# Herbalife Ltd. Announces Record First-Quarter 2008 Results

## First Quarter Net Sales Increase 19.0 Percent to \$604.4 Million President & COO Probert Resigns

LOS ANGELES--(BUSINESS WIRE)--

Herbalife Ltd. (NYSE: HLF) today reported first quarter net sales of \$604.4 million, an increase of 19.0 percent compared to the same period of 2007. This record performance was attributable to double-digit growth in several of the company's top countries; the U.S. up 14.3 percent, Taiwan up 14.8 percent, Italy up 29.7 percent, China up 111.5 percent, Japan up 10.4 percent, and Spain up 30.2 percent in each case as compared to the same period in 2007, including a 710 basis point favorable impact from currency fluctuations. The company's Chairman and Chief Executive Officer Michael O. Johnson, said, "We are pleased to report our 17th consecutive quarter of double-digit growth and record net sales, as all five of our regions reported positive sales growth, reflecting the strong performance of our independent distributor organization. Herbalife's continued success reflects geographic balance among our portfolio of 65 markets coupled with our distributor's transition to a daily consumption retail model."

During the first quarter 2008, total Sales Leaders(1) increased 11.9 percent to 351,448 and new Sales Leaders increased 10.4 percent to 48,805 versus the first quarter of 2007. The company's President's Team membership increased 12.9 percent to 1,132 members and the company's prestigious Chairman's Club increased 16.7 percent to 35 members. "Double-digit growth of our Sales Leaders at all recognition levels of our marketing plan demonstrates the vitality we have throughout the distributor organization. Close collaboration between our independent distributors and our management team, coupled with strong distributor leadership, provides the foundation for our continued strong topline sales performance," added Johnson.

For the quarter ended March 31, 2008, the company reported net income of \$62.4 million, or \$0.93 per diluted share, compared to \$41.2 million, or \$0.55 per diluted share in the first quarter of 2007. The increase in net income was primarily attributable to double-digit net sales growth, expansion in operating profit margins, and a lower effective tax rate. Excluding the impact of expenses associated with the Realignment for Growth initiative and increase in tax reserves in first quarter 2007(2), adjusted diluted earnings per share in the first quarter of 2008 was a \$0.32 improvement compared to the \$0.61 in the first quarter of 2007, reflecting an increase of 52.1 percent.

During the first quarter, the company repurchased 0.4 million of its common shares through open market transactions at an average price of \$39.28 for an aggregate cost of \$17.7 million. Since this share repurchase program was authorized in April 2007 through first

quarter 2008, the company has repurchased 9.5 million shares at an aggregate cost of \$383.5 million, which is 85 percent of the \$450 million authorization, or approximately 13 percent of its common stock, outstanding at the end of March 2008.

During the first quarter, the company invested approximately \$25 million in capital expenditures, primarily related to enhancements to its management information systems, including the roll out of its Oracle ERP system, and additional infrastructure investments to improve distributor service levels in high growth markets.

#### First Quarter 2008 Business Highlights

The company supported the development and training of its distributors during the first quarter by hosting multiple events, including over 20,000 distributors at the South America Extravaganzas, as well as training events in the North America, EMEA, Mexico and Central America and Asia Pacific regions.

### President & COO Probert Resigns

Chairman and CEO Michael O. Johnson accepted President and COO Gregory L. Probert's resignation effective April 30, 2008. The misstatement of Probert's academic credentials has been a matter under review by the board of directors. Given the company's unwavering commitment to the highest standards in business ethics, the company had no other choice but to accept the resignation. Existing Herbalife personnel have assumed Probert's responsibilities. Des Walsh, senior vice president of worldwide sales, has been promoted to executive vice president.

"Greg made substantial contributions to Herbalife," said Johnson. "The circumstances surrounding his resignation are disappointing but I am very pleased that Des Walsh has accepted an expanded role in the company."

In addition to his current responsibilities for sales strategy, business development, corporate events, call center and distributor services, and worldwide promotions, the company's five regional managing directors will now report to Walsh, as will additional key functions in support of Herbalife's independent distributors such as corporate marketing services and alliances.

"Des and I worked together at Disney in the successful expansion of the video business, and for the last four years at Herbalife, he has been instrumental to our very strong relationship with our distributors," said Johnson. "Our distributors are the key to our success and Des is known and respected worldwide for his leadership."

Walsh has extensive international business experience gained during his 20-year career in sales, marketing and executive management. He joined Herbalife in 2004 from DMX Music, where he was senior vice president of the commercial division and responsible for innovative sales programs and partnerships that led to growth in new U.S. markets. Prior to DMX, he was a vice president of Disney's Buena Vista Home Entertainment, where he played a key role in expanding the company's video business in the major markets of the world. Walsh's previous experience includes key management positions at MovieQuik Systems, a division of The Southland Corporation (now 7-Eleven), and Commtron Corporation, a leading consumer electronics and video distribution company.
