Similarweb digital intelligence now available in AWS Data Exchange

Collaboration brings Similarweb's enhanced digital insights to millions of AWS customers

TEL AVIV, Israel, July 7, 2021 /PRNewswire/ -- [Similarweb](#) (NYSE: SMWB), a leading digital intelligence company, announces the availability of Similarweb digital insights in AWS Data Exchange, a service that makes it easy for millions of Amazon Web Services, Inc. (AWS) customers to find, subscribe to, and use third-party data in the cloud.

With AWS Data Exchange, customers can access and use Similarweb's industry leading digital intelligence, including Top websites, Trending keywords, and Retail transactions.

Similarweb's datasets in AWS Data Exchange can benefit a wide-range of organizations, from retail and consumer packaged goods companies aiming to enhance their retail analytics suites, to hedge funds and financial services firms looking to enrich big data analysis with digital market intelligence. AWS customers can easily combine Similarweb insights with other data sets and tools within their broader AWS environment.

"We've seen an increasing demand to ingest Similarweb's unique digital intelligence into customers' analytics platforms and workflow, and to leverage it to increase competitive advantage and performance," said Guy Weigert, VP Global Partnerships & Channels at Similarweb. "Making our datasets available in AWS Data Exchange helps simplify access, and introduces a new dimension of usability for our customers. This is one of many steps we are taking to make Similarweb's proprietary digital insights available anywhere our customers want to access it."
