TORONTO, Aug. 11, 2022 /CNW/ - TerrAscend Corp. ("TerrAscend" or the "Company") (CSE: TER) (OTCQX: TRSSF), a leading North American cannabis operator, today reported its financial results for the second quarter ending June 30, 2022. All amounts are expressed in U.S. dollars unless indicated otherwise and are prepared under U.S. Generally Accepted Accounting principles (GAAP).

Jason Wild, Executive Chairman of TerrAscend, commented, "We grew revenue 31% sequentially for the second quarter as New Jersey adult-use sales got off to a great start. Growth should continue as we remain on track for each of our stores in New Jersey to achieve at least a \$40 million run rate in their first full year of adult-use sales. Adjusted EBITDA and margins grew sequentially, and I expect this to continue into the second half of the year. The leadership team, which has been significantly bolstered over the past few quarters, remains focused on building the business for success over the long term and we will continue to make decisions with that mindset."

Ziad Ghanem, President and Chief Operating Officer, added, "TerrAscend is focused on engaging our team members, listening to our customers, delivering quality products, and achieving operational excellence. Between our state line up and the wide-open map that will allow us to be selective on where we go next, TerrAscend is set up for strong growth for years to come. We will achieve that growth while improving margins and driving profitability."

Second Quarter 2022 Financial Results

Net sales for the second quarter of 2022 totaled \$64.8 million, an increase of 30.5% sequentially and 10.4% year over year, mainly related to a partial quarter of adult use sales in New Jersey along with a full quarter of contribution related to the acquisition of Gage, partially offset by the Company's decision to discontinue non-branded wholesale sales in Michigan.

Gross margin for the second quarter of 2022 was 35.5%. Adjusted gross margin was 47.1% as compared to 38.4% in the previous quarter, an improvement of 870 basis points quarter over quarter. The sequential margin expansion was driven by strong improvements across all of the Company's core businesses. Adjusted gross margin excludes the one-time impact of reserves and write-downs related to aged inventory in Pennsylvania, dating back to the revamp of its cultivation facility in the second half of 2021.

General & Administrative expenses (G&A), excluding stock-based compensation, increased \$10 million versus the first quarter of 2022 to \$29.5 million, mainly driven by the full quarter addition of the Gage acquisition. Excluding Michigan, G&A expenses were up \$1.1 million quarter over quarter related to additional staffing and other pre-opening expenses in preparation for the start of adult use sales in New Jersey. As a percentage of revenue, G&A increased to 45.5% in the second quarter from 38.7% in the previous quarter. The increase as a percentage of revenue was impacted by the addition of Gage for a full quarter as well as staffing for all three stores in New Jersey despite the delayed opening of the Lodi store, which opened subsequent to the quarter.

Adjusted EBITDA for the quarter was \$5.8 million versus \$3.3 million in the first quarter of 2022. Adjusted EBITDA margin improved from 6.6% in the first quarter to 8.9% in the second quarter. The improvement was driven by higher sales and improved gross margin, offset by higher G&A expenses with the addition of Gage for a full quarter and costs associated with the launch of adult-use in New Jersey.

GAAP Net income for the quarter was \$14.2 million, compared to a Net loss of \$16.0 million in first quarter of 2022.

Balance Sheet and Cash Flow

Cash and cash equivalents were \$49 million as of June 30, 2022, compared to \$88 million as of March 31, 2022. The Company has ample liquidity and access to capital, mainly through its capacity for additional borrowing related to its unencumbered owned assets and minimal usage of sale leasebacks. The Company also has the ability to raise equity should the capital markets improve.

Cash used from operations was \$16.1 million for the three months ended June 30, 2022, mainly driven by tax payments of \$9.2 million and interest payments of \$6.4 million. Current income taxes payable at the end of the period was \$13 million.

Capital expenditures, including deposits, were \$12.3 million in the quarter, primarily related to the on-going expansion work at the Company's Maryland and Michigan cultivation and processing facilities. The Company also made final note payments of \$5 million related to its previous acquisitions of HMS in Maryland and KCR in Pennsylvania.

As of August 11, 2022, there were 318 million basic shares outstanding including 253 million

common shares, 13 million preferred shares as converted, and 52 million exchangeable shares.

Definition and Reconciliation of Non-GAAP Measures

In addition to reporting the financial results in accordance with GAAP, the Company reports certain financial results that differ from what is reported under GAAP. Non-GAAP measures used by management do not have any standardized meaning prescribed by GAAP and may not be comparable to similar measures presented by other companies. The Company believes that certain investors and analysts use these measures to measure a company's ability to meet other payment obligations or as a common measurement to value companies in the cannabis industry, and the Company calculates Adjusted Gross Profit as Gross Profit adjusted for certain material non-cash items and Adjusted EBITDA as EBITDA adjusted for certain material non-cash items and certain other adjustments management believes are not reflective of the ongoing operations and performance. Such information is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with GAAP. The Company believes this definition is a useful measure to assess the performance of the Company as it provides more meaningful operating results by excluding the effects of expenses that are not reflective of the Company's underlying business performance and other one-time or non-recurring expenses.

Caution Regarding Cannabis Operations in the United States

Investors should note that there are significant legal restrictions and regulations that govern the cannabis industry in the United States. Cannabis remains a Schedule I drug under the US Controlled Substances Act, making it illegal under federal law in the United States to, among other things, cultivate, distribute, or possess cannabis in the United States. Financial transactions involving proceeds generated by, or intended to promote, cannabis-related business activities in the United States may form the basis for prosecution under applicable US federal money laundering legislation.

While the approach to enforcement of such laws by the federal government in the United

States has trended toward non-enforcement against individuals and businesses that comply with medical or adult-use cannabis programs in states where such programs are legal, strict compliance with state laws with respect to cannabis will neither absolve TerrAscend of liability under U.S. federal law, nor will it provide a defense to any federal proceeding which may be brought against TerrAscend. The enforcement of federal laws in the United States is a significant risk to the business of TerrAscend and any proceedings brought against TerrAscend thereunder may adversely affect TerrAscend's operations and financial performance.
