Kane Biotech Obtains ISO 13485 Certification

The quality management system of Kane is certified for design and development of medical devices

WINNIPEG, Manitoba, May 18, 2022 (GLOBE NEWSWIRE) -- Kane Biotech Inc. (TSX-V:KNE; OTCQB:KNBIF) (the "Company" or "Kane Biotech"), announced today that it has obtained ISO 13485:2016 certification for its quality management system specific to its ongoing efforts to design and develop novel medical devices for the wound care market.

"Quality and continuous improvement are core values of Kane and of paramount importance to us," stated Lori Christofalos, Vice President of Quality & Compliance at Kane Biotech. "Our quality management policies, procedures, and practices have been established to demonstrate our commitment to this high standard and to support future global medical device registrations and approvals. It represents another big step as we continue to drive towards commercialization with our wound care portfolio."

ISO certification demonstrates Kane Biotech's compliance, and customers can be assured that the medical devices designed and developed are fit for their intended purpose. The process of achieving ISO certification included establishing a quality management system and independent audit to verify conformance through review of the records to the standards.

Caution Regarding Forward-Looking Information

This press release contains certain statements regarding Kane Biotech Inc. that constitute forward-looking information under applicable securities law. These statements reflect management’s current beliefs and are based on information currently available to management. Certain material factors or assumptions are applied in making forward-looking statements, and actual results may differ materially from those expressed or implied in such statements. These risks and uncertainties include, but are not limited to, risks relating to the Company’s: (a) financial condition, including lack of significant revenues to date and reliance on equity and other financing; (b) business, including its early stage of development, government regulation, market acceptance for its products, rapid technological change and dependence on key personnel; (c) intellectual property including the ability of the Company to protect its intellectual property and dependence on its strategic partners; and (d) capital structure, including its lack of dividends on its common shares, volatility of the market price of its common shares and public company costs. Further information about these and other risks and uncertainties can be found in the disclosure documents filed by the Company with applicable securities regulatory authorities, available at www.sedar.com. The Company cautions that the foregoing list of factors that may affect future results is not exhaustive.
