# Herbalife Ltd. Announces Record Fourth-Quarter and Full Year Results

## Full Year 2007 Net Sales Increase 13.8 Percent to \$2.1 Billion

LOS ANGELES--(BUSINESS WIRE)--

Herbalife Ltd. (NYSE: HLF) today reported fourth quarter net sales of \$578.1 million, an increase of 18.6 percent compared to the same period of 2006. This record performance was attributable to double-digit growth in several of the company's top countries; the U.S. up 22.1 percent, Taiwan up 18.9 percent, Italy up 21.9 percent and China up 145.8 percent compared to the same period in 2006, coupled with the favorable impact from currency fluctuations. The company's Chairman and Chief Executive Officer Michael O. Johnson, said, "We are pleased to report our 16th consecutive quarter of double-digit growth and record net sales reflecting the strong performance of our independent distributor organization. Our margins and record bottom line performance reflects the strong top line growth coupled with our initiatives to continually leverage our infrastructure to improve profitability."

During the fourth quarter 2007, total Sales Leaders<sup>(1)</sup> increased 16.0 percent to 473,846 and new Sales Leaders increased 10.4 percent to 56,739 versus the fourth quarter of 2006. The company's President's Team membership increased 11.8 percent to 1,105 members and the company's prestigious Chairman Club increased to 32 members. Greg Probert, the company's president and chief operating officer, said, "The growth rate of new Sales Leaders in the fourth quarter was the highest of the year, reflecting the tremendous momentum in our distributor organization."

### Financial Performance

For the quarter ended December 31, 2007, the company reported net income of \$53.8 million, or \$0.77 per diluted share, compared to \$41.7 million, or \$0.56 per diluted share in the fourth quarter of 2006. The increase in net income was primarily attributable to double-digit net sales growth and expansion in operating profit margins. Excluding the impact of realignment for growth costs and certain other items<sup>(2)</sup>, fourth quarter 2007 net income increased 24 percent to \$55.1 million or \$0.79 per diluted share, compared to \$0.59 per diluted share in the fourth quarter of 2006. The company's share repurchase program had an accretive impact on diluted earnings per share.

During the fourth quarter, the company repurchased 3.9 million shares of its common stock through open market transactions at an average price of \$41.56 for an aggregate cost of \$161.8 million. Since this share repurchase program was authorized in April 2007, through early January 2008, the company has repurchased 9.5 million shares at an aggregate cost of \$383.5 million, which is 85 percent of the \$450 million authorization, and 13 percent of its

outstanding common stock. The company used excess cash along with debt to fund the repurchase.

During the fourth quarter, the company invested \$17.0 million in capital expenditures, primarily related to enhancements to its management information systems and additional infrastructure investments to improve distributor service levels in high growth markets.

For the year ended December 31, 2007, the company reported net sales of \$2.15 billion, an increase of 13.8 percent compared to \$1.89 billion in 2006. Excluding the impact of expenses related to the company's realignment for growth initiative and other items(2), fiscal year 2007 net income increased 28.0 percent to \$196.7 million, or \$2.71 per diluted share, compared to \$2.06 per diluted share in 2006.

#### Fourth Quarter 2007 Business Highlights

The company supported the development and training of its distributors during the fourth quarter by hosting multiple events including over 7,000 distributors at the North America Herbalife University and Latino Development Weekend and over 6,000 distributors at the northeast Brazil Extravaganza.

In late 2007, the company realigned its regional structure from seven to five regions. The North America, Mexico & Central America, and EMEA regions remain essentially unchanged. The South America region now includes Brazil, and the former Southeast Asia, North Asia and Greater China regions have been combined into an Asia Pacific region.

"We continue to align company resources to better support our distributors and their daily methods of operation," said Greg Probert. "This updated regional structure allows us to better support the geographic reach of the distributor leadership and enhance sales, marketing and product synergies within the regions."

Total Sales Leaders as of December 31, 2007 increased 22.5 percent versus December 31, 2006 to 111,250. This includes China sales employees, which increased 188.2% to 22,291.

Excluding currency fluctuations, net sales increased 39.7 percent. The growth in the region was primarily attributable to double and triple digit growth in key markets including Venezuela up 349.0 percent, Bolivia, up 147.0 percent, and Argentina, up 38.3 percent, coupled with growth in Peru, which opened in December 2006. This was offset by declines in Brazil, down 2.6 percent. Total Sales Leaders in the region, as of December 31, 2007, increased 26.1 percent versus December 31, 2006 to 91,052.

The Mexico and Central America region reported net sales of \$97.8 million in the fourth quarter of 2007, up 2.1 percent versus the same period of 2006.
