GEE Group Acquires SNI Companies Through Merger

Transaction Creates Merged Firm with Approx. \$197 Million Pro Forma Revenue

NAPERVILLE, IL / ACCESSWIRE / April 3, 2017 /GEE Group Inc. (NYSE MKT: JOB) ("the Company" or "GEE Group"), a provider of professional staffing services and solutions, today announced that GEE Group acquired SNI Companies, a premier provider of professional staffing and recruitment services. The acquisition is expected to be accretive to GAAP earnings per share and expected to generate significant estimated adjusted earnings before interest, taxes, depreciation and amortization (adjusted EBITDA, a non-GAAP financial measure), including anticipated synergies. In calendar 2016, SNI had approximately \$113.5 million in revenue with EBITDA (EBITDA, a non-GAAP financial measure) margin of approximately 8.2% and gross margin of approximately 44%. Pro forma historic GAAP revenue (for the respective fiscal years) of the combined company is approximately \$197 million, more than double the reported revenue for GEE Group's fiscal year ended September 30, 2016.

Transaction Details

Under the terms of the merger agreement, GEE Group acquired SNI Companies for consideration of \$86 million which was paid at closing. The consideration was comprised of \$44.7 million in cash and \$28.8 million of GEE convertible preferred stock (which are non-voting and shall be automatically converted into shares of GEE common stock following the receipt by GEE of the approval of its stockholders) and \$12.5 million of convertible subordinated notes. In connection with the transaction, GEE Group obtained financing from PNC Bank and MGG Investment Group. The new credit facility consists of a \$25 million revolving credit facility and a \$48.8 million term loan. The proceeds of the financing were used to finance the cash portion of the purchase price, pay off SNI's debt (assumed and paid off by GEE), refinance existing GEE Group debt, and pay the transaction expenses. The credit facility provides for additional financing of future strategic acquisitions.

GEE Group expects its increased scale, along with strong revenue and free cash flow generation, to result in rapid deleveraging, creating further equity value and continued financial flexibility. Additionally, the benefits of the combined company include the realization of economies of scale and various synergies that will allow for more operational efficiency.
