Capstone Turbine to Attend the 3rd Annual Roth Capital Partners Cleantech & Industrial Growth Conference

The conference will be held on June 21 & 22, 2017 in London, U.K.

CHATSWORTH, Calif., June 15, 2017 (GLOBE NEWSWIRE) -- Capstone Turbine Corporation (www.capstoneturbine.com) (NASDAQ:CPST), the world's leading clean technology manufacturer of microturbine energy systems, announced today that its Chief Executive Officer, Darren Jamison and Senior Vice President of Customer Service, Jeff Foster will be attending the Roth Cleantech & Industrial Growth Conference. The conference will be held at the Dorchester Hotel in London, U.K. on Wednesday and Thursday, June 21-22, 2017.

"Following on the heels of our fourth quarter and Fiscal 2017 year-end earnings results from earlier this week, I am excited at the opportunity to attend the upcoming Roth conference in London, and I look forward to meeting and further discussing with the investment community the progress we have made over the last year. We have made significant reductions in our operating expenses, improved market diversification and geographic expansion, and seen a rebound in product revenue and strengthening in our aftermarket service business," said Mr. Jamison.

This conference provides an opportunity for institutional investors to meet with executive management to gain insight into the company. There are approximately 50 companies from the Cleantech & Industrial Growth sectors attending the conference.

Mr. Darren Jamison and Mr. Jeff Foster will be available for one-on-one meetings throughout both conference days. Institutional investors interested in scheduling a one-on-one meeting with Capstone's management team are encouraged to contact their Roth Capital Partners representative.

Capstone's presentation can be viewed the day of the conference by visiting the Investor Relations section of the Capstone's website at www.capstoneturbine.com.

About Capstone Turbine Corporation

Capstone Turbine Corporation (www.capstoneturbine.com) (NASDAQ:CPST) is the world's leading producer of low-emission microturbine systems and was the first to market commercially viable microturbine energy products.
