Mirion Technologies Dosimetry Service Division Awarded Contract to Supply Dosimetry Services to Illinois-Based Exelon Nuclear, the Nation's Largest Nuclear Utility

SAN FRANCISCO, Jan. 22 /PRNewswire/ -- Mirion Technologies Dosimetry Service Division today announced that it has been awarded the contract to continue to provide dosimetry services to Exelon Nuclear, the nation's largest nuclear utility and its subsidiaries.

"We are pleased to be selected once again as Exelon's dosimetry service supplier," stated Sander Perle, President, of the Dosimetry Service Division. "This award is a testament to the trust of our customers in the quality of our service and our company. We are proud to be the continued trusted supplier of their radiation monitoring program."

Mirion Technologies now provides dosimetry services to 58 of the 104 nuclear reactors in the United States, making Mirion one of the leading dosimetry service providers in the nuclear segment.

ABOUT MIRION TECHNOLOGIES DOSIMETRY SERVICE DIVISION

Mirion Technologies Dosimetry Service Division provides dosimetry, consulting, and system integration services to the nuclear, government, and medical markets. The division is headquartered in Irvine, California, and sells under the Global Dosimetry Solutions brand.
