

Energous Corporation Reports Fourth Quarter and Full Year 2019 Financial Results

SAN JOSE, Calif.--(BUSINESS WIRE)-- Energous Corporation (NASDAQ: WATT), the developer of WattUp®, a revolutionary Wireless Charging 2.0 technology, today announced financial results for the fourth quarter and full year ended December 31, 2019 and provided an update on its operational progress.

Recent Highlights

- Japan regulatory approval received for its WattUp wireless charging technology
- Energous announced that its partners PiBEX and SK Telesys are developing an ultra-wideband (UWB) tracking tag for POSCO, which will include integration with the WattUp RF wireless charging technology
- Announced the availability of its smart glasses developer kits

“With the Japan certification, combined with both the technological and customer progress, we have increasing confidence in a revenue ramp in 2020,” said Stephen R. Rizzone, president and CEO of Energous Corporation. “We are on track to forge ahead with several partnerships and other opportunities, including ZPower and POSCO, to help broaden the installed base of WattUp.”

About Energous Corporation

Energous Corporation (Nasdaq: WATT) is leading the next generation of wireless charging – wireless charging 2.0 – with its award-winning WattUp® technology, which supports fast, efficient contact-based charging, as well as charging at a distance. WattUp is a scalable, RF-based wireless charging technology that offers substantial improvements in contact-based charging efficiency, foreign object detection, orientation freedom and thermal performance compared to older, coil-based charging technologies. The technology can be designed into many different sized electronic devices for the home and office, as well as the medical, industrial, retail and automotive industries, and it ensures interoperability across products. Energous develops silicon-based wireless power transfer (WPT) technologies and customizable reference designs. These include innovative silicon chips, antennas and software, for a large variety of applications, such as smartphones, fitness trackers, hearables, medical sensors and more. Energous received the world's first FCC Part 18 certification for at-a-distance wireless charging, and the company has 220 awarded patents for its WattUp wireless charging technology to-date. Safe Harbor Statement

This press release contains forward-looking statements that describe our future plans and expectations. These statements generally use terms such as “believe,” “expect,” “may,” “will,” “should,” “could,” “seek,” “intend,” “plan,” “estimate,” “anticipate” or similar terms. Examples of our forward-looking statements in this release include our statements about FCC certification of our technology, regulatory approvals internationally, and customer releases of products utilizing our technology. Our forward-looking statements speak only as of this date; they are based on current expectations and we undertake no duty to update them. Factors that could cause actual results to differ from what we expect include: uncertain timing of necessary regulatory approvals; timing of customer product development and market success of customer products; our dependence on distribution partners; and intense industry competition. We urge you to consider those factors, and the other risks and uncertainties described in our most recent annual report on Form 10-K and subsequent

quarterly reports on Form 10-Q, in evaluating our forward-looking statements.
