

SMTC Reports Fourth Quarter and Fiscal Year 2016 Results

TORONTO, March 08, 2017 (GLOBE NEWSWIRE) -- SMTC Corporation (Nasdaq:SMTX), a global electronics manufacturing services provider, today announced fourth quarter 2016 and fiscal year 2016 results.

- Fourth quarter revenue of \$39.7 million, a net loss of \$0.6 million and \$1.1 million in adjusted EBITDA.
- Gross profit for the fourth quarter of \$3.4 million or 8.6% and adjusted gross profit of \$3.6 million or 9.0%.
- Fiscal year 2016 revenue of \$167.9 million, a net loss of \$0.2 million and \$4.7 million in adjusted EBITDA.
- Gross profit for the fiscal year 2016 of \$15.0 million or 9.0% and adjusted gross profit of \$14.2 million or 8.5%.
- Full year cash flow from operations in 2016 was \$6.9 million, compared to \$10.9 million in the prior year.
- Debt, net of cash, was \$4.9 million as at January 1, 2017, a decrease from \$10.4 million for the prior year.

Revenue for the fourth quarter was \$39.7 million with gross profit of \$3.4 million or 8.6% and a net loss of \$0.6 million, compared to revenue in the fourth quarter 2015 of \$60.7 million, gross profit of \$5.5 million and a net income of \$0.8 million. The fourth quarter of 2016 included move related expenditures of \$0.2 million and \$0.4 million in cost of sales and selling general and administrative expenses, respectively, related to the move of the San Jose facility to Fremont that were not incurred in the prior year. In addition there was an unrealized foreign exchange loss on unsettled forward foreign exchange contracts of \$0.2 million during the quarter compared to a gain of \$1.0 million in the prior year quarter. Adjusted EBITDA was \$1.1 million in the fourth quarter of 2016 compared to \$1.5 million in the prior year fourth quarter.

Revenue for the year was \$167.9 million, or a 23.9% decrease from \$220.6 million in 2015. The loss of two customers in the industrial sector represented a decrease of \$33.3 million in revenue. Revenue further decreased as a result of products reaching end of life with four customers representing an additional reduction of \$33.5 million. These reductions were partially offset by new customer revenue exceeding \$14.1 million.

The gross margin for 2016 was 9.0%, compared to 8.0% in the prior year, due to a more profitable product mix in addition to manufacturing labor efficiencies. Adjusted gross profit percentage was 8.5% in 2016 compared to 7.8% in the prior year.

Adjusted EBITDA for the year was \$4.7 million as compared to \$5.7 million in 2015. The reduction was primarily driven by the reduced revenue which was offset by improved gross margins in 2016 as compared to 2015 and reduced selling, general and administrative expenses compared to 2015.

Full year cash flow from operations in 2016 was \$6.9 million, compared to \$10.9 million in the prior year. Debt, net of cash, was \$4.9 million as at January 1, 2017, a decrease from \$10.4 million for the prior year.

Chief Financial Officer Roger Dunfield stated "We continue to drive margin expansion through improved mix and cost containment. We were able to generate cash flow from operations, manage working capital and reduce debt. The amendments to our debt facilities with PNC bank during the quarter has improved our liquidity and better positions us to support future growth."

Interim Chief Executive Officer Edward Smith stated "I am encouraged by the current results and look forward to continuing to improve SMTC to a best in class EMS provider."

Non-GAAP information

Adjusted EBITDA, Adjusted Gross Profit and Adjusted Gross Profit percentage are non-GAAP measures. Adjusted EBITDA is computed as net income (loss) from operations excluding depreciation and amortization, restructuring charges, unrealized foreign exchange gains/losses on unsettled forward foreign exchange contracts, stock based compensation, interest and income tax expense. SMTC Corporation has provided in this release a non-GAAP calculation of Adjusted EBITDA as supplemental information regarding the operational performance of SMTC's core business. A reconciliation of Adjusted EBITDA to net earnings (loss) is included in the attachment. Adjusted Gross Profit is computed as gross profit excluding unrealized gains or losses on unsettled forward foreign exchange contracts. Adjusted Gross Profit percentage is computed as Adjusted Gross Profit divided by revenue. A reconciliation of Adjusted Gross Profit to gross profit is included in the attachment. Management uses these non-GAAP financial measures internally in analyzing SMTC's financial results to assess operational performance and liquidity as well as to provide a consistent method of comparison to historical periods and to the performance of competitors and peer group companies. SMTC believes that these non-GAAP financial measures are useful for management and investors in assessing SMTC's performance and when planning, forecasting and analyzing future periods. SMTC believes these non-GAAP financial measures are useful to investors because it allows for greater transparency with respect to key financial metrics we use in making operating decisions and because investors and analysts use it to help assess the health of our business. Non-GAAP measures are subject to limitations as these measures are not in accordance with, or an alternative for, United States Generally Accepted Accounting Principles (US GAAP) and may be different from non-GAAP measures used by other companies. Because of these limitations, investors should consider Adjusted EBITDA, Adjusted Gross Profit and Adjusted Gross Profit percentage along with other financial performance measures, including revenue, gross profit and net income (loss), as reflected in SMTC's consolidated financial statements prepared in

accordance with US GAAP.

Note for Investors: The statements contained in this release that are not purely historical are forward-looking statements which involve risk and uncertainties that could cause actual results to differ materially from those expressed in the forward-looking statements.
