

WisdomTree Announces Third Quarter 2025 Results

Record AUM of \$137.2 Billion

11% Annualized Organic Growth Rate Across All Products

Diluted Earnings Per Share of \$0.13 (\$0.23, as Adjusted)

NEW YORK--(BUSINESS WIRE)-- WisdomTree, Inc. (NYSE: WT), a global financial innovator, today reported financial results for the third quarter of 2025.

\$19.7 million of net income (\$34.5⁽¹⁾ million of net income, as adjusted), including a loss on extinguishment of convertible notes of \$13.0 million arising from the repurchase of \$24.0 million aggregate principal amount of our 5.75% convertible senior notes due 2028 (the “2028 Notes”). See “Non-GAAP Financial Measurements” for additional information.

\$137.2 billion of ending AUM, an increase of 8.8% from the prior quarter arising from market appreciation and net inflows.

\$2.2 billion of net inflows, primarily driven by inflows into our commodity, cryptocurrency and international developed equity products.

0.35% average advisory fee, unchanged from the prior quarter.

0.38% adjusted revenue yield⁽²⁾, unchanged from the prior quarter.

\$125.6 million of operating revenues, an increase of 11.5% from the prior quarter due to higher average AUM and higher other revenues attributable to our European listed exchange-traded products (“ETPs”).

82.2% gross margin⁽¹⁾, a 1.1 point increase from the prior quarter due to higher revenues.

36.3% operating income margin (38.3%⁽¹⁾ as adjusted), a 5.5 point increase (5.8 point increase, as adjusted) from the prior quarter primarily due to higher revenues.

\$475.0 million issuance of convertible senior notes due 2030 (the “2030 Notes”), bearing interest at a rate of 4.625% and issued with a conversion price of \$19.15 per share. Concurrent with the issuance, we paid \$36.7 million to repurchase \$24.0 million aggregate principal amount of our 2028 Notes (with a conversion price of \$9.54 per share).

\$90.0 million of cash consideration paid to repurchase approximately 6.8 million shares of our common stock in connection with the issuance of the 2030 Notes.

\$0.03 quarterly dividend declared, payable on November 26, 2025 to stockholders of record as of the close of business on November 12, 2025.

Update from Jarrett Lilien, WisdomTree COO and President

We're executing with consistency and focus, delivering over \$2.2 billion of net inflows in Q3, record firmwide AUM of \$137 billion, and strong performance across every business line. Model portfolios remain one of our fastest-growing areas, with AUM reaching nearly \$5.9 billion, up more than 50% year-to-date, and continued advisor adoption led by custom model solutions. We're building meaningful momentum and are well positioned to capture future growth.

Update from Jonathan Steinberg, WisdomTree CEO

WisdomTree's foundation is the strongest it's ever been, supported by a diversified, scalable platform that continues to deliver broad-based inflows and consistent execution across our global business. Our expansion into private assets through the acquisition of Ceres Partners, along with continued leadership in tokenization, positions WisdomTree for long-term, technology-driven growth and sustained value creation.

QUARTERLY HIGHLIGHTS

Operating Revenues

- Operating revenues increased 11.5% from the second quarter of 2025 due to higher average AUM and higher other revenues attributable to our European listed ETPs. Operating revenues increased 11.0% from the third quarter of 2024 due to higher average AUM and higher other revenues attributable to our European listed ETPs, partly offset by a lower average advisory fee. Other income for the third quarter of 2024 also included \$3.7 million of other revenue related to legal and other related expenses incurred in connection with a settlement with the U.S. Securities and Exchange Commission (the “SEC”) regarding certain statements about the ESG screening process for three exchange-traded funds (“ETFs”) advised by WisdomTree Asset Management, Inc. (the “SEC ESG Settlement”) that were covered by insurance.
- Our average advisory fee was 0.35% during the second and third quarters of 2025 and 0.37% during the third quarter of 2024.

Operating Expenses

- Operating expenses increased 2.5% from the second quarter of 2025 primarily due to higher fund management and administration expenses and compensation expense. These increases were partly offset by lower marketing expense.
- Operating expenses increased 10.5% from the third quarter of 2024 primarily due to higher compensation expense, acquisition-related costs, fund management and administration expenses and third-party distribution fees. These increases were partly offset by lower professional fees, as the third quarter of 2024 included \$3.7 million of legal and other related expenses incurred in connection with the SEC ESG Settlement that were covered by insurance.

Other Income/(Expenses)

- Interest expense increased 54.2% and 68.4% from the second quarter of 2025 and third quarter of 2024, respectively, due to a higher level of debt outstanding, partly offset by a lower average interest rate.
- Interest income increased 92.1% and 123.7% from the second quarter of 2025 and the third quarter of 2024, respectively, due to an increase in the level of interest-earning assets.
- During the third quarter of 2025, we recognized a loss on extinguishment of convertible notes of \$13.0 million arising from the repurchase of \$24.0 million aggregate principal amount of our 2028 Notes.
- Other gains and losses, net, was a gain of \$1.3 million for the third quarter of 2025. This included net gains of \$1.1 million on our financial instruments owned, and net losses of \$1.0 million on our investments. Gains and losses also generally arise from the sale of gold and cryptocurrency earned from management fees paid by our physically-backed gold and crypto ETPs, foreign exchange fluctuations and miscellaneous items.

Income Taxes

- Our effective income tax rate for the third quarter of 2025 was 33.3%, resulting in income tax expense of \$9.8 million. The effective tax rate differs from the federal statutory rate of 21.0% primarily due to a non-deductible loss on extinguishment of convertible notes and non-deductible executive compensation. These items were partly offset by a lower tax rate on foreign earnings.
- Our adjusted effective income tax rate for the third quarter of 2025 was 23.9%⁽¹⁾.

NINE MONTH HIGHLIGHTS

- Operating revenues increased 9.2% as compared to 2024 due to higher average AUM and higher other revenues attributable to our European listed ETPs, partly offset by a lower average advisory fee. Other income for the prior year also included \$4.1 million of other revenue related to legal and other related expenses incurred in connection with the SEC ESG Settlement that were covered by insurance.
- Operating expenses increased 8.0% as compared to 2024 primarily due to higher compensation expense, acquisition-related costs, fund management and administration expenses, third-party distribution fees and sales and business development expenses. These increases were partly offset by lower professional fees, as the prior year included \$5.0 million of expenses incurred in response to an activist campaign and \$4.1 million of other revenue related to legal and other related expenses incurred in connection with the SEC ESG Settlement that were covered by insurance.
- Significant items reported in other income/(expense) in 2025 include: an increase in interest expense of 45.9% due to a higher level of debt outstanding, partly offset by a lower average interest rate; a loss on extinguishment of convertible notes of \$13.0 million arising from the repurchase of \$24.0 million aggregate principal amount of our 2028 Notes; an increase in interest income of 72.8% due to an increase in our interest-earning assets; net gains on our financial instruments owned of \$1.9 million and \$2.4 million of foreign currency remeasurement losses on U.S. dollars held by foreign subsidiaries. Gains and losses also generally arise from the sale of gold earned on

- management fees paid by our physically-backed gold ETPs, other foreign exchange fluctuations and miscellaneous items.
- Our effective income tax rate for 2025 was 24.7%, resulting in an income tax expense of \$22.6 million. Our tax rate differs from the federal statutory rate of 21.0% primarily due to a non-deductible loss on extinguishment of convertible notes and non-deductible executive compensation. These items were partly offset by a lower tax rate on foreign earnings.

(1) See "Non-GAAP Financial Measurements."

(2) Adjusted revenue yield is computed by dividing our annualized adjusted operating revenues as reported in the GAAP to Non-GAAP Reconciliation herein by our average AUM during the period.

(3) Earnings per share ("EPS") is calculated pursuant to the two-class method as it results in a lower EPS amount as compared to the treasury stock method. In addition, the three months ended September 30, 2025 includes \$718 of stock repurchase excise taxes. The three months ended September 30, 2024 includes a loss of \$11,375 recognized upon the repurchase of our Series A Non-Voting Convertible Preferred Stock convertible into approximately 14.75 million shares of common stock from ETFS Capital Limited and \$1,868 of stock repurchase excise taxes. These items are excluded from net income but are required to be added to net income to arrive at income available to common stockholders in the calculation of EPS. These items are excluded from our EPS when computed on a non-GAAP basis.

NON-GAAP FINANCIAL MEASUREMENTS

In an effort to provide additional information regarding our results as determined by GAAP, we also disclose certain non-GAAP information which we believe provides useful and meaningful information. Our management reviews these non-GAAP financial measurements when evaluating our financial performance and results of operations; therefore, we believe it is useful to provide information with respect to these non-GAAP measurements so as to share this perspective of management. Non-GAAP measurements do not have any standardized meaning, do not replace nor are they superior to GAAP financial measurements and are unlikely to be comparable to similar measures presented by other companies. These non-GAAP financial measurements should be considered in the context with our GAAP results. The non-GAAP financial measurements contained in this press release include:

Adjusted Revenues, Operating Income, Operating Expenses, Income Before Income Taxes, Income Tax Expense, Net Income and Diluted Earnings per Share

We disclose adjusted revenues, operating income, operating expenses, income before income taxes, income tax expense, net income and diluted earnings per share as non-GAAP financial measurements in order to report our results exclusive of items that are non-recurring or not core to our operating business. We believe presenting these non-GAAP financial measurements provides investors with a consistent way to analyze our performance. These non-GAAP financial measurements exclude the following:

Gains or losses on financial instruments owned: We account for our financial instruments owned as trading securities, which requires these instruments to be measured at fair value with gains and losses reported in net income. We exclude these items when calculating our non-GAAP financial measurements as the gains and losses introduce earnings volatility and are not core to our operating business.

Foreign currency remeasurement gains and losses on U.S. dollars held by foreign subsidiaries: GAAP requires account balances to be remeasured into an entity's functional currency, with resulting gains and losses reported in net income. Foreign subsidiaries holding U.S. dollars remeasure these balances into their functional currencies and recognize the gains and losses. Beginning in the second quarter of 2025, we began excluding material remeasurement effects from our non-GAAP financial measures, as they introduce earnings volatility, are not core to our operations and arise from balances denominated in our

reporting currency.

Tax windfalls and shortfalls upon vesting of stock-based compensation awards:

GAAP requires the recognition of tax windfalls and shortfalls within income tax expense. These items arise upon the vesting of stock-based compensation awards and the magnitude is directly correlated to the number of awards vesting/exercised, as well as the difference between the price of our stock on the date the award was granted and the date the award vested or was exercised. We exclude these items when calculating our non-GAAP financial measurements as they introduce earnings volatility and are not core to our operating business.

Imputed interest on our payable to the Gold Bullion Holdings (Jersey) Limited (“GBH”):

During the fourth quarter of 2023, we repurchased our Series C Non-Voting Convertible Preferred Stock, which was convertible into approximately 13.1 million shares of WisdomTree common stock, from GBH, a subsidiary of the World Gold Council, for aggregate cash consideration of approximately \$84.4 million. Under the terms of the transaction, we paid GBH \$40.0 million on the closing date, with the remainder of the purchase price payable in equal annual installments on the first, second and third anniversaries of the closing date, with no requirement to pay interest. Under U.S. GAAP, the obligation is recorded at its present value utilizing a market rate of interest on the closing date of 7.0% and the corresponding discount is amortized as interest expense pursuant to the effective interest method of accounting over the life of the obligation. We exclude this item when calculating our non-GAAP financial measurements as recognition of interest expense is non-cash and contrary to the stated terms of our obligation.

Other items: Loss on extinguishment of convertible notes, acquisition-related costs, a civil money penalty in connection with the SEC ESG Settlement, gains and losses recognized on our investments and changes in deferred tax asset valuation allowance are excluded when calculating our non-GAAP financial measurements. We also offset revenues and related expenses pertaining to legal and other related expenses covered by insurance as the gross presentation required under GAAP serves to overstate our revenues and expenses in the ordinary course of business.

Adjusted Effective Income Tax Rate

We disclose our adjusted effective income tax rate as a non-GAAP financial measurement in order to report our effective income tax rate exclusive of items that are non-recurring or not core to our operating business. We believe reporting our adjusted effective income tax rate provides investors with a consistent way to analyze our income taxes. Our adjusted effective income tax rate is calculated by dividing adjusted income tax expense by adjusted income before income taxes. See above for information regarding the items that are excluded.

Gross Margin and Gross Margin Percentage

We disclose our gross margin and gross margin percentage as non-GAAP financial measurements because we believe they provide investors with a consistent way to analyze the amount we retain after paying third-party service providers to operate our ETPs. These measures also assist us in analyzing the profitability of our products. We define gross margin as total adjusted operating revenues less fund management and administration expenses. Gross margin percentage is calculated as gross margin divided by total adjusted operating

revenues.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This press release contains forward-looking statements that are based on our management's beliefs and assumptions and on information currently available to our management. Although we believe that the expectations reflected in these forward-looking statements are reasonable, these statements relate to future events or our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends,"

“plans,” “anticipates,” “believes,” “estimates,” “predicts,” “potential,” “continue” or the negative of these terms or other comparable terminology. These statements are only predictions. You should not place undue reliance on forward-looking statements because they involve known and unknown risks, uncertainties and other factors, which are, in some cases, beyond our control and could materially affect results. Factors that may cause actual results to differ materially from current expectations include, among other things, the risks described below. If one or more of these or other risks or uncertainties occur, or if our underlying assumptions prove to be incorrect, actual events or results may vary significantly from those implied or projected by the forward-looking statements. No forward-looking statement is a guarantee of future performance. You should read this press release completely and with the understanding that our actual future results may be materially different from any future results expressed or implied by these forward-looking statements.

In particular, forward-looking statements in this press release may include statements about:

- anticipated trends, conditions and investor sentiment in the global markets and ETPs;
- anticipated levels of inflows into and outflows out of our ETPs;
- our ability to deliver favorable rates of return to investors;
- competition in our business;
- whether we will experience future growth;
- our ability to develop new products and services and their potential for success;
- our ability to maintain current vendors or find new vendors to provide services to us at favorable costs;
- our ability to successfully implement our strategy relating to digital assets and blockchain-enabled financial services, including WisdomTree Prime® and WisdomTree Connect™, and achieve its objectives;
- our ability to successfully operate and expand our business in non-U.S. markets;
- the effect of laws and regulations that apply to our business;
- the potential benefits arising from our acquisition of Ceres Partners, LLC, including financial or strategic outcomes; and
- our ability to successfully implement our strategic goals relating to the acquisition and integrate the acquired business.

Our business is subject to many risks and uncertainties, including without limitation:

- declining prices of securities, gold and other precious metals and other commodities and changes in interest rates and general market conditions can adversely affect our business by reducing the market value of the assets we manage or causing WisdomTree ETP investors to sell their fund shares and trigger redemptions;
- fluctuations in the amount and mix of our AUM, whether caused by disruptions in the financial markets or otherwise, including but not limited to events such as a pandemic or war, geopolitical conflicts, political events, acts of terrorism and other matters beyond our control, may negatively impact revenues and operating margins, and may impede our ability to refinance our debt upon maturity or increase the cost of borrowing upon a refinancing;
- competitive pressures could reduce revenues and profit margins;
- we derive a substantial portion of our revenues from a limited number of products, and, as a result, our operating results are particularly exposed to investor sentiment toward investing in the products’ strategies and our ability to maintain the AUM of these

products, as well as the performance of these products and market-specific and political and economic risk;

- a significant portion of our AUM is held in products with exposure to U.S. and international developed markets, and we therefore have exposure to domestic and foreign market conditions and are subject to currency exchange rate risks;
- withdrawals or broad changes in investments in our ETPs by investors with significant positions may negatively impact revenues and operating margins;
- we face increased operational, regulatory, financial and other risks as a result of conducting our business internationally, and as we expand our digital assets product offerings and services beyond our existing ETP business;
- many of our ETPs have a limited track record, and poor investment performance could cause our revenues to decline; and
- we depend on third parties to provide many critical services to operate our business and our ETPs. The failure of key vendors to adequately provide such services could materially affect our operating business and harm WisdomTree ETP investors.

Additional risks include those associated with the acquisition of Ceres Partners, LLC, including the risk that integration may be more difficult, time-consuming or costly than expected, or that expected benefits (including projected business growth or the ability to raise additional capital into the funds of the acquired business) may not be realized as anticipated. Other factors, such as general economic conditions, including currency exchange rate fluctuations, also may have an effect on the results of our operations. For a more complete description of the risks noted above and other risks that could cause our actual results to differ from our current expectations, see “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2024, and in subsequent reports filed with or furnished to the SEC.

The forward-looking statements in this press release represent our views as of the date of this press release. We anticipate that subsequent events and developments may cause our views to change. However, while we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. Therefore, these forward-looking statements do not represent our views as of any date other than the date of this press release.
