## **Discussion of Fiscal 2022 Full Year and Fourth Quarter Results**

Revenues for the fiscal year ended September 30, 2022 were \$165.1 million, up \$16.2 million, or 11%, compared with \$148.9 million for the fiscal year ended September 30, 2021. Contract staffing services revenues were \$138.5 million, up \$8.7 million, or 7%, and comprised 84% of fiscal 2022 revenues, compared with \$129.8 million, which comprised 87% of fiscal 2021 revenues. The increases in total contract and direct placement staffing services revenues for the fiscal year ended September 30, 2022 were primarily attributable to increased demand in our professional contract services markets as the negative effects of COVID-19 continued to lessen. In addition, volatility experienced in the U.S. economy and workforce in 2022 tended to create opportunities and demand, particularly in the professional contract and direct hire services markets.

Revenues for each of the fiscal fourth quarters ended September 30, 2022 and 2021 were \$41.5 million. Contract staffing services revenues for each fiscal fourth quarter were \$35.0 million and comprised 84% of fiscal 2022 and 2021 fourth quarter revenues. Direct placement services revenues for each were \$6.5 million and comprised 16% of fiscal 2022 and 2021 fourth quarter revenues.

Professional services revenues, including contract and direct hire placement services, for the fiscal year ended September 30, 2022 were \$149.2 million, up \$17.7 million, or 13%, compared with \$131.5 million for the fiscal year ended September 30, 2021. Professional services revenues include contract staffing and permanent placements in the information technology, engineering, healthcare, finance, accounting and office specialties, and comprised 90% of fiscal 2022 revenues, and 88% of fiscal 2021 revenues. Professional services revenues for the fourth quarter of fiscal 2022 were \$37.5 million, up \$0.5 million, or 1%, and comprised 90% of fourth quarter of fiscal 2022 revenues, compared with \$37.0 million which comprised 89% of fourth quarter fiscal 2021 revenues.

Professional contract services only revenues for the fiscal year ended September 30, 2022 were \$122.6 million, up \$10.1 million, or 9%, and comprised 82% of all professional services revenues, compared with \$112.5 million which comprised 85% of all professional services revenues for the fiscal year ended September 30, 2021. Professional contract services only revenues for the fourth quarter of fiscal 2022 were \$31.0 million, up \$0.5 million, or 2%, and comprised 83% of all professional services revenues, compared with \$30.5 million which comprised 82% of all professional services revenues for the fourth quarter of fiscal 2021.

Direct hire placement services revenues, all of which are in professional services, for the fiscal year ended September 30, 2022 were \$26.6 million, up \$7.5 million, or 39%, and comprised 18% of all fiscal 2022 professional services revenues, compared with \$19.1 million which comprised 15% of all fiscal 2021 professional service revenues. Direct placement services revenues for both the fiscal 2022 and 2021 fourth quarters were \$6.5

million and comprised 17% of all professional services revenues for the fourth quarter of fiscal 2022, and 18% of all professional services revenues for the fourth quarter of fiscal 2021.

The large increase in direct hire revenues in fiscal 2022, compared with fiscal 2021, was driven by several factors including volatility and shortages in the labor markets which created a stronger demand environment, particularly for highly skilled personnel. This appears to have been a motivating factor for businesses to fill open positions with permanent employees, rather than contract employees. Also, the growing proportion of remote workers in the workforce appears to be motivating some employers to favor permanent hires over contractors so that they may maintain direct access and control for purposes of security over their networks and other assets. GEE Group has been successful in meeting the increased demand for permanent placements and growing direct hire revenues across its information technology, finance, accounting and office support verticals utilizing highly skilled personnel and through aggressive hiring of experienced talent from within the recruitment industry.

Industrial staffing services revenues were \$15.9 million for the fiscal year ended September 30, 2022, down \$1.4 million, or 8%, as compared with \$17.3 million for fiscal 2021. Industrial staffing services revenues were \$4.0 million for the fourth quarter of fiscal 2022, down \$0.4 million, or 9%, as compared with \$4.4 million for the fourth quarter of fiscal 2021. The year over year declines were mainly attributable to conditions associated with COVID-19 variants in the earlier portion of the fiscal year, which caused disruptions in the industrial markets we serve and a decrease in demand.

Our overall gross margin (including direct hire placement services, which have a 100% gross margin) for the fiscal year ended September 30, 2022 was 37.4%, up 2.1 percentage points, or 210 basis points, as compared with 35.3% for fiscal 2021. Our overall gross margin for the fourth quarter of fiscal 2022 was 36.3%, down 0.4 percentage points, or 40 basis points, as compared with 36.7%, for the fourth quarter of fiscal 2021. Our combined professional services gross margin (excluding light industrial contract services) for the fiscal year ended September 30, 2022 was 39.7%, up 2.7 percentage points, or 270 basis points, as compared with 37.0% for fiscal 2021. Our combined professional services gross margin for the fourth quarter of fiscal 2022 was 38.6%, down 0.9 percentage points, or 90 basis points, as compared with 39.5% for the fourth quarter of fiscal 2021. Improvements in the Company's combined gross profit margins for fiscal 2022 were largely due to the significant increases in and resulting higher mix of higher margin professional services contract services and direct hire revenues.

Our professional contract staffing services gross margin (excluding direct hire placement services and industrial contract staffing services) for the fiscal year ended September 30, 2022 was 26.6%, up 0.3 percentage points, or 30 basis points, as compared with 26.3% for fiscal 2021. Our combined professional contract staffing services gross margin for the fiscal fourth quarter ended September 30, 2022 was 25.6%, down 1 percentage point, or 100 basis points, as compared with 26.6% for the fourth quarter of fiscal 2021. The differences in professional contract staffing services gross margins for fiscal 2022 and 2021 periods presented were largely the result of changes in the mix of specialties, bill rates and spreads among the periods in the normal course of business.

Our industrial contract staffing services gross margin for the fiscal year ended September 30, 2022 was 15.4%, down 6.9 percentage points, or 690 basis points, as compared with

22.3% for fiscal 2021. Our industrial contract staffing services gross margin for the fourth quarter of fiscal 2022 was 15.1%, up 1.6 percentage points, or 160 basis points, as compared with 13.5% for the fourth quarter of fiscal 2021. Industrial contract staffing services gross margins are materially impacted by charges or credits associated with changes in the estimated amounts of return premiums the Company is eligible to receive under the Ohio Bureau of Workers' Compensation retrospectively rated insurance program. The industrial services gross margins normalized for the effects of these items were 14.9% for both fiscal years ended September 30, 2022 and 2021, and 15.2% and 15.0% for the fiscal fourth quarters ended September 30, 2022 and 2021, respectively.

Selling, general and administrative expenses (SG&A) for the fiscal year ended September 30, 2022 were \$51.9 million, up \$10.2 million, or 25%, as compared with \$41.7 million, for fiscal 2021. SG&A for the fiscal fourth quarter ended September 30, 2022 was \$14.5 million, up \$2.6 million, or 22%, as compared with \$11.9 million for fiscal fourth quarter of 2021. The ratios of SG&A-to-revenues for the fiscal years ended September 30, 2022 and 2021 were 31.4% and 28.0%, respectively, and were 34.8% and 28.6% for the fiscal 2022 and 2021 fourth quarters, respectively. Higher compensation expenses and inflationary increases in other operating costs accounted for significant portions of the increases in SG&A expenses and ratios for the fiscal 2022 year and fourth quarter over those for the comparable fiscal 2021 periods. Incentive compensation, including commissions and bonuses, increased due to the significant growth and improvements in production and operating results in fiscal 2022. In addition, the Company invested in and added sales and recruiting talent in the professional services businesses during fiscal 2022 to support its current and future growth. The fiscal 2022 full year SG&A also included \$0.8 million in charges associated with two former positions that were eliminated, an increase of \$0.4 million in bad debt expense associated with a sole industrial staffing services former customer, and a \$1.0 million settlement of a legal matter.

Income from operations for the fiscal year ended September 30, 2022 was \$3.8 million, down \$2.7 million when compared with income from operations of \$6.5 million for the fiscal year ended September 30, 2021. The Company had a loss from operations for the fourth quarter of fiscal 2022 of \$0.2 million, compared with income from operations of \$2.3 million for the fourth quarter of fiscal 2021. In addition to the cumulative effect of the items discussed above, income from operations for the fiscal year ended September 30, 2022 was reduced by a non-cash goodwill impairment charge of \$2.2 million incurred in the first fiscal 2022 quarter ended December 31, 2021. Offsetting these reductions in net operating income (loss), amortization expense decreased approximately \$0.6 million and \$0.3 million during the fiscal 2022 full year and fourth quarter, respectively, as certain of the Company's identifiable intangible assets became fully amortized during fiscal 2022 and fiscal 2021.

Net income for the fiscal year ended September 30, 2022 was \$19.6 million, or \$0.17 per diluted share, up \$19.6 million, and \$0.17 per diluted share, as compared with near breakeven amounts for the fiscal year ended September 30, 2021. The Company reported a net loss for the fourth quarter of fiscal 2022 of \$0.8 million, or \$0.1 per diluted share, compared with net income of \$3.0 million, or \$0.03 per diluted share, for the fourth quarter of fiscal 2021. Net income for fiscal 2022 included net gains on the extinguishment of the Company's remaining four former PPP loans of \$16.8 million. The matters discussed with regard to SG&A and income (loss) from operations above, also were significant factors resulting in the net income (loss) and related per diluted share amounts reported in the full

year and fourth quarter of fiscal 2022, as compared with the comparable full year and fourth quarter of fiscal 2021.

Net income adjusted for the effects of non-recurring, non-cash and/or other gain or loss items, including gains from the forgiveness of PPP loans ("adjusted net income (loss)", a non-GAAP financial measure) for the fiscal year ended September 30, 2022 was \$7.7 million, or \$0.07 per diluted share, compared with \$1.9 million, or \$0.03 per diluted share, for the fiscal year ended September 30, 2021. Adjusted net loss for the fourth quarter of fiscal 2022 was \$0.4 million, or \$0.00 per diluted share, compared with adjusted net income of \$2.0 million, or \$0.02 per diluted share for the fourth quarter of fiscal 2021. **(See Reconciliation of Net Income (Loss) to non-GAAP adjusted Net Income (Loss), which is attached to and forms part of this press release).**

Earnings before interest, taxes, depreciation and amortization ("EBITDA"), adjusted to eliminate noncash stock and stock option expenses, acquisition, integration and restructuring expenses, gain on extinguishment of debt and other gains and losses ("adjusted EBITDA", a non-GAAP financial measure) for the fiscal year ended September 30, 2022 was \$12.5 million, up \$0.2 million, or 2%, as compared with \$12.3 million for the fiscal year ended September 30, 2021. Adjusted EBITDA for the fourth quarter of fiscal 2022 was \$1.0 million, down \$2.6 million, or 72%, as compared with \$3.6 million for the fourth quarter of fiscal 2021. **(See Reconciliation of Net Income (Loss) to non-GAAP adjusted EBITDA, which is attached to and forms part of this press release).**

Free cash flow (a non-GAAP financial measure comprised of net cash flow from operating activities, less capital expenditures) for the fiscal year ended September 30, 2022 was \$8.9 million, up \$8.7 million, as compared with \$0.2 million for the fiscal year ended September 30, 2021. The substantial improvement in free cash flow is mainly due to the elimination of the Company's former high-cost debt during fiscal 2021. **(See Reconciliation of Cash Flow from Operating Activities to non-GAAP Free Cash Flow, which is attached to and forms part of this press release).**

During the fiscal year ended September 30, 2022, the Company received forgiveness from the U.S. Small Business Administration ("SBA") of its four remaining PPP loans and accrued interest for GEE Group Inc. and its operating subsidiaries, BMCH, Inc., SNI Companies, Inc. and Paladin Consulting Inc., in the aggregate amount of \$16.8 million, resulting in recognition of corresponding gains on the extinguishment of debt. During the fiscal year ended September 30, 2021, the PPP loans and accrued interest for operating subsidiaries Access Data Consulting Corporation, Agile Resources, Inc., Triad Logistics, Inc., Triad Personnel Services, Inc. and Scribe Solutions, Inc. in the aggregate amount of \$3.5 million were forgiven by the SBA, resulting in recognition of corresponding gains on the extinguishment of debt of which \$1.2 million was recognized in the fourth quarter of fiscal 2021.

## **Management Comments**

Derek E. Dewan, Chairman and Chief Executive Officer of GEE Group, commented, "We are very proud of the outstanding results achieved by our people for fiscal 2022, especially considering the challenging environment of inflation and volatility in the economy and workforce. Collectively, we were able to take advantage of these conditions and turn in a solid performance with revenue growth, strong margins, solid earnings and free cash flow.

We generated approximately \$9 million in free cash flow and ended fiscal 2022 with cash on hand of \$18.8 million, net working capital of \$26.6 million, availability under our bank ABL facility of \$15.4 million and zero long term debt.

Mr. Dewan added, "Fiscal 2022 was a very good year, not only for our outstanding financial performance, but also for positioning ourselves to take advantage of future opportunities and to be prepared to navigate successfully through any economic turbulence. I am very confident in our outstanding, dedicated, hard-working associates and their ability to meet the ever-increasing and evolving demands of our customers for highly skilled permanent and contract workers. Our client service professionals recruit and deploy the best talent and demonstrate daily their ability to adapt and meet our clients' needs. Despite the macroeconomic challenges and headwinds predicted for this winter and 2023, we are cautiously optimistic and expect that there will be many opportunities for the Company to place contract and permanent workers at customers. The flexible, on-demand work force needs of corporate America remain strong amongst the backdrop of a continuing tight labor market. The environment of dynamic changes in the way our country works has created a "new normal" that bodes well for GEE Group and the staffing industry as a whole."

### **Use of Non-GAAP Financial Measures**

**The Company discloses certain non-GAAP financial measures in this press release, including Adjusted Net Income (Loss), EBITDA, Adjusted EBITDA and Free Cash Flow. Management and the board of directors use and refer to these non-GAAP financial**

measures internally as a supplement to financial information presented in accordance with U.S. GAAP. Non-GAAP financial measures are used for purposes of evaluating operating performance, financial planning purposes, establishing operational and budgetary goals, compensation plans, analysis of debt service capacity, capital expenditure planning and determining working capital needs. The Company also believes that these non-GAAP financial measures also are considered useful by investors.

Non-GAAP Adjusted Net Income (Loss) is defined as Net Income (Loss) adjusted for non-cash stock compensation expenses, acquisition, integration, restructuring and other non-recurring expenses, capital markets-related expenses, gains or losses on extinguishment of debt and noncash goodwill impairment charges.

Non-GAAP EBITDA is defined as net income (loss) before interest, taxes, depreciation and amortization. Non-GAAP adjusted EBITDA is defined as EBITDA, adjusted for the same items used to derive non-GAAP adjusted net income (loss). Non-GAAP free cash flow is defined as cash flow from operating activities, less capital expenditures. Non-GAAP adjusted net income (loss), EBITDA, adjusted EBITDA and free cash flow are not terms proscribed or defined by GAAP and, as a result, the Company's measure of them may not be comparable to similarly titled measures used by other companies. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flow that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP. The non-GAAP financial measures discussed above should be considered in addition to, and not as substitutes for, nor as being superior to net income (loss) reported in the consolidated statements of income, cash and cash flows reported in the consolidated statements of cash flows, or other measures of financial performance reflected in the Company's consolidated financial statements prepared in accordance with U.S. GAAP included in Form 10-K and Form 10-Q for their respective periods filed with the SEC, which should be read and referred to in order to obtain a comprehensive and thorough understanding of the Company's financial results.

The reconciliations of net income (loss) to non-GAAP adjusted net income, net income (loss) to non-GAAP EBITDA and non-GAAP adjusted EBITDA, and cash flows from operating activities to non-GAAP free cash flows referred to in the highlights or elsewhere in this press release are provided in the following schedules that also form a part of this press release.
