# **Climb Channel Solutions Adds Seagate Technology Data Storage Systems to Distribution Line**

EATONTOWN, N.J., Nov. 05, 2020 (GLOBE NEWSWIRE) -- Climb Channel Solutions, an international specialty technology distributor, will begin to distribute Seagate's data storage systems. Purpose built for rapid throughput, Seagate's modular storage solutions help consolidate and manage customer's growing data needs with world-class designs and leading-edge performance.

"We're excited to work with Climb to distribute our best-in-class data storage systems, while supporting our efforts to reduce the cost and complexity of storage infrastructure for customers," states Ken Claffey, Vice President and General Manager of Enterprise Data Solutions, Seagate Technology. "The Climb Team has extensive managed services capabilities, a strong understanding of the customer's storage requirements and desire to grow a business while optimizing cost."

As the only enterprise storage manufacturer that designs and builds its entire system, Seagate creates unparalleled integration and compatibility to offer the best storage solutions at the best value with industry-leading capacity, firmware, and multi-core capabilities. Seagate's cost-effective designs are easy to integrate and made to scale. Having its systems currently deployed in various markets uniquely positions Seagate to provide purpose-built products that solve real-world problems.

Dale Foster, CEO of Climb Channel Solutions, noted "This will be more than a significant partnership with Seagate. We have successfully helped incubate a number of storage startups that were driven by Seagate products. We view this new partnership as a key strategic pillar for Climb Channel Solutions."

Managing data in the multicloud ecosystem is a top data management challenge. Expertly designed for high availability, resilience, and reliability, Seagate solutions can ensure the protection and accessibility you need of your data.
