# KORE Takes Deep Dive into Electronic Logging Device Impact on Fleet Ops

*Position Logic and VisTracks to share insights on operations changes for fleet managers in wake of new regulations*

ALPHARETTA, Ga.--(BUSINESS WIRE)-- [KORE](#), the people powering IoT innovations and opportunities, today announced that KORE's Position Logic, in conjunction with VisTracks, will host a live webinar discussing Hours Of Service (HOS) regulations, focusing on Electronic Logging Device (ELD), and the impact fleet managers should expect.

Fleet managers are working through the complex rules of HOS and wondering how this will affect their operations. For Part II of our HOS Webinar Series, Position Logic has partnered with experts at VisTracks to further delve into what these regulations will mean for your fleet operations. Some topics which will be covered:

- Regulations
- Truck Capacity
- Competitive Position
- Vendor Support
- Pricing

**What:** "The Impact ELD Will Have On Your Fleet Operations" Webinar

**Who:** Cory Anderson, manager, strategic marketing & training, KORE  
Dennis Lemus, business developer, Position Logic  
Abraham Levine, COO, VisTracks

**When:** Thursday, October 20, 2016 at 2:00 p.m. EDT

**Where:** Please visit [here](#) to register for the webinar.

VisTracks recently announced certification with the US Department of Transportation (DOT) Federal Motor Carrier Safety Administration (FMCSA). This certification denotes VisTracks' compliance with the FMCSA December 2015 mandate for Electronic Logging Device (ELD) application software and hardware support.

## About KORE

KORE provides the connectivity and services that make the Internet of Things possible. Founded in 2003, KORE is the world's largest managed network services provider specializing in Internet of Things (IoT) and Machine to Machine (M2M) markets. KORE

provides the critical wireless connectivity empowering application, hardware and wireless operator partners to rapidly bring new IoT and M2M innovations to market, with millions of active on-network units in more than 180 countries. KORE delivers choice, reliability and global native coverage through multi-carrier and Tier 1 carrier cellular and satellite network services – including LTE, GSM and CDMA - as well as advanced applications to easily manage IoT connected devices. KORE [Position Logic](#) software provides seamless location-based services (LBS) for businesses. KORE's recent acquisition of Wyless makes the company one of the six largest providers of M2M/IoT services globally, inclusive of carriers.
