Helios Technologies' Electronics Segment Expands Support Across Briggs & Stratton Ecosystem

SARASOTA, Fla.--(BUSINESS WIRE)-- Helios Technologies, Inc. (NYSE: HLIO) ("Helios" or the "Company"), a global leader in highly engineered motion control and electronic controls technology, today announced that two businesses within its Electronics Segment—i3 Product Development ("i3PD") and Enovation Controls ("Enovation")—are supporting the off-highway equipment industry through separate commercial relationships with Briggs & Stratton.

While each relationship serves a distinct role, together they highlight the breadth of engineering, systems integration, and electronic control capabilities available across the Helios Electronics Segment.

i3PD recently joined the Briggs & Stratton Vanguard™ Battery Technology Partner program, where it provides product design, engineering, and systems integration services for OEMs adopting Vanguard commercial battery technology.

"We are thrilled to welcome i3 Product Development to our growing network of Vanguard Battery Technology Partners," said David Frank, Senior Vice President and President of Electrification at Briggs & Stratton. "By combining our proven battery technology with i3PD's expertise in complex system integration, we can help OEMs confidently navigate the transition to electrified equipment."

In addition, Enovation continues its supplier relationship with Ferris®, a Briggs & Stratton company, providing products including the PV485 display and IX3212 Power Distribution Module for commercial equipment applications.

"These relationships demonstrate the diverse capabilities within our Electronics Segment," said Billy Aldridge, President, Electronics of Helios. "Whether through engineering services at i3PD or electronic control solutions from Enovation, our businesses create value for customers at different stages of product development and production. Together, they reflect the depth of expertise and customer-focused solutions we bring to the off-highway equipment market."

About Briggs & Stratton

Briggs & Stratton, headquartered in Milwaukee, Wisconsin, provides innovative products and diverse power solutions to help people get work done. Briggs & Stratton is the world's largest producer of engines for lawn and garden, turf care and job site power equipment and is a leading designer, manufacturer and marketer of lithium-ion batteries, standby generators and energy storage systems through its Briggs & Stratton®, Vanguard®, Ferris®, Simplicity®,

Snapper®, Billy Goat® and Branco® brands. Briggs & Stratton products are designed, manufactured, marketed and serviced in over 100 countries on six continents. Learn more at BriggsandStratton.com.

About i3 Product Development

i3 Product Development is a full-service product development firm that partners with leading manufacturers to design, engineer, and deliver innovative products. With expertise spanning mechanical and electrical engineering, industrial and UI/UX design, embedded systems, software development, and rapid prototyping, i3PD helps bring complex products to market with a focus on performance, reliability, and manufacturability. Learn more at i3pd.com and follow us on LinkedIn.

About Enovation Controls

Enovation Controls is a fast-growing and innovative manufacturer of electronic controls and displays for diverse markets. As an international leader in fully tailored solutions, Enovation Controls offers a broad range of displays, controls, and instrumentation products for various applications. With an internationally diverse team, we serve customers around the world through our global sales, manufacturing, and engineering operations. Enovation Controls partners directly with OEMs and supports a worldwide network of authorized distributors and system integrators. Visit us at www.enovationcontrols.com and follow us on LinkedIn.

About Helios Technologies

Helios Technologies is a global leader in highly engineered motion control and electronic controls technology, providing premium products that ensure safety, reliability, and seamless connectivity to diverse end markets including agriculture, construction, data centers, energy, health and wellness, industrial, marine, material handling, and recreational vehicles. Helios sells its products to customers in over 80 countries around the world. Its strategy is to be a diversified, customer-centric global enterprise distinguished by innovation, operational speed, and a high-performance culture. The Company has paid a cash dividend to its shareholders every quarter since becoming a public company in 1997.
