully review our business plans.”

About Coda Octopus Group, Inc.

Originally founded in 1994 as Coda Technologies, the Coda Octopus Group is now headquartered in Lakeland, Florida.

The Group consists of a Marine Products business located in Lakeland, Florida, Edinburgh, Scotland, Perth, Australia, and Bergen, Norway, and engineering businesses, Coda Octopus Colmek in Salt Lake City, Utah and Coda Octopus Martech in Weymouth, England. Each of the Group companies are technology innovators with a particularly high level of sonar expertise. The Group has facilities in Florida, Utah, the UK, Australia, and Norway.

Alongside providing bespoke engineering and development for defense applications one of the Group's key products is the patented Coda Echoscope® - the first real time 3D sub-sea sonar which is used in oil and gas, underwater construction, search and rescue operations and port and harbor security and constructions. The top end software which runs on the Echoscope® (Underwater Survey Explorer) is also proprietary to Coda Octopus. The Echoscope® is also at the heart of the Underwater Inspection System which is being adopted for port and harbor security, and other applications globally. We have a number of products which are based on our real time 3D technology (Echoscope®, Underwater Inspection System and Dimension® (the latter being a forward looking real time sonar targeted at ROV applications)).

With this patented revolutionizing sub-sea visualization capability, and the existing systems integration skills within Coda Octopus Colmek, Inc. and Coda Octopus Martech Ltd., the

Coda Octopus Group believes it can become a world leading integrated sonar technology supplier.

Safe Harbor Statement

This press release contains certain forward-looking statements. These forward-looking statements can generally be identified as such because the context of the statement will include words such as Coda Octopus Group plans, expects, should, believes, anticipates or words of similar import but all statements other than of historical fact could be deemed forward-looking statements. Stockholders, potential investors and other readers are cautioned not to place undue reliance on these forward-looking statements that are predictions and opinions based only on current information as of the date of this press release that are inherently subject to risks and uncertainties that could cause future events or results to differ materially from those set forth or implied by the forward-looking statements. Certain of those risks and uncertainties are discussed in registration statement on Form SB-2 and include, but are not limited to, market acceptance of CodaOctopus' planned products and their level of sales, access to the capital necessary to finance and grow the business, a highly competitive environment in the security field that includes numerous large and well established companies much larger than ours, and our ability successfully to deploy our technologies and products to meet the technical demands and market requirements of our customers. These forward-looking statements are only made as of the date of this press release and Coda Octopus Group does not undertake any obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances.
