Management Commentary

“The first quarter of fiscal 2021 was an exceptionally strong start to our new fiscal year,” said Company President and CEO Cheri Beranek. “The \$27.1 million we generated in revenue was a 40% increase over last year and marked the highest revenue level for any fiscal first quarter in Clearfield history. Our growth in the period was again led by double-digit increases from our Community Broadband and Multiple-System Operator (MSO or Cable TV) markets, which were up 71% and 30%, respectively. Our extended and ongoing strong topline performance over the last several quarters also enabled us to exceed the \$100 million

revenue level on a trailing 12-month (TTM) basis for the first time. Additionally, we generated solid gross profit dollars, which totaled \$11.4 million or 42.0% of total revenue, marking the highest gross profit margin we have achieved as a company in more than two years.

“The surging demand and need for high-speed internet access, accelerated by COVID-19, is prevalent across the country, especially in the Community Broadband market in which Clearfield commands a strong market leadership. Our track record and reputation in the Community Broadband market has positioned us extremely well to take share and further capitalize on the expansion that is currently underway as our base of independent telephone providers is joined by utilities and municipalities in delivering high-speed broadband to consumers and businesses. We believe demand will accelerate in 2021 as construction is initiated for the awards recently granted under the Rural Digital Opportunity Fund (RDOF), which will fund up to \$20.4 billion of gigabit speed broadband over the next 10 years. Further, we are encouraged by the meaningful strides we made this quarter in advancing our product portfolio. This included achieving Telcordia Certification for our Aerial Strand-mount FDH as well as receiving approval by a Tier 1 carrier for the use of this product in its network. Due to the COVID crisis gripping our country and market, the launch of our new technologies into the Tier 1 market faces headwinds associated with product introduction and training. As 5G deployments into the access network increase, we are optimistic for increasing revenue among Tier 1 markets moving forward.

“Our strategic plan has been a multi-year initiative to prepare Clearfield for an accelerated rate of demand and growth. We are ready to ‘Come of Age,’ which is the next phase of our multi-year growth plan to further strengthen our core business and position our Company for disruptive growth opportunities. This next phase is defined by three major pillars: *building a better broadband - one community at a time, delivering innovation for true ‘one-fiber’ deployment, and scaling operational excellence for a superior customer experience.* While the underlying objectives are unchanged, the three pillars upholding our ‘Comes of Age’ Plan have evolved to better align with where Clearfield is today as a Company, our end markets and customer needs, and the near- and long-term trends we are seeing in the industry. As we embark on this next phase, an integral part of our continued success and realization of our mission will be our employees’ unwavering commitment to providing best-in-class products and unmatched customer support.

“Looking ahead, due to the ongoing volatility from COVID-19 we are currently in a position to provide only limited financial guidance. We are, however, confident the demand for fiber-fed broadband will continue throughout fiscal 2021 and beyond. Nearer term, we anticipate second quarter to be consistent with the traditional seasonality of revenue being slightly down on a sequential basis. Longer term, our enhanced ‘Comes of Age’ Plan, which targets growth in fiber-fed broadband and 5G access fiber positions us for continued success for Clearfield in the years ahead.”

First Quarter of Fiscal 2021 Financial Results

Revenues for the first quarter of fiscal 2021 increased 40% to \$27.1 million from \$19.4 million in the same year-ago quarter. The increase in revenues was primarily due to higher sales in the Company’s Community Broadband and MSO markets, partially offset by decreases in our legacy and national carrier revenue markets.

Gross profit for the first quarter of fiscal 2021 increased 47% to \$11.4 million, or 42.0% of revenue, from \$7.7 million, or 39.9% of revenue, in the same year-ago quarter. The increase

in gross profit dollars was due to higher sales volume. The increase in gross profit percent was due to a favorable product mix associated with the increased revenue in Community Broadband markets and cost reduction efforts across the Company's product lines, including increased production at its Mexico manufacturing plants, and efficiencies realized from supply chain programs.

Operating expenses for the first quarter of fiscal 2021 totaled \$7.7 million, which compares to \$7.3 million in the same year-ago quarter. The increase in operating expenses consisted primarily of higher compensation costs related to performance compensation accruals.

Income from operations for the first quarter of fiscal 2021 increased 826% to \$3.7 million from \$0.4 million in the same year-ago quarter.

Income tax expense for the first quarter of fiscal 2021 increased 456% to \$684,000 from \$123,000 in the same year-ago quarter due to higher taxable income. Net income for the first quarter of fiscal 2021 totaled \$3.2 million, or \$0.23 per diluted share, an improvement from \$0.5 million, or \$0.04 per diluted share, in the same year-ago quarter.

Cautionary Statement Regarding Forward-Looking Information

Forward-looking statements contained herein and in any related presentation or in the related FieldReport are made pursuant to the safe harbor provisions of the Private Litigation Reform Act of 1995. Words such as “may,” “will,” “expect,” “believe,” “anticipate,” “estimate,” “outlook,” or “continue” or comparable terminology are intended to identify forward-looking statements. Such forward looking statements include, for example, statements about the expected impact of COVID-19 and related economic uncertainty, the Company’s future revenue and operating performance, the impact of the CARES Act or other government programs on the demand for the Company’s products or timing of customer orders, and trends in and growth of the FTTx markets, market segments or customer purchases and other statements that are not historical facts. These statements are based upon the Company’s current expectations and judgments about future developments in the Company’s business. Certain important factors could have a material impact on the Company’s performance, including, without limitation: the as yet-unknown impact of COVID-19 and related economic uncertainty; to compete effectively, we must continually improve existing products and introduce new products that achieve market acceptance; our expected growth is based upon the expansion of the telecommunications market; our operating results may fluctuate significantly from quarter to quarter, which may make budgeting for expenses difficult and may negatively affect the market price of our common stock; our success depends upon adequate protection of our patent and intellectual property rights; intense competition in our industry may result in price reductions, lower gross profits and loss of market share; we rely on single-source suppliers, which could cause delays, increases in costs or prevent us from completing customer orders, all of which could materially harm our business; a significant percentage of our sales in the last three fiscal years have been made to a small number of customers, and the loss of these major customers or significant decline in business with these major customers would adversely affect us; further consolidation among our customers may result in the loss of some customers and may reduce sales during the pendency of business combinations and related integration activities; we may be subject to risks associated with acquisitions that could adversely affect future operating results; product defects or the failure of our products to meet specifications could cause us to lose customers and sales or to incur unexpected expenses; we are dependent upon key personnel; we face risks associated with expanding our sales outside of the United States; our business is dependent on effective management information systems and information technology infrastructure; our results of operations could be adversely affected by economic conditions and the effects of these conditions on our customers’ businesses; changes in government funding programs may cause our customers and prospective customers to delay or reduce purchases; and other factors set forth in Part I, Item 1A. Risk Factors of Clearfield’s Annual Report on Form 10-K for the year ended September 30, 2020 as well as other filings with the Securities and Exchange Commission.
