alphaDIRECT Advisors to Host Capstone's Chief Revenue Officer, Jim Crouse, on December 17, 2019, as Part of The alphaDIRECT Virtual Conference Series

VAN NUYS, CA / ACCESSWIRE / December 12, 2019 /Capstone Turbine Corporation (www.capstoneturbine.com) (NASDAQ:CPST), the world's leading clean technology manufacturer of microturbine energy systems, will be participating in the alphaDIRECT Virtual Conference Series on Tuesday, December 17, 2019, at 12:00 PM ET.

alphaDIRECT Advisors is an investor intelligence firm that creates and implements digital content and programs to help investors better understand a company's key drivers, including industry dynamics, technology, strategy, outlook and risks.

Jim Crouse, Capstone's Chief Revenue Officer, will present an overview of Capstone and the renewable future followed by a short question and answer session. The presentation will be webcast live and available for replay by visiting the Investor Relations section of the Company's website at www.capstoneturbine.com and under the alphaDIRECT Investor Center page at www.alphadirectadvisors.com.

"Climate change, energy efficiency and renewable energy have become part of our daily lives, as energy, energy conservation and creation, and its environmental impacts are important topics both locally and globally. We are going to see more and more governmental policy and regulations drive towards renewable and decarbonization of all energy consumption," said Jim Crouse, Capstone's Chief Revenue Officer. "At Capstone we are seeing an exponential shift of attitudes around the world - for example, a recent UK study showed that 84% of people support or strongly support the use of renewable energy to provide electricity, fuel and heat. As a result, governments are setting targets or goals for carbon reduction," added Mr. Crouse.

"We are pleased to host Capstone in our alphaDIRECT Virtual Conference Series. As recently discussed in our [latest Management Series](#), a combination of increased corporate focus on ESG (Environmental, Social and Governance) principals, government policies, regulations and better economics are creating strong tailwinds for the broader renewable energy sectors. This plays very well into Capstone's core product offerings, in our view, as they are able to effectively and economically supply power while reducing both NOx and CO2 for its customers," said Mr. Severson, Founding Partner of alphaDIRECT Advisors.

Investors interested in participating in this event must register using the link below. Please note that registration for the live event is limited but may be accessed at any time for replay.
