## **Titan's Probuphine® Commercialization Partner, Molteni, Enters Into Exclusive European Distribution Agreement With Accord Healthcare**

SOUTH SAN FRANCISCO, Calif., Sept. 15, 2020 /PRNewswire/ -- Titan Pharmaceuticals, Inc. (NASDAQ: TTNP) ("Titan" or the "Company") today announced that its partner, Molteni Farmaceutici ("Molteni"), has entered into an exclusive distribution agreement with Accord Healthcare Europe ("Accord") for the commercialization of Sixmo®-(6-months buprenorphine implant), the brand name for Probuphine® in the European Union ("EU").

This distribution agreement brings together the expertise and heritage of Molteni in the specialty opioid addiction market with the extensive commercial reach of Accord, one of the fastest growing pharmaceutical companies in Europe.

"Accord is a global pharmaceutical company with a strong presence across Europe; the decision to enter the addiction treatments' space with Sixmo confirms the attractiveness of our novel product as well as the potential of our proprietary technology to contribute to the fight against the global opioid epidemic. We are preparing to ship to Molteni the product supply for the European launch," said Titan's President and CEO, Sunil Bhonsle. "Pursuant to our asset purchase, supply and support agreement with Molteni, we are entitled to approximately \$1.1 million in future milestone payments and royalty payments on net sales of Sixmo, commencing in the second half of 2021."

### **About Titan Pharmaceuticals**

Titan Pharmaceuticals, Inc. (NASDAQ:TTNP), based in South San Francisco, CA, is a commercial stage company developing proprietary therapeutics with its ProNeura® long-term, continuous drug delivery technology. The Company's lead product is Probuphine® (buprenorphine) implant, a novel and long-acting formulation of buprenorphine for the long-term maintenance treatment of opioid dependence. Approved by the U.S. Food and Drug

Administration in May 2016, Probuphine is the first and only commercialized treatment of opioid dependence to provide continuous, around-the-clock blood levels of buprenorphine for six months following a single procedure. The ProNeura technology also has the potential to be used in developing products for treating other chronic conditions such as Parkinson's disease and hypothyroidism, where maintaining consistent, around-the-clock blood levels of medication may benefit the patient and improve medical outcomes.
