WiSA Member SKYWORTH Launches Metz Sculptur 1 TV and Speakers Featuring Integrated Wireless Audio Connectivity

Leading TV manufacturer in China announces the world premiere of the Metz Skulptur1 TV of the Black Label Skulptur1 Series, offering wireless audio capabilities

SAN JOSE, Calif.--(BUSINESS WIRE)-- WiSA® LLC, founded by Summit Wireless Technologies (NASDAQ: WISA), today announced that Association member SKYWORTH Group Limited (HKG: 00751), the largest TV manufacturer in China, has launched the Metz Skulptur1 TV and speakers complete with wireless connectivity technology. As part of the Black Label Skulptur1 Series, this launch serves as Metz's world premier product from the century-old luxury TV manufacturer now owned by SKYWORTH.

"The integration of WiSA wireless immersive sound technology into our Skulptur1 TV is a key contributor to its position at the top of the premium TV space," said Tony Wang, CEO and President of SKYWORTH. "Consumers want a perfect union of style, performance and simplicity, and that is exactly what we have achieved as beautiful design and game-changing technology have been brought together to create a truly amazing home entertainment system."

The Metz Black Label appeals to the Chinese market's high-end consumer group, offering a TV product line that delivers high definition, multi-channel wireless speaker connectivity for a luxurious, cinema-like experience at home along with amazing video quality and stunning design. The 77-inch Metz Skulptur1 TV combines a 4K 120Hz OLED self-luminous screen, Chameleon AI image quality chip, 120Hz MEMC dynamic image compensation technology, and Dolby Vision® HDR imaging technology, and supports 3D LUT high-fidelity images on screen.

"This is a monumental time for WiSA member SKYWORTH, its Metz brand and the future functionality of televisions in the home," said Tony Ostrom, President of WiSA. "The launch of the Metz Skulptur1 Series gives a nod to the modern, aesthetically-pleasing minimalist nature of German design while providing wireless audio capabilities to create an astounding surround sound experience."

Available to bundle with the Metz TV are the Skulptur1 Klang surround speakers and Skulptur1 subwoofer to create a 3.1 home theater system. The surround speakers feature two 3-inch full range drivers as well as a 1-inch high frequency driver. Offering up to 400 watts of power output, the Skulptur1 subwoofer features a 10-inch low frequency driver, while the speakers within Skulptur1 TV serve as the system's center channel to create a true Wall of Sound experience

After the user turns on the TV, they'll witness a slim, main screen slowly rise, revealing an exquisite speaker that represents the classic design of Metz, showcasing unlimited, dynamic

tension. Additionally, the minimalist concept of the Metz Skulptur1 hides body writing, rids of the traditional TV remote controls and limits unnecessary buttons, ultimately highlighting the German quality in the remaining sleek details.

WiSA member SKYWORTH is the leading producer of TV products in China, marketing under four brands: SKYWORTH, Metz, Coocaa and Sinotec. WiSA Certification for the Metz Skulptur1 TV and speakers is planned to be completed in the fourth quarter of 2020.
