Enovation Controls, a Helios Technologies Operating Company, Partners With C-MAP® to Bring Marine Capabilities to No Roads™

SARASOTA, Fla.--(BUSINESS WIRE)-- Helios Technologies, Inc. (NYSE: HLIO) ("Helios" or the "Company"), a global leader in highly engineered motion control and electronic controls technology, today announced a partnership between its operating company, Enovation Controls, and C-MAP® to integrate C-MAP®'s X charting marine cartography platform into Enovation Controls' No Roads™ off-highway navigation platform.

This press release features multimedia. View the full release here: https://www.businesswire.com/news/home/20261005455038/en/

C-MAP® marine cartography with No Roads™ base map overlay

The collaboration combines Enovation Controls' expertise in marine electronics, displays and connected experiences with C-MAP®'s digital marine cartography. Through the partnership, C-MAP® charting will be integrated into compatible Enovation Controls displays and the No Roads™ mobile application, extending the navigation experience beyond the helm.

"Marine has long been an important market for our Electronics segment, and this partnership is another step in expanding the connected experiences we can deliver to our customers," said Billy Aldridge, President, Electronics for Helios. "By combining C-MAP®'s proven marine cartography with the No Roads™ navigation platform, Enovation Controls is able to bring a comprehensive embedded display plus mobile solution to global marine markets, giving original equipment manufacturers (OEMs) new ways to deliver a better experience on the water."

The integrated product offering will provide extensive coverage of North American inland and coastal waterways, along with global marine charts, allowing Enovation Controls to support customers worldwide through a single platform. By bringing navigation, vessel information, and other digital experiences together, the partnership advances No Roads™ toward a seamless experience between the helm display and the mobile app, so boaters can move from one to the other without missing a beat.

"This partnership represents an important milestone for C-MAP® as we continue expanding the reach of our X charting platform," said Max Cecchini, Director of C-MAP, Electronic Solutions, Navico Group. "By bringing DISCOVER™ X to Enovation Controls customers, we're introducing our latest charting technology to a new segment of boaters and helping

more people navigate with confidence, whether they're exploring new waterways, enjoying watersports, or spending weekends on the water."

C-MAP® integration is planned for compatible Enovation Controls displays on model year 2027 products, with integration into the No Roads™ mobile application targeted for spring 2027, ahead of the boating season. Enovation Controls will offer an early look at C-MAP® running live on new Enovation Controls display technology during the International BoatBuilders' Exhibition & Conference (IBEX), October 6–8 in Tampa, Florida, at Booth #3-1517.

About C-MAP®

C-MAP is part of Navico Group, a division of Brunswick Corporation (NYSE: BC), and is a leader in digital marine cartography and cloud-based mapping, offering one of the world's largest marine navigation digital chart databases. C-MAP's portfolio includes the DISCOVER™, REVEAL™, DISCOVER™ X, REVEAL™ X, and 4D™ chart ranges, which integrate with fishfinders and chartplotters from the leading marine electronics brands, and via the C-MAP App available on the App Store and Google Play.

About Enovation Controls

Enovation Controls is a fast-growing and innovative manufacturer of electronic controls and displays for diverse markets. As an international leader in fully tailored solutions, Enovation Controls offers a broad range of displays, controls, and instrumentation products for various applications. With an internationally diverse team, we serve customers around the world through our global sales, manufacturing, and engineering operations. Enovation Controls partners directly with OEMs and supports a worldwide network of authorized distributors and system integrators. Visit us at www.enovationcontrols.com and follow us on LinkedIn.

About Helios Technologies

Helios Technologies is a global leader in highly engineered motion control and electronic controls technology, providing premium products that ensure safety, reliability, and seamless connectivity to diverse end markets including agriculture, construction, data centers, energy, health and wellness, industrial, marine, material handling, and recreational vehicles. Helios sells its products to customers in over 80 countries around the world. Its strategy is to be a diversified, customer-centric global enterprise distinguished by innovation, operational speed, and a high-performance culture. The Company has paid a cash dividend to its shareholders every quarter since becoming a public company in 1997.
