**Part II – Organizational Action**

**Line 14. Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action.**

On November 4, 2021, the Board of Directors for Hannon Armstrong Sustainable Infrastructure Capital, Inc. ("Hannon") approved a quarterly cash dividend on common stock of \$.35 a share. The dividend is payable on January 11, 2022 to common stockholders of record on December 28, 2021 (ex-dividend date of December 27, 2021). Pursuant to Section 4.04 of the Second Supplemental Indenture, dated as of August 21, 2020, 0% Convertible Senior Notes due 2023 (the "Convertible Notes"), the conversion rate on the Convertible Notes was increased to take into account the portion of such quarterly dividend which was in excess of 34 cents per share (the "Conversion Rate Adjustment"). Such adjustment to the conversion ratio is treated as a deemed distribution of property to the holders of the Convertible Note to which Section 301 applies by reason of Section 305(b)(2) and Section 305.

**Line 15. Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis.**

Because there was a cash dividend declared and paid with respect to the common stock and a corresponding Conversion Rate Adjustment, such Conversion Rate Adjustment constitutes a deemed distribution of common stock with respect to each Convertible Note to which Section 301 applies. The amount of the deemed distribution with respect to each Convertible Note is the fair market value of the incremental share of common stock to which the holder of the Convertible Note is entitled by reason of the Conversion Rate Adjustment. The conversion rate increased from 20.689 shares of Hannon common stock per Convertible Note to 20.693 shares of Hannon common stock per Convertible Note. Based on the per common share market value of \$53.15 on the trading day immediately preceding the ex-dividend date of December 27, 2021, the fair market value of the incremental share of common stock to which a holder of a Convertible Note is entitled is \$0.20826. The basis of each Convertible Note is increased by the fair market value of the deemed distribution. (In the event and to the extent that the fair market value of the deemed distribution (\$0.20826) exceeds the allocable share of current and accumulated earnings and profits (the "excess amount"), each holder of a Convertible Note would reduce the basis of the Convertible Note by such excess amount

(but not below zero), and then increase the basis of the Convertible Note by the fair market value of the deemed distribution.)

**Line 16. Describe the calculation of the change in basis and the date that supports the calculation, such as the market value of securities and valuation dates.**

The amount of the deemed distribution per Convertible Note is \$0.20826. The basis of each Convertible Note is increased by \$0.20826. (In the event and to the extent the fair market value of the deemed distribution (\$0.20826) exceeds the allocable share of current and accumulated earnings and profits (the “excess amount”), each holder of a Convertible Note would reduce the basis of the Convertible Note by such excess amount (but not below zero), and then increase the basis of the Convertible Note by \$0.20826.)

**Line 17. List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based.**

IRC Sections 305(b)(2), 305(c), 301(c) and 301(d)

**Line 18. Can any resulting loss be recognized?**

No.

**Line 19. Provide any other information necessary to implement the adjustment, such as the reportable tax year.**

The reportable tax year is calendar year 2022.
