Corbus Pharmaceuticals to Present at the Leerink Partners Rare Disease Roundtable in New York on Wednesday, October 1, 2014

Norwood, MA - September 30, 2014 - [Corbus Pharmaceuticals Holdings, Inc.](#), an emerging drug development company focused on the development and commercialization of its lead product candidate, [Resunab™](#), for the treatment of rare, life-threatening inflammatory diseases, announced today that the Company's Chief Executive Officer, Yuval Cohen, Ph.D., will be presenting at the Leerink Partners Rare Disease Roundtable on Wednesday, October 1, 2014 at Le Parker Meridien Hotel in New York City. Dr. Cohen's presentation, scheduled for 3:35 p.m. Eastern Time in the Tansa Room, will include a Company update and a review of the clinical development plans for its lead product candidate, Resunab, in the treatment of Systemic Sclerosis and Cystic Fibrosis

About Resunab™

Resunab is a novel synthetic oral drug with unique anti-inflammatory and anti-fibrotic activity. Pre-clinical and Phase 1 studies have shown Resunab to have an excellent safety profile in humans and promising potency. Resunab binds to the CB2 receptor of immune cells and triggers a process known as "inflammatory resolution", in effect turning chronic inflammation "off."

About Corbus Pharmaceuticals

Corbus Pharmaceuticals is a clinical stage biopharmaceutical company, focused on the development and commercialization of novel therapeutics to treat rare ("orphan"), life-threatening inflammatory-fibrotic diseases with clear unmet medical needs. Our lead product Resunab is a novel oral anti-inflammatory drug scheduled to commence Phase 2a clinical trials for the treatment of cystic fibrosis and diffuse scleroderma in 2015. Forward-Looking Statements

This press release includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are subject to risks, uncertainties and other factors, including the possibility of unfavorable results from studies and clinical trials involving Resunab or other product candidates. Corbus Pharmaceuticals Holdings, Inc. also faces risks related to its ability to enroll patients in studies and may need to modify or delay these studies. As a result, Resunab may never be successfully commercialized. These risks, uncertainties and other factors could cause actual results to differ materially from those referred to in the forward-looking statements. The reader is cautioned not to rely on these forward-looking statements. All forward-looking statements are based on information currently available to Corbus Pharmaceuticals Holdings, Inc. and the Company assumes no obligation to update any such forward-looking statements.
